Albrecht Dürer and His Legacy Giulia Bartrum, **Albrecht Dürer and His Legacy** Giulia Bartrum, Günter Grass, Joseph Leo Koerner, Ute Kuhlemann, 2002 Albrecht Durer 1471 1528 was in a sense the first truly international artist The collection of his work in the British Museum is one of the best in the world This book shows how his sophisticated development of the techniques of woodcut and engraving introduced the idea of multiple images into fine art and thereby altered the history of printmaking The chronology of his career is traced from his early work in the medieval tradition of Martin Schongauer through the experience he acquired while living in Italy to his major print projects for the Holy Roman Emperor Maximilian I The book also examines Durer s influence at later periods from the obsessive interest in his work by collectors and artists during the late sixteenth century to the virtually iconic status he acquired amid the rise of German nationalism during the nineteenth century The Nobel winning German novelist Gunter Grass himself a printmaker contributes a subjective view of Durer s images from a twentieth century standpoint while other introductory essays by Guilia Bartrum Joseph Koerner and Ute Kuhlemann consider aspects of Durer s legacy through history The illustrations include all Durer s best known prints as well as numerous drawings and watercolours BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

time Reframing Albrecht Dürer Andrea Bubenik, 2013 Focusing on the ways his art and persona were valued and criticized by writers, collectors, and artists subsequent to his death, this book examines the reception of the works of Albrecht Dürer. The author traces carefully how Dürer's paintings, prints, drawings, and theoretical writings traveled widely and were appropriated into new contexts and charged with different meanings. The volume includes illustrations of numerous imitative works after Dürer.

Albrecht Dürer David Ekserdjian, 2023-07-25 An exploration of the life and works of German artist Albrecht Dürer and his self-obsession. The Italian Renaissance birthed the modern sense of self, and no artist from the period compares with Albrecht Dürer (1471-1528) in terms of the almost obsessive interest he displayed in his own life. Dürer's works are filled with personal details from his day-to-day life, his dreams, and his escapades. In this brief biography, David Ekserdjian explores Dürer's life and times, his studies, travels, and influences, as well as his paintings, drawings, and prints. This book is essential reading for anyone interested in Renaissance or Northern European art.

Dürer Giulia Bartrum, 2014 A beautifully illustrated gift book on the prints and drawings of Albrecht Dürer, the first truly international artist.

Monstrous Births and Visual Culture in Sixteenth-Century Germany Jennifer Spinks, 2015-10-06 Presents an examination of printed representations of monstrous births in German-speaking Europe from the end of the fifteenth century and through the sixteenth century, beginning with a seminal series of broadsheets from the late 1490s by humanist Sebastian Brant and including prints by Albrecht Dürer and Hans Burgkmair.

Enduring Loss in Early Modern Germany, 2010-07-05 This anthology assembles cross-disciplinary perspectives on the experience of and responses to forms of material and spiritual loss in early modern Germany, tracing how individuals and communities registered, coped with, and made sense of such events as war, religious reform, bankruptcy, religious marginalization, the death of spouses and children, and the loss of freedom of movement through a spectrum of activities including writing poetry, keeping diaries, erecting monuments, collecting books, singing, painting, reconfiguring space, repeatedly migrating, and painting, and thereby not only turned loss into gain but self-consciously made history. Emerging from the 2008 interdisciplinary conference of *Frühe Neuzeit Interdisziplinär*, the essays reveal how loss helped to create identity and gave rise to agency and creativity on the cusp of modernity. Contributors are Rosalind J. Beiler, Claudia Benthien, Jill Bepler, Duane J. Corpis, Alexander J. Fisher, Ulrike Gleixner, Claudia Jarzebowski, Hans Medick, Barbara Lawatsch, Melton, Christopher Ocker, Helmut Puff, Thomas Max Safley, Jeffrey Chipps Smith, Lynne Tatlock, Mara Wade, Lee Palmer Wandel, and Bethany Wiggin.

Dürer's Lost Masterpiece Ulinka Rublack, 2023 Dürer's *Lost Masterpiece* tracks the history of a turning point in the career of the celebrated German artist Albrecht Dürer (1471-1528) when he stopped painting altarpieces after arguing with a merchant patron over payment. As an eloquent homage to Dürer's life, it brings us closer to the creation and meaning of his paintings than ever before. *Dürer's Lost Masterpiece* considers the celebrated German artist Albrecht Dürer (1471-1528), his time, and his legacy. It tracks the history of a crucial and often overlooked turning point in his career when Dürer stopped painting altarpieces after falling out with the Frankfurt merchant

Jacob Heller over a commission The story of this painting as Dürer's lost masterpiece functions as a lens through which to view the new relationship developing between art collecting and commerce in Europe up to the Thirty Years War 1618-1648 when global trade and cultural exchanges were increasing At the heart of the book is the argument that merchants and their mentalities were crucial for the making of Renaissance art and its legacy for modern art The book draws on a decade of research and uniquely draws the reader into the rich emotional worlds of three merchants each of whom typified the evolving relationship between art and commerce in that entrepreneurial and often ruthless age It brings to life Dürer's determined fight for creative makers to be adequately paid and explores the big questions about how European societies came to value the arts and crafts that remain relevant to our time

Dürer's Knots Susan Dackerman, 2024-09-10 An important new examination of Islamic themes in the art of Albrecht Dürer Albrecht Dürer's depictions of Muslim figures and subjects are considered by many to be among his most perplexing images This confusion arises from the assumption that the artist and his northern European contemporaries regarded the Muslim Levant as an exotic faraway land inhabited by hostile adversaries not a region of neighboring empires affiliated through political and mercantile networks Susan Dackerman casts Dürer's art in an entirely new light focusing on prints that portray cooperation between the Muslim and Christian worlds rather than conflict and war enabling us to better understand early modern Europe through its visual culture In this beautifully illustrated book Dackerman provides new readings of three of the artist's most enigmatic print projects Sea Monster Knots and Landscape with Cannon situating them within historical contexts that reflect productive collaborations between Christendom and Islam from the artistic and commercial to the ideological and political Dackerman notes how Gutenberg's development of printing shares an inextricable relationship to the 1453 Ottoman siege of Constantinople While Gutenberg's workshop produced a call to crusade and other publications antagonistic to the Muslim East Dürer's prints she shows instead emphasize instances of affiliation between Christendom and Islam A breathtaking work of scholarship Dürer's Knots shows how the artist's prints of Muslim subjects

give expression to the interconnectedness of Christian Europe and the Islamic East **The Other Renaissance** Paul Strathern, 2023-03-02 Enlightening and fascinating John Banville Wall Street Journal Through the lives of major figures from the fifteenth to the seventeenth centuries including Copernicus Gutenberg Luther Catherine de Medici Rabelais van Eyck and Shakespeare Paul Strathern tells the fascinating story of the northern European Renaissance which rivalled its Italian counterpart There is no denying that many of the first developments of the Renaissance took place in Italy However a revolution of similar magnitude was also occurring across northern Europe which would forever alter European culture in its own unique fashion Initially centred on the city of Bruges its influence was soon felt in France the German states England and even in Italy itself By vividly bringing to life the key players of the northern Renaissance Paul Strathern explores some of the most significant advances of the whole era revealing how they not only introduced new ways of thinking in art literature science philosophy mathematics and medicine but also allowed for the evolution of an entirely different concept of life In this compelling and original history Strathern shows how the Other Renaissance would play a role at least as significant as the Italian Renaissance in shattering the constraints of medieval life and bringing our modern world into being Architecture and the Unconscious John Shannon Hendrix, Lorens Eyan Holm, 2016-06-17 There are a number of recent texts that draw on psychoanalytic theory as an interpretative approach for understanding architecture or that use the formal and social logics of architecture for understanding the psyche But there remains work to be done in bringing what largely amounts to a series of independent voices into a discourse that is greater than the sum of its parts in the way that say the architect Peter Eisenman was able to do with the architecture of deconstruction or that the historian Manfredo Tafuri was able to do with the Marxist critique of architecture The discourse of the present volume focuses specifically for the first time on the subject of the unconscious in relation to the design perception and understanding of architecture It brings together an international group of contributors who provide informed and varied points of view on the role of the unconscious in architectural design and theory and in doing so expand architectural theory to unexplored areas enriching architecture in relation to the humanities The book explores how architecture engages dreams desires imagination memory and emotions how architecture can appeal to a broader scope of human experience and identity Beginning by examining the historical development of the engagement of the unconscious in architectural discourse and the current and historical theoretical and practical intersections of architecture and psychoanalysis the volume also analyses the city and the urban condition Albrecht Dürer's Renaissance David Price, 2003 This lavishly illustrated book provides a fresh and challenging new perspective on the life and Work of Dürer "The Turk and Islam in the Western Eye, 1450-1750" James G. Harper, 2017-07-05 Unprecedented in its range extending from Venice to the New World and from the Holy Roman Empire to the Ottoman Empire this collection probes the place that the Ottoman Turks occupied in the Western imagination and the ways in which this occupation expressed itself in the visual arts Individual essays in this volume examine specific images or groups of images problematizing the truths they present and

analyzing the contexts that shape the presentation of Ottoman or Islamic subject matter in European art The contributors trace the transmission of early modern images and representations across national boundaries and across centuries to show how through processes of translation that often involved multiple stages the figure of the Turk and by extension that of the Muslim underwent a multiplicity of interpretations that reflect and reveal Western needs anxieties and agendas The essays reveal how anachronisms and inaccuracies mingled with careful detail to produce a Turk a figure which became a presence to reckon with in painting sculpture tapestry and printmaking

Renaissance Beasts Erica Fudge, 2010-10-01 Animals as L

vi Strauss wrote are good to think with This collection addresses and reassesses the variety of ways in which animals were used and thought about in Renaissance culture challenging contemporary as well as historic views of the boundaries and hierarchies humans presume the natural world to contain Taking as its starting point the popularity of speaking animals in sixteenth century literature and ending with the decline of the imperial M nagerie during the French Revolution Renaissance Beasts uses the lens of human animal relationships to view issues as diverse as human status and power diet civilization and the political life religion and anthropocentrism spectacle and entertainment language science and skepticism and domestic and courtly cultures Within these pages scholars from a variety of disciplines discuss numerous kinds of texts literary dramatic philosophical religious political by writers including Calvin Montaigne Sidney Shakespeare Descartes Boyle and Locke Through analysis of these and other writers Renaissance Beasts uncovers new and arresting interpretations of Renaissance culture and the broader social assumptions glimpsed through views on matters such as pet ownership and meat consumption Renaissance Beasts is certainly about animals but of the many species discussed it is ultimately humankind that comes under the greatest scrutiny

From Pliny to Petrarch to Pope Hennessy and beyond many have understood the obvious connection between portraiture and commemorative practice This book expands and nuances our understanding of Renaissance portraiture the author shows it to be complexly generated within a discourse of male anxiety and pre mortuary mourning She argues that portraiture could defer memory loss or at the very least pictorially console the subject against his own potentially unmourned death This book recognizes a socio cultural anxiety the fear not merely of death but also of being forgotten and identifies a set of pictorial literary and theoretical strategies consequently formulated to ensure memory To explore this phenomenon this interdisciplinary but fundamentally art historical project merges early modern visual culture and critical theories of the body The author examines an extensive selection of fifteenth and sixteenth century male and female portraits primarily associated with the Medici family circle and court in and against both historical writings and contemporary discourses including literary and cultural theory psychoanalysis feminism and gender studies and critical theories of race and disability Re membering Masculinity generates new ideas about both male and female portraiture in early modern Florence raises even more questions about the experiences and representations of widowhood and mourning and re configures our understanding of
