

What is the Airline Industry?

Airline Industry

Alessandro Cento

Airline Industry:

The Global Airline Industry Peter Belobaba, Amedeo Odoni, Cynthia Barnhart, 2015-07-06 Extensively revised and updated edition of the bestselling textbook provides an overview of recent global airline industry evolution and future challenges Examines the perspectives of the many stakeholders in the global airline industry including airlines airports air traffic services governments labor unions in addition to passengers Describes how these different players have contributed to the evolution of competition in the global airline industry and the implications for its future evolution Includes many facets of the airline industry not covered elsewhere in any single book for example safety and security labor relations and environmental impacts of aviation Highlights recent developments such as changing airline business models growth of emerging airlines plans for modernizing air traffic management and opportunities offered by new information technologies for ticket distribution Provides detailed data on airline performance and economics updated through 2013

The Airline Industry, 2006 The Airline industry has been under increasing pressure recently from the increased competition of low cost airlines and the terrorist events of 2001 to name but a few Various US airlines including Delta and Northwest have been declared bankrupt oil prices have soared and seat prices are still being forced down the supply far outweighing the demand This e book looks at recent case studies of airlines in crisis Continental Airlines and also airlines which have excelled at expansion during this turbulent time such as Easyjet and Ryanair and offers examples of successful strategies previously used The collection also features interviews with high profile figures from airlines such as Go Qatar Airways and SWISS International Airlines

Global Airlines Pat Hanlon, 2006-12-14 Global Airlines Competition in a Transnational Industry presents an overview of the changing scene in air transport covering current issues such as security no frills airlines open skies agreements the outcome of the recent downturn in economic activity and the emergence of transnational airlines and takes a forward looking view of these challenges for the industry Since the publication of the second edition in 1999 major changes have occurred in the industry The rules of the game in air transport are now beginning to change and it is time to take the story forward This third edition contains nine new chapters and tackles the following issues amongst others Security The tragic events of 11 September 2001 followed by the war in Iraq and the resultant heightened tensions over security and passenger safety Financial instability the cyclical downturn in economic activity has led some airlines to the verge of bankruptcy Even some large well established carriers are not immune from this How can the industry look to survive Attaining global reach implications of transborder mergers open skies agreements and the transatlantic Common Aviation area Can full globalisation ever be reached Low cost carriers and e commerce as both increase how much the industry re structure and deal with issues associated with increased passenger traffic and decreased labour requirements Airport capacity Air traffic is estimated to grow at a long term average annual rate of 5 per cent per annum But many airports in many parts of the world are already reaching their capacity limits How can this be overcome and are the environmental

implications Using up to date data and case studies from major international airlines such as United Airlines British Airways and Qantas amongst many others Global Airlines provides a comprehensive insight into today s global airline industry *the future of the airline industry* , The Airline Industry Alessandro Cento,2008-10-15 The debate on the future of the aviation sector and the viability of its traditional business practices is the core of this book The liberalization of the EU market in the 1990s has radically modified the competitive environment and the nature of airline competition Furthermore the new millennium began with terrorist attacks epidemics trade globalization and the rise of oil prices all of which combined to push the industry into a perfect storm Airline industry profitability has been an elusive goal for several decades and the recent events has only accentuated existing weaknesses The main concern of industry observers is whether the airline business model successful during the 1980s and 1990s is now sustainable in a market crowded by low cost carriers The airlines that will respond rapidly and determinedly to increase pressure to restructure consolidate and segment the industry will achieve competitive advantages In this context the present study aims to model the new conduct of the legacy carriers in a new liberalized European market in terms of network and pricing competition with low cost carriers and competitive reaction to the global economic crises *Airline Industry* JayEtta Z. Hecker,United States. Government Accountability Office,2008 The airline industry generates operating revenues of 172 billion in 2007 amounting to over 1% of the U S gross domestic product It carried more than 700 million passengers in 2007 Airline deregulation in 1978 led at least in part to increasingly volatile airline profitability resulting in periods of significant losses and bankruptcies In response some airlines have proposed or are considering merging with or acquiring another airline This report describes 1 the financial condition of the U S passenger airline industry 2 whether the industry is becoming more or less competitive 3 why airlines seek to merge with or acquire other airlines and 4 the role of federal authorities in reviewing proposed airline mergers and acquisitions Charts and tables **The State of the Airline Industry** United States. Congress. Senate. Committee on Commerce, Science, and Transportation,2010 **State of Competition in the Airline Industry** United States. Congress. House. Committee on the Judiciary,1999 Operations Research in the Airline Industry Gang Yu,1997-12-31 260 2 Crew Legalities and Crew Pairing Repair 264 3 Model and Mathematical Formulation 266 4 Solution Methodology 271 5 Computational Experiences 277 6 Conclusion 285 REFERENCES 286 10 THE USE OF OPTIMIZATION TO PERFORM AIR TRAFFIC FLOW MANAGEMENT Kenneth Lindsay E Andrew Boyd George Booth and Charles Harvey 287 1 Introduction 288 2 The Traffic Flow Management TFM Problem 289 3 Recent TFM Optimization Models 292 4 The Time Assignment Model TAM 302 5 Summary and Conclusions 307 REFERENCES 309 11 THE PROCESSES OF AIRLINE SYSTEM OPERATIONS CONTROL Seth C Grandeau Michael D Clarke and Dennis F X Mathaisel 312 1 Introduction 313 2 The Four Phases of Airline Schedule Development 315 The Airline Operations Control Center OCC 3320 4 Analysis of Operational Problems 331 5 Areas For Improvement 352 6 Case Study PT Garuda Indonesia Airlines 357 REFERENCES 368 12 THE COMPLEX CONFIGURATION MODEL Bruce W
