the trajectory of Mariette's career this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis Drawing on significant unpublished archival material as well as on histories of science publishing collecting and display this book shows how Mariette and his colleagues practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists To follow Mariette's career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry and that style emerged as its structuring analytic device in the overlapping spaces of the collector's cabinet the connoisseur's portfolio and the dealer's shop Rubens Anne-Marie S. Logan, Peter Paul Rubens, Michiel Plomp, Metropolitan Museum of Art (New York, N.Y.), 2005 Catalogue of an exhibition held at the Metropolitan Museum of Art New York Jan 15 Apr 3 2005 the Habsburgs R. J. W. Evans, 2006-08-03 This book address a number of interrelated themes over two hundred years and more in the political religious cultural and social history of a broad but often neglected swathe of the European continent It seeks against the grain of conventional presentations to apprehend the era from the later seventeenth to the later nineteenth century as a whole and to demonstrate continuities as well as casting light on key aspects of the evolution towards modern statehood and national awareness in Central Europe and the crises of ancien regime strucutres there in the face of new challenges at home and abroad Each of the essays some of which specially written for this volume and others available for the first time in English is intended to be free standing and accessible on its own but they are also designed to fit together and demonstrate an overall coherence Much attention is devoted to the Austrian or Habsburg lands especially the interplay of the main territories which comprised them A central issue here is the evolution of the kingdom of Hungary from its full acquisition by the Habsburgs at the beginning of the period to the emergence of the dual Austro Hungarian Monarchy at the end But the chapters also range more broadly both territorially and chronologically Though much of the scholarship underpinning this masterly exploration may be unfamiliar to many readers this is a an elegantly written and stimulating collection which reflects the exploratory and individual character of the essay as a genre Psychology, Art, and Antifascism Louis Rose, 2016-09-15 A vivid portrait of two remarkable twentieth century thinkers and their landmark collaboration on the use and abuse of caricature and propaganda in the modern world In 1934 Viennese art historian and psychoanalyst Ernst Kris invited his mentee E H Gombrich to collaborate on a project that had implications for psychology and neuroscience and foreshadowed their contributions to the Allied war effort Their subject caricature and its use and abuse in propaganda Their collaboration was a seminal early effort to integrate science the humanities and political awareness In this fascinating biographical and intellectual study Louis Rose explores the content of Kris and Gombrich's project and its legacy Jacques Louis David: Radical Draftsman Perrin Stein, Daniella Berman, Philippe Bordes, Mehdi Korchane, Louis-Antoine Prat, Juliette Trey, 2022-02-14 The first major exhibition catalogue to focus on Jacques Louis David s

drawings and their pivotal role in the creation of his iconic history paintings. The paintings of Jacques Louis David 1748 1825 are among the most iconic in the history of Western art but comparatively little is known about his nearly two thousand drawings that formed the basis of beloved masterpieces such as The Oath of the Horatii and The Death of Socrates Jacques Louis David Radical Draftsman accompanies the first major exhibition to focus on the artist's often yearslong process of trial and experimentation from initial idea to finished canvas Including several recently discovered drawings published here for the first time this volume provides a new perspective on the celebrated master Essays by international experts explore what David's preparatory works on paper reveal about his creative process and how they bear witness to the tumultuous years before during and after the French Revolution As both a participant and an observer David helped establish the new French society while documenting the drama violence and triumphs of modern history in the making **Picturing Art History** Ingrid Vermeulen, 2025-10-01 Books on art history are nearly always lavishly illustrated with quality colour reproductions of famous masterpieces Yet this has not always been the case it was only in the eighteenth century that art books came to be illustrated with beautiful images Picturing Art History shows how the fundamentally new notion of the history of art as a visual history was responsible for this development In the age before photography paper collections of prints and drawings offered the only way to picture the artistic past For the first time illustrations became indispensable toolsas the new belief grew that art works rather than artists were the measure of the artistic past Internationally renowned art scholars such as Bottari 1689 1775 Winckelmann 1717 1768 and d Agincourt 1730 1814 collected reproductions in the form of prints and drawings triggering discussions of the nature of illustrations as representations of art classification of reproductions to demonstrate trends in art history and the relationship between image and text in the art literature With the help of illustrations art history became an extraordinary visual experience vital to the understanding of the history of art **Print** Quarterly ,2005 Leonardo Da Vinci Master Draftsman Leonardo (da Vinci), Rachel Stern, Alison Manges, 2003 This handsome book offers a unified and fascinating portrait of Leonardo as draftsman integrating his roles as artist scientist inventor theorist and teacher 250 illustrations American Book Publishing Record, 2001 The Vienna School of Art History Matthew Rampley, 2015-06-26 Matthew Rampley's The Vienna School of Art History is the first book in over seventy five years to study in depth and in context the practices of art history from 1847 the year the first teaching position in the discipline was created to 1918 the collapse of Austria Hungary It traces the emergence of art history as a discipline the establishment of norms of scholarly inquiry and the involvement of art historians in wider debates about the cultural and political identity of the monarchy The so called Vienna School plays the central role in the study but Rampley also examines the formation of art history elsewhere in Austria Hungary Located in the Habsburg imperial capital Vienna art historians frequently became entangled in debates that were of importance to art historians elsewhere in the Empire and Rampley pays particular attention to these areas of overlapping interest He also analyzes the methodological innovations for which the

Vienna School was well known Rampley focuses most fully however on the larger political and ideological context of the practice of art history particularly the way in which art historical debates served as proxies for wider arguments over the political social and cultural life of the Habsburg Empire **Continental Capitals: Your Handbook to European Cities** N.B.
