## **Airlift Short Stories:**

*Airlift* Jan Seale, 1992 The tales in *Airlift* ask the reader's respect for the small life lived victoriously or in defeat. Tightly structured, the stories move from a beginning group of aging protagonists in their inexorable certainties to a set featuring midlife yearning mothers falling back to a group of younger women. The collection ends with initiation stories evoking the mystery, pain, and exhilaration of being a child. Many of the characters struggle out of simpler agrarian pasts toward the complexities of modernity. Some follow peculiar visions, and some are children whose innocence is a saving grace to themselves or to surrounding adults. Seale's narrative voice is clear and straightforward, always engaging, never boring.

**Stories Without Borders** Julia Sonnevend,2016 In Stories without Borders Julia Sonnevend considers the ways in which we recount and remember news stories of historic significance Focusing on the Berlin Wall and on subsequent retellings of the event in a variety of ways from Legoland reenactments to slabs of the Berlin Wall installed in global cities Sonnevend discusses how certain events become built up into global iconic events      **Western American Literature** ,1994      **The Praetorian STARShip : the untold story of the Combat Talon** ,2001 Jerry Thigpen s study on the history of the Combat

Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed, the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system, the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation, the Talon I cemented its reputation as the weapons system of choice for long range clandestine operations. In the period following the Vietnam War, United States Air Force (USAF) special operations gradually lost its political and financial support, which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia, funds for aircraft upgrades and military construction projects materialized to meet the ever increasing threat to our nation. Under the leadership of such committed hard driven officers as Brenci Uttaro, Ferkes Meller and Thigpen, the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low level mountainous environment covertly to execute any number of unconventional warfare missions.

**Air Force Magazine**, 2013. *Foreign Relations of the United States*  
United States. Department of State, 1994. *Encounters in the Rubble*, Erica J. Lansberg, 2025-08-12. The US occupation of Germany after World War II was a time in which encounters between American soldiers and young German civilians were especially ubiquitous. Overall, German children and youth played a fundamental role in the US occupation, impacting both personal and political relations. Using a blend of sources ranging from German children's diaries to official US military records, this work provides a wide reaching examination of the youngest civilians under occupation in the postwar aftermath of the Nazi regime. It centers on the personal experiences of both German children and American military personnel during the occupation and also examines the ways that young Germans impacted transatlantic policies, especially in the context of the emerging Cold War, including during the Berlin Airlift. This work thus considers the youngest members of the occupied German population as important historical actors during a time of major transition from war to peace, marked by encounters made in the rubble.
