Exploring Religion in Our Time (Penerbit USM) Chandra Muzaffar, 2010 This book is an attempt to understand some of the most important issues that have emerged in the interface between religion and society in recent decades What is the role that religions such as Buddhism Christianity Hinduism Islam and Judaism play in the public sphere today How have governments established in the name of religion fared in matters pertaining to governance What are the forces responsible for the shift towards religion as the principal conduit for reform and protest in certain societies in Asia Is the religious worldview and are religious values relevant to the resolution of the major crises confronting humanity today from environmental degradation to the economic meltdown What sort of

transformation will have to take place within religion itself if it is to serve as a spiritual moral compass in a world that is moving inexorably in the wrong direction These are some of the questions that this book seeks to answer through both empirical analysis and theoretical reflections Universiti Sains Malaysia Penerbit Universiti Sains Malaysia Islamism and Globalisation in Jordan Daniel Atzori, 2015-05-22 This book explores the activities of the local Muslim Brotherhood in Jordan It examines how the Brotherhood working to establish an alternative social political and moral order through a network of Islamic institutions made a huge contribution to the transformation of Jordanian society It reveals however that the Brotherhood's involvement in the economic realm in Islamic financial activities led it to engage with the neo liberal approach to the economy with the result that the Islamic social institutions created by the Brotherhood such as charities lost their importance in favour of profit oriented activities owned by leading Islamist individuals The book thereby demonstrates the hybridisation of Islamism and argues that Islamism is not an abstract set of beliefs but rather a collection of historically constructed practices The book also illustrates how globalisation is profoundly influencing culture and society in the Arab world though modified by the adoption of an Islamic framework **Survival and Sustainability** Hüseyin Gökçekus, Umut Türker, James W. LaMoreaux, 2011-03-23 The International Conference on Environment Survival and Sustainability held at the Near East University Nicosia Northern Cyprus 19-24 February 2007 dealt with environmental threats and proposed solutions at all scales The 21 themes addressed by the conference fell into four broad categories Threats to Survival and Sustainability Technological Advances towards Survival and Sustainability Activities and Tools for Social Change Defining Goals for Sustainable Societies Activities and tools that move the society towards greater sustainability were emphasized at the conference These included environmental law and ethics environmental knowledge technology and information systems media environmental awareness education and lifelong learning the use of literature for environmental awareness the green factor in politics international relations and environmental organizations The breadth of the issues addressed at the conference made clear the need for greatly increased interdisciplinary and international collaboration the survival and sustainability concept The exchanges at the conference represent a step in this direction The Feminine Principle in the Sikh Vision of the Transcendent Nikky-Guninder Kaur Singh, 1993-09-24 This work is a critical analysis of Sikh literature from a feminist perspective It begins with Guru Nanak's vision of Transcendent Reality and concludes with the mystical journey of Rani Raj Kaur the heroine of a modern Punjabi epic The eight chapters of the book approach the Sikh vision of the Transcendent from historical scriptural symbolic mythological romantic existential ethical and mystical perspectives Each of these discloses the centrality of the woman and show convincingly that Sikh Gurus and poets did not want the feminine principle to serve merely as a figure of speech or literary device it was intended rather to pervade the whole life of the Sikhs The present work bolsters the claim that literary symbols should be translated into social and political realities and in so doing puts a valuable feminist interpretation on a religious tradition which has remained relatively unexplored in scholarly

literature      *Islam and Pakistan's Political Culture* Farhan Mujahid Chak, 2014-09-04 This book explores the ideological rivalry which is fuelling political instability in Muslim polities discussing this in relation to Pakistan It argues that the principal dilemma for Muslim polities is how to reconcile modernity and tradition It discusses existing scholarship on the subject outlines how Muslim political thought and political culture have developed over time and then relates all this to Pakistan's political evolution present political culture and growing instability The book concludes that traditionalist and secularist approaches to reconciling modernity and tradition have not succeeded and have in fact led to instability and that a revivalist approach is more likely to be successful
