life altering experience that remapped her brain for success Had the road sign read Take a sharp right turn here and follow the path to your life altering destiny I would have turned and gone in another direction The path was marked with two color coded shapes the green circle indicated a widely groomed easy trail and the blue square led to an intermediate slope I needed the green trail that led to the lodge at the bottom of the mountain I had taken a hard fall on the catwalk and wasn't feeling so good To get to the trail I needed to take a sharp right turn The only problem was I suddenly didn't know what right meant I could not find my right side Everything right was gone Kimberly fell into her defining role and life's purpose quite literally when she skied over a cliff and sustained a traumatic brain injury TBI One day Kimberly was a vibrant career woman who enjoyed a successful lifestyle and an active social life The next she had to learn basic life skills to survive Kimberly's quest for survival sent her in search of the missing pieces of her past She learned that survival is a multifaceted anvil that shapes our decisions and forges our future Merely existing then becomes a double edged sword you may have managed to keep breathing but are you really living The only way for survival to triumph is to acknowledge the role of fear in the face of crisis affirmed fear liberates coddled fear incapacitates Denial keeps us stuck **The Devil's Advocate** Steve

A Place for T Robert H. Lengel, 2023-01-17 Dr Lengel offers a thought provoking twist on Aesop's Hare Tortoise fable reframing it as a Human Race pitting our Hare brained heads against our Tortoise inspired hearts As we run faster and faster in our Hare like pursuits of wealth power and status we are leaving no place for the slow and steady Tortoise to speak for our humanity As a result the author poses the possibility we are creating a world with our intellects and technology that we can't relate to emotionally and spiritually We might be outrunning our humanity and setting the stage for the Hare to win this human race by default Our inability to engage each other in civil and respectful conversations the hate and violence infecting our culture and leadership failures in organizations might be evidence this sinister end is fast approaching This book is a hard hitting and at times poetic invitation to step back from our busy lives sit with the author on his front porch and question our lives and work It is an inspirational reminder of Mahatma Gandhi's warning that there is more to life than simply increasing its speed In a conversational format Dr Lengel guides us down a hopeful path forward a path illuminated by what he calls divergent thinking His words are a siren call to wake up and realize we can't afford Hare brained progress at the cost of our souls We need A Place for T in our lives now to account for the unaccountable while we still have time **Angel**
