Bureaucracy in a Democratic State Kenneth J. Meier,Laurence J. O'Toole,2006-09-21 Publisher description

The Indian Political Science Review ,1976

The Sociology and Politics of Development Baidya Nath Varma,2010-11-26 Originally published in 1980 this work answers the crucial question of how social change should be guided in the developing countries Professor Varma begins by posing the problems of the general scope of modernization and the general criteria used in the modernization process He examines carefully some of the models

that have been used for this purpose in the past providing extensive summaries of the views on modernization of theorists in various social science disciplines including sociology politics economics and anthropology and stresses the importance of these views in guiding policy decisions The book concludes with a comparison of the development processes of the United States the Soviet Union China Japan and India *Macedonian Political Science Journal Vol 6*, 2016-02-08 MPSeJ is a leading international open access journal that publishes peer reviewed research on critical issues in policy theory law international relations political economy and practice at the local national and international levels *Bureaucracy* Martin Albrow, 1970-06-18 Martin Albrow Honorary Vice President of the British Sociological Association Martin Albrow Honorary Vice President of the British Sociological Association **Masters of Political Science** Donatella Campus, Gianfranco Pasquino, 2009-09-01 For a while now political science as a discipline has been big enough in terms of the number of academics and analytically mature enough to justify reflections on and reviews of its achievements In fact there is no lack of general handbooks dictionaries and state of the art assessments as well as reflective journals such as the ECPR's own *European Political Science* which are useful in helping us to understand and evaluate where we currently are and where we might still need to go The focus of these texts however is on particular concepts themes research areas institutions or behaviour What they rarely do is indulge in a critical reflection on the political scientists themselves especially those who are commonly accepted as having made the most significant contributions to the growth of their discipline This book fills an important gap in the growing reflective literature on the political science discipline it consists of a series of objective profiles of the Masters of Political Science written by political scientists who have read and studied their work and who are therefore in a position to evaluate the nature of their contributions The Masters Robert Dahl Anthony Downs David Easton S E Finer Samuel P Huntington Juan J Linz Seymour Martin Lipset Giovanni Sartori Sidney Verba Aaron Wildavsky Hans Morgenthau *Masters of Political Science* was originally published in Italian by il Mulino Publishing House **Political Science** Herbert F. Weisberg, 1986 If at one time we thought that the movement to science would yield unification of the discipline it is now apparent that there are many roads to science Still it is important for us to consider yet again what the appropriate goals are for our scientific enterprise What works in theory building induction and deduction prediction and control the search for useful principles to guide us OCo examining these questions we can build a better science Political science has come so far as a discipline that different schools and scholars have different interpretations of science in the study of politics and that diversity is important to maintain Advances made in the study of political institutions and behavior are described in twelve essays from the 1983 annual meeting of the American Political Science Association Addressing they do not employ any single approach to the study of the science of politics Taken as a whole they illustrate the multiplicity of interpretations that are presently given to the common enterprise **Global Encyclopedia of Public Administration, Public Policy, and Governance** Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global

scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manger and students worldwide this work will serve as the most viable global reference source for those looking for an introduction and advance knowledge to the field The British National Bibliography ,1968
