Al Qaeda And What It Means To Be Modern:

Al Qaeda And What It Means To Be Modern, 2005 Al Qaeda and What It Means to be Modern John

Gray, 2015-02-12 The suicide warriors who attacked Washington and New York on September 11th 2001 did more than kill thousands of civilians and demolish the World Trade Center They destroyed the West's ruling myth So John Gray begins this short powerful book on the belief that has dominated our minds for a century and a half the idea that we are all more or less becoming modern and that as we become modern we will become more alike and at the same time more familiar and more reasonable Nothing could be further from the truth Gray argues Al Qaeda is a product of modernity and of globalisation and it will not be the last group to use the products of the modern world in its own monstrous way Gray pulls up by the roots the myth that the human condition can be remade by science and progress or political engineering He describes with mordant irony the rise of Positivists the strange sect that put science and technology at the centre of the cult and developed a religion of humanity Through their influence on economists politicians and biologists they still powerfully affect the way we think Gray looks at the various attempts to remake humanity from the Bolshevik and Nazi disasters to the utopian experiments of modern radical Islam and the dreams of the prophets of globalisation And he gives a scathing account of the real sources of conflict in the world of American power and its illusions and of the ways in which cultures will resist the reshaping we might wish on them *The Voice of Al Qaeda* Philipp Hauner, 2009-02-28 Essay from the year 2007 in the subject Politics International Politics Topic International Organisations grade 1 7 LMU Munich Geschwister Scholl Institut für politische Wissenschaft course Seminar Introduction into Terrorism Research 16 entries in the bibliography language English abstract Speaking about terrorism in a scientific way it is inevitable to take into account the relationship between media and terrorism As this essay wants to outline the main characteristics of how and why the transnational terror network Al Qaeda is designing its public appearance a brief introduction into the general discussion on terrorism and the media is given in the following The relationship between these two actors is often described as symbiotic or even one of considerable mutual benefit On the one hand the mass media can profit from the coverage of terrorist attacks because they can increase their circulation or viewing figures On the other hand terrorists achieve the wanted attention convey the propaganda of the deed and inflict great fear on their target groups If successful they can even mobilize wider support and influence political decisions of their enemies in the way that they contribute to the desired escalation spiral This connection probably led former British Prime Minister Margaret Thatcher to the famous words oxygen of publicity A comparison which illustrates the absolute need for terrorists to be covered in the media for them it is as important as the air they breathe Some theorists are sharing the opinion that terrorism only becomes what it is through the media coverage Without the media aspect terrorism remains one more cause of death one of many and not necessarily the most important or most dangerous one But despite the recognition of the so called amplification effect censorship is neither desirable nor realizable in open western societies So it

is often said that we are here caught in a dilemma and the on **The Political Theory of John Gray** John Horton, Glen Newey, 2013-10-28 John Gray is one of today's most brilliant bestselling and controversial political thinkers This new collection examines him from a variety of stimulating angles This new volume comprising original contributions from a number of distinguished political theorists in addition to a reply by Gray himself is the first book to systematically review the general significance of his work He is much cited and discussed within political and social theory but he also has a much wider audience being one of those quite rare creatures in British academic life a public intellectual writing regularly for the quality press and appearing on both radio and TV His books sell in large numbers *Straw Dogs* reached the top five in The Sunday Times bestseller list and was very widely reviewed in broadsheets and weeklies It was extravagantly praised by Will Self and chosen by novelist Monica Ali as her book of the year This book was previously published as a special issue of the leading *Critical Review of International Social and Political Philosophy* We cannot continue like this Attie S. van Niekerk, Sytse Strijbos, 2022-02-07 The book is based on the view that the present trajectory of modern development cannot continue as it is now because it is ecologically unsustainable it continues to enlarge the gap between rich and poor and the decolonisation movement has drawn our attention again to the specific role of religion culture and value in human affairs and the need for a robust element of indigenisation and contextualisation This book is strongly focused on the context of Africa with two chapters that are written by authors from the Netherlands for the purpose of presenting a North South dialogue The book contains a reflection on approaches followed in building sustainable human communities in general and reflection on specific efforts to solve sustainability issues It seeks to integrate academic reflection and insights gained from practical involvement with sustainability issues in local communities and low income households with contributions from Theology and Natural and Social Sciences *The Evil of Terrorism* Uriel Rosenthal, Erwin R. Muller, 2007 The United States and other countries throughout the world have suffered from catastrophic terrorism causing mass casualties Elsewhere terrorists have taken the lives of prominent people in ostentatiously cruel ways In Iraq bloody terrorist attacks are an endemic phenomenon They have become part of daily life There is no reason to expect a reduction of the new terrorism in the foreseeable future On the contrary there will be new waves of terrorism including attacks with unconventional means The globalization of the new terrorism is reflected not only in the mobility of terrorists but especially in the worldwide distribution of ideas and methods practiced by terrorist networks The world is facing the threat of a shift from terrorism to terror towards a society intimidated by a continuous threat of arbitrary massive violence This book addresses the shift in many parts of the world from terrorism to an atmosphere of terror It stresses the lack of symmetry between democratic governments which have to obey the role of law and international conventions and terrorists cherishing a total denial of rules and norms The authors formulate five missions for democratic governments do not deny the most serious threat make life as difficult as possible for terrorists upgrade the quality of acute crisis management in the case of a terrorist attack improve the quality of consequences

management after terrorist attacks and increase the effort to channel collective stress in the aftermath of a terrorist assault The authors claim that the fight against terrorism is first and foremost a responsibility of democratic states Throughout its existence the United Nations has been unable to give shape and substance to an effective counterterrorism strategy An alliance of democratic states would be in a much better position to take on the legitimate fight against international terrorism

Cities of God and Nationalism Khaldoun Samman,2015-12-03 A tour de force in different fields of knowledge It takes world city and world history literatures to a higher level of depth and understanding It is difficult to imagine a more pioneering in depth study of world cities Ramon Grosfoguel Professor Department of Ethnic Studies University of California Berkeley A remarkable and original discussion of three great sacred cities across time and their transformation by nationalism in the modern world Immanuel Wallerstein Yale University Far from spawning an age of tolerance modernity has created the social basis of division and exclusion This book elaborates this provocative claim as it explores the rich but divided histories of three cities located at the crossroads of Islam Christianity and Judaism Many observers presume that violence is built into these sacred cities because their citizens cling to religious or cultural ideals of some archaic age only when this history is overcome can citizens enter a new age of brotherhood Samman persuades us to refocus our attention on modernity which has instilled troubling dilemmas from the outside He shows how these sacred places long ago entered the modern world where global political and economic forces exacerbate nationalism and regional divisions If we are to resolve deep conflicts we must re imagine the institutional basis on which modernity rather than religion is built

Hope in Troubled Times Bob Goudzwaard, Mark Vander Vennen, David Van Heemst, 2007-05 Provides hope for real world solutions to life threatening problems such as global poverty environmental destruction and terrorism **Literature, Migration and the 'War on Terror'** Fiona Tolan, Stephen Morton, Anastasia Valassopoulos, Robert Spencer, 2013-09-13 This is a major new collection of essays on literary and cultural representations of migration and terrorism the cultural impact of 9 11 and the subsequent war on terror The collection commences with analyses of the relationship between migration and terrorism which has been the focus of much mainstream political and media debate since the attacks on America in 2001 and the London bombings in 2005 not least because liberal democratic governments in Europe and North America have invoked such attacks to justify the regulation of migration and the criminalisation of minority groups Responding to the consequent erosion of the liberal democratic rights of the individual leading scholars assess the various ways in which literary texts support and or interrogate the conflation of narratives of transnational migration and perceived terrorist threats to national security This crucial debate is furthered by contrasting analyses of the manner in which novelists from the UK North Africa the US and Palestine have represented 9 11 exploring the event s contexts and ramifications This path breaking study complicates the simplistic narratives of revenge and wronged innocence commonly used to make sense of the attacks and to justify the US response Each novel discussed seeks to interrogate and analyse a discourse typically dominated by consent belligerence and paranoia Together the collected essays suggest the value of literature as an effective critical intervention in the very fraught political aftermath of the war on terror This book was published as a special issue of the Journal of Postcolonial Writing **Moral Clarity** Susan Neiman, 2009-09-06 Neiman reclaims the vocabulary of morality good and evil heroism and nobility as a lingua franca for the twenty first century In constructing a framework for taking responsible action on today s urgent questions she reaches back to the eighteenth century retrieving a series of values happiness reason reverence and hope held high by Enlightenment thinkers In this updated edition Neiman reflects on how the moral language of the 2008 presidential campaign has opened up new political and cultural possibilities in America and beyond Back cover

Education, Globalization and the State in the Age of Terrorism Michael A. Peters, 2015-12-03 Education plays an important role in challenging combating and in understanding terrorism in its different forms whether as counter terrorism or as a form of human rights education Just as education has played a significant role in the process of nation building so education also plays a strong role in the process of empire globalization and resistance to global forces and in terrorism especially where it is linked to emergent statehood This book focuses on the theme of education in an age of terrorism exploring the conflicts of globalization and global citizenship feminism post 9 11 youth identities citizenship and democracy in a culture of permanent war and the relation between education and war with a focus on the war against Iraq **Walking with your time** Christine Gruwez, 2011-06-11 Are we condemned to remain spectators watching the news with growing indignation powerless as we are Or is there a way to develop the presence of mind that is needed in facing our turbulent

times Manichaeism has offered a way for almost two thousand years to encounter evil in an existential way and thereby the light and darkness in ourselves Christine Gruwez makes this christian initiation path of the future accessible for everyone who wants to position him or herself in life as a contemporary Jesus Christ in World History Jan A. B. Jongeneel, 2009 Based on the author's thesis Th D Leiden University 1971 *The Literary Review*, 2003 Knowing al-Qaeda Christina Hellmich, 2016-04-22 Despite a plethora of studies devoted to it the current understanding of al Qaeda and the threat it poses remains vague and ambiguous Is al Qaeda a rigidly structured organisation a global network of semi independent cells a franchise or simply an ideology What role did Osama bin Laden play within the group and its terrorist campaign What does it mean to talk about the global Salafi jihad threat allegedly confronting the West In addressing such questions many writers have sought to offer definitive answers yet overall the truth about al Qaeda remains elusive This book moves beyond this traditional approach in order to investigate and critically assess how such answers reflect the particular epistemological frameworks within which they are produced Its chapters explore the varied contexts within which the obscure entity labelled al Qaeda is constituted as a comprehensible object of political strategic cultural and scientific knowledge and within which terrorism is rendered an experience of quotidian life This volume offers a much needed critical reflection on Western ways of talking and of thinking about the frightening experience of global terrorism In trying to know how we know al Qaeda it offers us an opportunity to try to know ourselves and our often hidden assumptions about legitimacy violence and political purpose
