Alberta Days:

Alberta John Church, Neale Smith, 2022-03-01 Alberta A Health System Profile provides the first detailed description of Alberta's health care system and the underpinning political and social forces that have shaped it. Drawing on significant wealth from government revenues generated through the energy sector, Alberta has been able to develop an extensive public health and health care infrastructure. Alberta has used its financial resources to attract health professionals by offering the highest levels of financial compensation in Canada. However, although it spends more per capita than other Canadian jurisdictions, Alberta's health care system costs and health outcomes are mediocre compared to those of many other Canadian jurisdictions. This unexpected outcome is the consequence of the unique interplay of economic and political forces within Alberta's political economy. Through an examination of Alberta's political and economic history and using research on the structures and services provided, Alberta A Health System Profile provides a detailed description of the programs and services that constitute Alberta's health care system.

Christina

Alberta's father H. G. Wells, 2023-07-10 In Christina Alberta's Father H. G. Wells delivers a poignant narrative that intricately examines the complexities of familial relationships and societal expectations in early 20th century England. The

novel is notable for its rich descriptive prose and character driven style characteristics emblematic of Wells's transition from science fiction to broader social commentary. At its heart lies the tumultuous relationship between Christina, a young woman seeking independence, and her disillusioned father whose struggles reflect the anxieties of a changing world. Through a blend of realism and psychological exploration, Wells invites readers to contemplate notions of love, duty, and self-fulfillment in an evolving society.

H. G. Wells, a pivotal figure in modern literature, is renowned for his innovative contributions to science fiction and his fervent social critiques. Wells's own experiences, including his education and exposure to the stark realities of the working class, informed his understanding of social dynamics. By examining personal and social conflicts, he sought to challenge and inspire change, crafting narratives that reveal the often painful realities of human existence. For readers interested in a compelling exploration of family and identity against the backdrop of societal transformation, *Christina* is an essential work. Its themes remain resonant today, making it a timeless reminder of the complexities of love, loss, and the quest for individual agency.

Line art drawings Walking in the Woods Herb Belcourt, 2017-10-17

An updated edition of Herb Belcourt's remarkable life story with a brand new foreword by the author. The eldest of ten children, Belcourt grew up in a small log home near the Métis settlement of Lac Ste. Anne during the Depression. His father purchased furs from local First Nations and Métis trappers, and with arduous work began a family fur trading business that survives to this day. When Belcourt left home at 15 to become a labourer in coal mines and sawmills, his father told him to save his money so he could work for himself. Over the next three decades, Belcourt began a number of small Alberta businesses that prospered and eventually enabled him to make significant contributions to the Métis community in Alberta. Belcourt has devoted over 30 years of his life to improving access to affordable housing and further education for Aboriginal Albertans. In 1971, he co-founded CanNative Housing Corporation, a nonprofit agency charged with providing homes for urban Aboriginal people who confronted housing discrimination in Edmonton and Calgary. In 2004, Belcourt and his colleagues established the Belcourt Brosseau Métis Awards.
