Alcohol And Alcohol Problems New Thinking And New Directions:

Alcoholism Treatment in Transition Griffith Edwards, Marcus Grant, 2023-12-01 Originally published in 1980 the purpose of this book was to aid a process of rethinking alcoholism treatment Such a process was already underway in many parts of the world at the time It was hoped that this volume would be useful in the modest role of abetting such a rethinking Alcoholism treatment was definitely in transition abandoning old certainties searching for new syntheses and that is the position this book takes looking for an alternative understanding The book is divided into six parts Transition as Challenge Does Treatment Work Towards Better Questions and Better Methodologies Treatment System as Case For Study Models in Transition and Alcohol Agendas The book also contains one chapter that discusses alcoholism treatment in a developing country not often addressed at the time but acknowledgement that the problem is a global one

Alcohol Problems and Alcohol Control in Europe Phil Davies, Dermot Walsh, 2023-12-01 The nature of alcohol problems is very diverse and the strategies adopted for minimising these vary even more Thinking in the study of alcohol problems in the 1970s and early 1980s had focused on the public health perspective seeking not only to lessen alcohol problems by controlling the availability of alcohol but also to promote moderate drinking practices and to preserve the positive advantages of alcohol use Originally published in 1983 a detailed review of public health issues in this field at the time opens the book This is followed by an examination of alcohol related problems and policies for their control in sixteen different European countries The chapters on individual countries provide a source of information and data on alcohol policies consumption and problems with which it is possible to examine from a cross cultural and comparative basis the claims of a public health perspective The final chapter draws together the cross national data and discusses their implications for a public health response to alcohol problems This book should now be a historical reference source for all interested in health policy in general and alcohol problems in particular

Alcoholism and Other Drug Problems James E. Royce, 1996 **Research Advances in Alcohol and Drug Problems** Reginald Smart, 2013-11-22 This book continues the series of reviews of research advances first published in 1974 The editors aim here is to present critical and integrative reviews by internationally recognized scholars of areas in which there has been much recent research In this task we have been greatly helped by the staff of Plenum Press and the Advisory Panel listed at the front of this volume Several members of the Panel have retired Dr W M D Paton Dr K Bruun Dr K F Killam and Dr J R Seeley Dr Klaus Makela has accepted our invitation to join the Panel Unfortunately one member of the Panel Professor William McGlothlin died as a result of a tragic accident He was a gifted and sensitive researcher His work over many years was well known to those studying alcohol and drug problems We want to acknowledge his contributions to the Research Advances Series and to the field in general The editors wish to acknowledge the help of Julliana Newell Ayoub in preparation of this volume This volume contains three papers by H Fingarette R Room and B Kissin on The Disease Concept They were originally prepared for an earlier volume but could not be included because of scheduling problems The editors

and not the authors are responsible for this delay Because they are primarily philosophical and theoretical in nature they are not diminished in value by the lesser number of references to recent research

Alcoholism in Perspective Marcus Grant,Paul Gwinner,2023-12-01 In the 1970s an important change of emphasis had occurred in the field of alcoholism Instead of seeing alcoholism as an all or none phenomenon it was now recognised that a continuum of alcohol problems existed so that individual cases could show different degrees of dependence and different degrees of harm Originally published in 1979 this book examines the implications of this change of emphasis It looks at definitional aetiological epidemiological and socio cultural questions and contains contributions from acknowledged experts in all of these areas The scientific evidence in each area is fully reviewed and made comprehensible to the non specialist reader and similarities between trends in thinking in different fields are emphasised In addition the book analyses the implications of the modern view of alcohol problems in terms of their theoretical basis and their practical application A rational and pragmatic approach to the problems of working with alcoholics is analysed in some detail so that the links between new ideas and their manifestation in clinical practice are made clear At the time this book represented a multi disciplinary approach to a complex problem where previous thinking had been clouded by too ready acceptance of untested hypotheses

Medical and Social Aspects of Alcohol Abuse Boris Tabakoff,2012-12-06 Alcohol use affects either directly or indirectly nearly all facets of Western civil ization Eastern cultures are also not exempt from the influence of alcohol and the present decade has been a time of increased alcohol use in all parts of the world The problems of alcohol abuse and alcoholism are of concern to a variety of professionals in the biomedical and psychosocial health sciences and although the alcohol research literature contains much information on the relationships between alcohol ingestion and physiological neurochemical pharmacologic genetic environmental and psychological effects in humans and in subhuman spe cies there is at the present time no advanced textbook that integrates the avail able information for use by both students and professionals The writing of *Medical and Social Aspects of Alcohol Abuse* constitutes an attempt to create a scholarly reference and resource for students researchers prac ticing clinicians and paraprofessionals who wish to understand the complex inter play of factors related to acute and chronic alcohol intoxication the effects of alco hol on body functions and treatment approaches to alcohol abusers and alcoholics

The Misuse of Alcohol Nick Heather,Ian H. Robertson,Phil Davies,2023-12-01 In the 1980s the study of alcoholism was in a period of rapid change this book originally published in 1985 identifies and explores the three most controversial contemporary issues changes at the basic explanatory level in our concept of harmful drinking the undermining of our confidence that drinking behaviour can be effectively modified in the traditional context of treatment and the changes in our concept of the effective prevention of harmful drinking The authors of the book came from a variety of backgrounds but all were members of the New Directions in the Study of Alcohol Group They broadly reject the disease concept of alcoholism but as this volume shows there is still scope for vigorous debate and this book should have something of interest

for all concerned with problems of alcoholism The American Experience with Alcohol G.M. Ames, L.A. Bennett, 2013-11-11

This volume is an important contribution to our understanding of culture and alcohol in the United States. Its appearance is also a milestone in the history of alcohol studies in American anthropology. Over the last six years the volume's editors initially along with Miriam Rodin have served as the coorganizers of the Alcohol and Drug Study Group of the American Anthropological Association AAA. In this capacity they have organized sessions at the AAA and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on alcohol and drugs. Appearing just as the responsibility for the Study Group is passed on to others, this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in North America. The contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the American experience with alcohol. The collective portrait the editors have assembled extends in several dimensions through time and history across such social differentiations as gender, age, grade, and social class and through such major social institutions as the church and the family. Clearly the dominant dimension of variation in the material that follows, however, is ethnicity. The book offers us a sampler of unprecedented richness of the different experiences with alcohol of American ethnoreligious groups.

Alcohol Health and Research World, 1977 **Prevention of Alcohol Abuse** Peter M. Miller, Ted D. Nirenberg, 2012-12-06

The abuse of alcohol presents a major health problem throughout the world. Until recently both clinical and research efforts have been geared toward treatment and rehabilitation of alcoholism. With the growing number of problem drinkers entering treatment, the need for a better understanding of the prevention of alcohol abuse has become increasingly evident. Although still in its infancy, the field of alcoholism prevention is growing at a rapid rate. Increasing numbers of behavioral scientists throughout the world are conducting or planning prevention projects. Policy planners, school administrators, military agencies, community groups, state and local alcoholism agencies, and industries are initiating alcohol abuse prevention programs with fervor. Legislators at all levels of government are also developing a keen interest in legislation aimed at reducing the extent of problem drinking. This book represents one of the first systematic attempts to compile a comprehensive text on the prevention of alcohol abuse. Many of the contributors to *Prevention of Alcohol Abuse* have international reputations that strengthen their understanding of the complex nature of prevention. By providing a critical review of the current knowledge about prevention, the text will serve to stimulate and lay the groundwork for further prevention efforts. We thank all of the chapter authors for their excellent contributions. It is through their efforts that the field will thrive. Our appreciation also is expressed to Leonard Pace, formerly of Plenum Press, for his encouragement and helpful comments in the development of the text.

Evaluating Alcohol and Drug Abuse Treatment Effectiveness Linda Carter Sobell, Mark B. Sobell, Elliott Ward, 2013-10-22

Evaluating Alcohol and Drug Abuse Treatment Effectiveness Recent Advances is a collection of papers that covers the advancement in rehabilitation of

individuals with a history of substance abuse The title aims to find ways in identifying the treatment that best fits a specific patient The text first provides a historical account of alcohol and drug treatment outcome research Next the selection considers the use of multiple measures of life health to assess alcohol treatment Chapter 3 deals with the behavioral assessment and treatment evaluation of narcotic addiction while Chapter 4 talks about the evaluation of behavioral and traditional treatment of alcoholics The fifth chapter tackles the contingency contracting with drug abusers and the sixth chapter covers the development of a prototype for the evaluation of alcohol treatment The text also details the problems in alcohol treatment along with the improvement of confidence in treatment of substance abuse The book will be of great use to behavioral scientists social workers and mental health specialists *Current Issues in Alcohol/drug Studies*, 1989 In this new volume experts focus on a number of important issues of current interest and controversy Is alcoholism a disease or is it not Should federal bans on drugs like heroin and cocaine be removed and will that solve modify or exacerbate the problem Can the risk for alcoholism really be predicted Professionals from a very wide variety of disciplines medicine and biochemistry psychiatry and psychology philosophy anthropology law social work and journalism present their very differing points of view on the perception of alcoholism as a disease and on public policy issues like proposed legislative controls over alcoholic beverages Normative Approaches to the Prevention of Alcohol Abuse and Alcoholism National Institute on Alcohol Abuse and Alcoholism (U.S.), National Institute on Alcohol Abuse and Alcoholism (U.S.). Laboratory of Epidemiology and Population Studies, 1980 **Designing Alcohol and Other Drug Prevention Programs in Higher Education**, 1997 *Recent Developments in Alcoholism* Marc Galanter, 2012-12-06 From the President of the Research Society on Alcoholism This annual book series is a valuable resource for the alcoholism field because it provides critical and timely reviews of selected areas that have interest to both practitioners and researchers It tries to achieve a balance between psychosocial and biomedical topics and between research and patient care activities Such a mix is offered in Volume 6 The Research Society on Alcoholism whose membership embraces researchers from all disciplines that study the etiology treatment and prevention of alcoholism and alcohol related disabilities regards the support and sponsorship of this book series as one of its major missions Ting Kai Li M D President Research Society on Alcoholism From the President of the American Medical Society on Alcoholism and Other Drug Dependencies The broadening scope of clinical and scientific interest in alcohol dependence is reflected in this sixth volume of *Recent Developments in Alcoholism* It offers valuable reviews on important current issues in the field namely the intertwining of nature and nurture a continuing search for predictors and indicators of the disease and the social impact of alcoholism on the job and in special populations This material should pique the interest of clinicians from all disciplines Medical social and political planners also need to turn to the expanding body of knowledge in the field of chemical dependence reflected here The volume is therefore of value to a contemporary readership and to those who will turn to it in future years *Communication Yearbook 11* James Anderson, 2012-05-23 In *Communication Yearbook 11* major

contributions from leading scholars in a variety of communication fields are presented and then critiqued by other authorities often representing complementary or competing schools of thought Topics addressed and commented on include the mass media audience the theory of mediation effective policy for health care communication and feminist criticism of television

The Community Health Nurse and Alcohol-related Problems ... National Center for Alcohol Education,1978

Alcohol and Crime Gavin Dingwall,2013-07-23 Alcohol is massively associated with crime Evidence from the British Medical Association found that alcohol use is associated with 60 70 per cent of murders 70 per cent of stabbings 50 per cent of fights or assaults in the home For non violent offences the association is very strong as well 88 per cent of those arrested for criminal damage 83 per cent for breach of the peace 41 per cent for theft and 26 per cent for burglary had drunk in the four hours prior to their arrest At the same time there has been intense concern about public drunkenness in town and city centres especially on the part of young people and the cost and damage this causes This book seeks to understand the nature of the connection between alcohol and crime and the way the criminal justice system responds to the problem providing a clear and accessible account and analysis of the subject It draws upon a wide range of sources and research findings and also sets the subject within a broader comparative context It takes an interdisciplinary approach and includes a sociological account of the role of alcohol in British society a criminological analysis of the link between alcohol and crime and a philosophical consideration of individual responsibility for harm caused whilst intoxicated and a legal analysis of different approaches that can be adopted as a response to alcohol related offending
