Wilderness in the Circumpolar North, 2002 There are growing pressures on undeveloped wild places in the Circumpolar North Among them are pressures for economic development oil and gas exploration and extraction development of geothermal energy resources development of heavy industry close to energy sources and lack of appreciation for other orientations toward wilderness resources by interested parties from broad geographical origins An international seminar in Anchorage Alaska in May of 2001 was the first step in providing basic input to an analysis of the primary set of values associated with Circumpolar North wilderness and the constraints and contributors factors of influence that either limit or facilitate receipt of those values to various segments of society

Dominion of Bears Sherry Simpson, 2013-10-18 Long ago we invited bears into our stories our dreams our nightmares our lives We have always sought them out where they live for their hides their meat their beauty their knowingness Human country and bear country exist side by side As Sherry Simpson suggests the relationship between bears and humans is ancient and ongoing and in Alaska profoundly and often uncomfortably close A huge number of North America's bears live in Alaska including at least 31 000 brown bears 100 000 black bears and 3 500 polar bears And nearly every aspect of Alaskan society reflects their presence from hunting to tourism marketing to wildlife management to urban planning A long time Alaskan Simpson offers a series of compelling essays on Alaskan bears in both wild and urban spaces because in Alaska bears are found not only in their natural habitat but also in cities and towns Combining field research interviews and a host of up to date scientific sources her finely polished prose conveys a wealth of information and insight on ursine biology behavior feeding mating social structure and much more Simpson crisscrosses the Alaskan landscape in pursuit of bears as she muses marvels and often stands in sheer awe before these charismatic creatures Firmly grounded in the expertise of wildlife biologists hunters and viewing guides she shows bears as they actually are not as we imagine them to be She considers not only the occasionally aggressive behavior bears need to survive but also the violence exacted upon them by trophy hunters advocates of predator control or suburbanites who view bears as land sharks

that threaten the safety of their families Shifting effortlessly between fascinating facts and poetic imagery Simpson crafts an extended meditation on why we are so drawn to bears and why they continue to engage our imaginations populate indigenous mythologies and help define our essential visions of wilderness As Simpson observes The slightest evidence that bears share your world or that you share theirs can alter not only your sense of the landscape but your sense of yourself within that landscape Second Forest Vegetation Simulator Conference ,2002 *Alaska's Brooks Range* John Kauffmann,1992-11-30 Explores both geologic and human history of the region Includes a sampling of literature inspired by the Brooks Range Examines past present and future conservation efforts in this extraordinary place Not just the ultimate mountains for their northernmost location on the North American continent the Brooks Range also is one of the world s last great unspoiled wildernesses A land of environmental and cultural extremes its impressions on those who visit or reside there is as far ranging as humankind s effect on the Range itself Austere mystical and stunningly beautiful the psychic and corporeal influence of the region is inescapable Alaska s Brooks Range The Ultimate Mountains looks at the many facets that make this region so provocative and so worthy of our strongest preservation efforts It explores the geologic origins of some of the most desolate beauty on earth the native inhabitants both man and animal whose age old methods of survival have been altered by the winds from the lower 48 and the human history from the early British military explorers to gold panners to the geographers who first mapped the Arctic wilderness The story of Bob Marshall traces his influence as the father of the Arctic conservation movement and Range Writings offers a sampling of literature inspired by the Brooks Range experience Finally this book takes a hard look at past present and proposed conservation efforts in the Brooks Range because there is much more at stake than land and wildlife in this last frontier The future of humankind is here where the rarity of existence in pristine country is an everyday reality where we can learn how best to fit in without destroying the scheme of life so exquisitely evolved on this planet Alaska s Brooks Range is an affectionate portrait of an untamed territory a land that challenges the limits of its natural inhabitants and those of human spirit and providence **Summary: The Great Alone - Based On The Book By Kristin Hannah** Storify Library,2023-09-24 SUMMARY THE GREAT ALONE BASED ON THE BOOK BY KRISTIN HANNAH Are you ready to boost your knowledge about THE GREAT ALONE Do you want to quickly and concisely learn the key lessons of this book Are you ready to process the information of an entire book in just one reading of approximately 20 minutes Would you like to have a deeper understanding of the techniques and exercises in the original book Then this book is for you BOOK CONTENT Introduction to The Great Alone The All American Family A Fateful Decision Journey to the Last Frontier Settling in Alaska The Harsh Reality of Survival The Unforgiving Wilderness The Beauty and Brutality of Nature A Fractured Community Secrets of the Past A Daughter s Resilience Love in the Wilderness The Ties That Bind The Final Frontier Finding Hope in the Darkness **American Disasters** Steven Biel,2001-11 Ranging widely essayists here examine the 1900 storm that ravaged Galveston Texas the Great Chicago Fire of 1871 the Titanic sinking the

Northridge earthquake the crash of Air Florida Flight 90 the 1977 Chicago El train crash and many other devastating events These catastrophes elicited vastly different responses and thus raise a number of important questions How for example did African Americans feminists and labor activists respond to the Titanic disaster Why did the El train crash take on such symbolic meaning for the citizens of Chicago In what ways did the San Francisco earthquake reaffirm rather than challenge a predominant faith in progress
