Suffer and Be Still (Routledge Revivals) Martha Vicinus,2013-10-08 First published in 1972 this book contains a collection of ten essays that document the feminine stereotypes that women fought against and only partially erased a hundred years ago In an introductory essay Martha Vicinus describes the perfect Victorian lady showing that the ideal was a combination of sexual innocence conspicuous consumption and worship of the family hearth Indeed this model in some form was the ideal of all classes as the perfect lady s only functions were marriage and procreation The text offers a valuable insight into Victorian culture and society *Law as Profession and Practice in Medieval Europe* Kenneth Pennington,Melodie Harris Eichbauer,2016-04-15 This volume brings together papers by a group of scholars distinguished in their own right in honour of James Brundage The

essays are organised into four sections each corresponding to an important focus of Brundage's scholarly work. The first section explores the connection between the development of medieval legal and constitutional thought. Thomas Izbicki, Kenneth Pennington and Charles Reid Jr explore various aspects of the jurisprudence of the *Ius commune* while James Powell, Michael Gervers and Nicole Hamonic, Olivia Robinson and Elizabeth Makowski examine how that jurisprudence was applied to various medieval institutions. Brian Tierney and James Muldoon conclude this section by demonstrating two important points: modern ideas of consent in the political sphere and fundamental principles of international law attributed to sixteenth century jurists like Hugo Grotius have deep roots in medieval jurisprudential thought. Patrick Zutshi, R H Helmholz, Peter Landau, Marjorie Chibnall and Edward Peters have written essays that augment Brundage's work on the growth of the legal profession and how traces of a legal education began to emerge in many diverse arenas. The influence of legal thinking on marriage and sexuality was another aspect of Brundage's broad interests. In the third section, Richard Kay, Charles Donahue Jr and Glenn Olsen explore the intersection of law and marriage and the interplay of legal thought on a central institution of Christian society. The contributions of Jonathan Riley-Smith and Robert Somerville in the fourth section round out the volume and are devoted to Brundage's path-breaking work on medieval law and the crusading movement. The volume also includes a comprehensive bibliography of Brundage's work.

Science and the Shaping of Modernity Charles Wolfe, Anik Waldow, 2024-12-23. This book collects a variety of short essays on Stephen Gaukroger's thought by leading scholars both senior and junior. Stephen Gaukroger (1950-2023) was one of the preeminent specialists of early modern science and philosophy, particularly their interrelations including under the heading natural philosophy on the international scene since the 1980s, starting with his prominent Cartesian scholarship and biography and moving towards the formidable 4 volume series on science and the shaping of modernity from *Emergence of a Scientific Culture* to *Civilization and the Culture of Science*, dealing not just with early modernity but with the Enlightenment, German Romanticism and 20th century society. This volume covers the thought of this highly recognized scholar and engages with his works covering early modern philosophy, enlightenment and contemporary periods, making it a must read for any philosopher and historian of science.

Handbook on Women in Business and Management D. Bilimoria, 2007. This very impressive Handbook takes established research topics about women in management and treats them in fresh and novel ways. The chapters are intellectually interesting, sound and provocative and meet the editors' aspiration to stimulate high quality research on women's experiences in work organizations. I recommend it highly. Jean M Bartunek, Boston College, US. This comprehensive Handbook presents specially commissioned original essays on the societal roles and contexts facing women in business and management, the specific career and work life issues of women in these fields, organizational processes affecting women and the role of women as leaders in business and management. The essays shed light on the extant structures and practices of society and organizations that constrain or facilitate women's representation, treatment, quality of life and success. Despite decades of ongoing inquiry and increasing

interest research on women in business and management remains a specialized field without mainstream acceptance within business and management disciplines The Handbook presents the current state of knowledge about women in business and management and specifies the directions for future research likely to be most constructive for advancing the representation treatment quality of life and success of women who work in these fields It provides the foundations for improved societal and organizational structures policies and relational practices affecting all in business and management Thus by enhancing the knowledge base that improves the work and life situations of women it suggests ways to elevate the societal and organizational systems for all The Handbook will be an essential reference source for recent advances in research and theory informing both scholars of organization studies gender diversity and feminism human resource specialists and educators of and consultants to business organizations and management
