On the Move Filiz Garip, 2019-05-28 Why do Mexicans migrate to the United States Is there a typical Mexican migrant Beginning in the 1970s survey data indicated that the average migrant was a young unmarried man who was poor undereducated and in search of better employment opportunities This is the general view that most Americans still hold of immigrants from Mexico On the Move argues that not only does this view of Mexican migrants reinforce the stereotype of their undesirability but it also fails to capture the true diversity of migrants from Mexico and their evolving migration patterns over time Using survey data from over 145 000 Mexicans and in depth interviews with nearly 140 Mexicans Filiz Garip reveals a more accurate picture of Mexico U S migration In the last fifty years there have been four primary waves a male dominated migration from rural areas in the 1960s and 70s a second migration of young men from socioeconomically more well off families during the 1980s a migration of women joining spouses already in the United States in the late 1980s and 90s and a generation of more educated urban migrants in the late 1990s and early 2000s For each of these four stages Garip examines the changing variety of reasons for why people migrate and migrants perceptions of their opportunities in Mexico and the United States Looking at Mexico U S migration during the last half century On the Move uncovers the vast mechanisms underlying the flow of people moving between nations

Documenting the Undocumented Marta Caminero-Santangelo, 2017-10-10 Looking at the work of Junot Diaz Cristina Garcia Julia Alvarez and other Latino authors who are U S citizens Marta Caminero-Santangelo examines how writers are increasingly expressing their solidarity with undocumented immigrants Through storytelling these writers create community and a sense of peoplehood that includes non citizen Latino as This volume also foregrounds the narratives of unauthorized migrants themselves showing how their stories are emerging into the public sphere Immigration and citizenship are multifaceted issues and the voices are myriad They challenge common interpretations of illegal immigration explore inevitable traumas and ethical dilemmas protest their own silencing in immigration debates and even capitalize on the topic for the commercial market Yet these texts all seek to affect political discourse by advancing the possibility of empathy across lines of ethnicity and citizenship status As border enforcement strategies escalate along with political rhetoric detentions and deaths these counternarratives are more significant than ever before and their perspectives cannot be ignored What we are witnessing argues Caminero-Santangelo is a mass mobilization of stories This growing body of literature is critical to understanding not only the Latino immigrant experience but also alternative visions of nation and belonging

Border Bandits Camilla Fojas, 2009-06-03 The southern frontier is one of the most emotionally charged zones in the United States second only to its historical predecessor and partner the western frontier Though they span many genres border films share common themes trace the mood swings of public policy and shape our cultural agenda In this examination Camilla Fojas studies how major Hollywood films exploit the border between Mexico and the United States to tell a story about U S dominance in the American hemisphere She charts the shift from the mythos of the open western frontier to that of the embattled southern frontier by offering in depth analyses of particular border films from post World War II Westerns to drug trafficking films to contemporary Latino cinema within their historical and political

contexts Fojas argues that Hollywood border films do important social work by offering a cinematic space through which viewers can manage traumatic and undesirable histories and ultimately reaffirm core American values At the same time these border narratives delineate opposing values and ideas Latino border films offer a critical vantage onto these topics they challenge the presumptions of U S nationalism and subsequent cultural attitudes about immigrants and immigration and often critically reconstruct their Hollywood kin By analyzing films such as *Duel in the Sun* *The Wild Bunch* *El Norte* *The Border Traffic* and *Brokeback Mountain* Fojas demands that we reexamine the powerful mythology of the Hollywood borderlands This detailed scrutiny recognizes that these films are part of a national narrative comprised of many texts and symbols that create the myth of the United States as capital of the Americas

The Deportation Machine Adam Goodman, 2021-09-14 By most accounts the United States has deported around five million people since 1882 but this includes only what the federal government calls formal deportations Voluntary departures where undocumented immigrants who have been detained agree to leave within a specified time period and self deportations where undocumented immigrants leave because legal structures in the United States have made their lives too difficult and frightening together constitute 90% of the undocumented immigrants who have been expelled by the federal government This brings the number of deportees to fifty six million These forms of deportation rely on threats and coercion created at the federal state and local levels using large scale publicity campaigns the fear of immigration raids and detentions to cost effectively push people out of the country Here Adam Goodman traces a comprehensive history of American deportation policies from 1882 to the present and near future He shows that one of the country s largest deportation operations expelled hundreds of thousands of

people almost exclusively through the use of voluntary departures and through carefully planned fear campaigns that terrified undocumented immigrants through newspaper radio and television publicity These deportation efforts have disproportionately targeted Mexican immigrants who make up half of non citizens but 90% of deportees Goodman examines the political economy of these deportation operations arguing that they run on private transportation companies corrupt public private relations and the creation of fear based internal borders for long term undocumented residents He grounds his conclusions in over four years of research in English and Spanish language archives and twenty five oral histories conducted with both immigration officials and immigrants revealing for the first time the true magnitude and deep historical roots of anti immigrant policy in the United Statesws that s
