II. The case of the United States* Alaskan Boundary Tribunal,1903 *An Alaskan Adventure* Dolores Palata Vician,2004 From the fall of 1962 to the spring of 1963 my husband Ed our five children and myself lived in an Eskimo village on the vast tundra land of Alaska We were thousands of miles from our suburban home outside of Chicago IL Ed had accepted a job as the superintendent of the largest state operated school in Alaska We were living in an Eskimo village Bethel so named by the Moravian missionaries who had established a church on the Kuskokwin River many years before The Kuskokwin River is the second largest river in Alaska surpassed only by the mighty Yukon River As for Bethel it was over four hundred miles from Anchorage Alaska on the same line of longitude as Honolulu Hawaii By November it could only be reached by airplane weather permitting This is the story of our year in Alaska living in a Quonset hut situated next to the school It is based on a daily journal I kept of our experiences there We had left behind many conveniences such as an automatic washer dryer and dish washer Instead we had accepted a comparatively primitive way of life I cooked on an oil burning stove which also served as a space heater for the front of the Quonset hut Our water had to be delivered by truck Our bathroom had a chemical toilet called a honey bucket which needed to be emptied several times a week Our accommodations were cramped compared to the split level home we had left in Illinois However there were many compensations We soon realized that we were surrounded by many kind and caring people Although we led a simple life in our year in the Alaskan Eskimo village the experience was an enriching one for the entire family This is that story *The Alaskan Haul Road* Bennie Burk,2013-10-11 It all began in the late sixties I started core sampling at Finger Mountain for the Alaskan pipeline Driving in such extreme conditions 110 below with the wind chill factor sometimes there was ice fog so thick you couldn't see past the end of the hood of your truck It became clear many years later when I would tell stories that people did not understand or even believe some of the things we did in that vast frozen extreme wonderland so I just stopped talking about it at all The years went by life went on then the TV show came on and soon people were talking about driving the Ice Road They started asking me if these things were true and wanted to hear stories about it I started thinking about it more and more I wanted to get these stories down so my grandchildren would know what their grandfather did I didn't realize I was such a big part of history Soon after my sister Arlean approached me about putting together a book and letting the whole world know what myself and so many others went through I said okay let's head down this road and see where it may take us Even now though at seventy two I am still working odd jobs it is hard getting used to working only forty hours a week A person could work two or three jobs at this rate and as long as I can move I will continue to work **The Alaskan Adventure** Franklin W. find the whole town of Glitter under siege by a firebombing saboteur *Crime, Justice and Retribution in the American West, 1850-1900* Jeremy Agnew, 2017-03-31 Western movies are full of images of swaggering outlaws brought to justice by valiant lawmen shooting them down in daring gunfights before riding off into the sunset In reality it would not have happened that way Real lawmen did not simply walk away from a gunfight they had to face the legal system and justify shooting a civilian in the line of duty Providing a more realistic view of criminal justice in the Old West this history focuses on how criminals came into conflict with the law and how the law responded The process is described in detail from the common crimes of the day such as train robbery and cattle theft to the methods of apprehending criminals to their adjudication and punishment by incarceration flogging or hanging **Proceedings of the Conference on Alaskan History** Robert A. Frederick, 1968 **CloudDancer's Alaskan Chronicles, Volume III** CloudDancer, 2010-02 Alaskan Chronicles fans need look no further than the front cover to know this book is a dramatic change from CloudDancer's first two humorous literary efforts The new cover reflects the somber theme of the stories within So what's happened Did Cloudy run out of funny stories No CloudDancer still loves a good laugh or great flying story When combined all is right with the world Adding a gorgeous dame and a Bacardi and Coke helps too Another volume of Arctic flying funnies someday is a given But a while back desperate to find an inner peace and extinguish smoldering embers of anger that had glowed within for decades CloudDancer wrote Chains and Padlocks It recounts the loss of two people he loved deeply Internet response was overwhelmingly positive And CloudDancer felt the exercise had helped to keep the inner demons at bay Thus the genesis of this book a collection of drama filled tragedies The little humor within is mostly ironic All are written from the perspective of his direct involvement as either a participant or an observer of the drama Seems Arctic flying while mostly fun is not always funny All too often people get killed doing it Sometimes they're your friends **Graphic Arts of the Alaskan Eskimo** Dorothy Jean Ray, 1969 **CloudDancer's Alaskan Chronicles** CloudDancer, 2007-11-05 At a certified average of 1.2 belly laughs and two good chuckles per page this book is a must read for flying and Alaska enthusiasts alike Even non aviators can comfortably follow along as drama and nail biting suspense usually result in knee slapping good clean humor These are completely true Arctic adventure flying stories written by the central character himself CloudDancer This first time author was literally raised at airports and on airliners by two parents who worked for major airlines since his birth CloudDancer spent his formative years growing up in Fort Worth Texas until running away to Alaska in 1973 to become a bush pilot at age 19 Having taken his first flying lesson a week after his thirteenth birthday his love affairs with one airplane after another have continued through today He currently commands one of the world's most modern airliners for a major US airline But no matter where in the world he has flown a large part of his heart and even greater part of his soul have remained attached and devoted to Alaska the land and the people He looks forward with anticipation to the day when he can retire move back to Alaska and once again spend time soaring over the wonders of the far north **Alaskan Natural Gas Transportation**
