Albanian Urban Lyric Song In The 1930s:

Albanian Urban Lyric Song in the 1930s Eno Koço, 2004-04-30 This resource aims to introduce Western audiences to what is perhaps the least known heard or discussed urban folk music in Europe Although this music Albanian urban song is the most prominent of Albanian musical genres it has continuously been overlooked by musicologists in favor of rural folk music Some commentators have implied that Albanian urban music was not as genuinely Albanian as the music of its mountains and countryside But it is no less a part of the country's musical history particularly in the twentieth century and is equally as pure an expression of Albanian spirit and culture The author examines the indigenous diatonic and chromatic modes used in Albanian urban music and classifies them under traditional headings and as part of a newly established grouping here termed south western Balkan modes The core of the work is the analysis of Albanian urban lyric songs seen as an artistic version of the traditional Albanian urban songs When these songs began to enter the classical repertoires the pioneers of the 1930s suggested that based on the Albanian urban songs the new genre should be developed into urban lyric song Whatever its origin whether Near Eastern or south western Balkan the composer arrangers and the lyric singers of the Albanian urban lyric song in the 1930s conceived them on the whole as Western vocal and instrumental products Complemented by two music CDs *Albanian Urban Lyric Song in the 1930s* provides musicologists students of Balkan music and curious readers with an enlightening discussion of a much overlooked but richly rewarding musical tradition

Albanian Identity in History and Traditional Performance Eno Koço, 2021-07-05 This book represents a group of individual musical essays collected under common Albanian themes with a particular focus on historical identities and traditional musical performance It shows that at the beginning of the 18th century there was a growing interest in representing the Albanian hero Scanderbeg on the operatic stage as some well known composers of baroque music began to place a greater emphasis on music's dramatic power to elicit emotional response The book also notes that this sense of drama was also incorporated into the vocal forms such as opera *Traditional Songs and Music of the Korçë Region of Albania* Eno Koço, 2018-04-18 This book is concerned with the repertory of traditional urban song and music of the Kor area in general and more specifically the karakteristike characteristic or distinctive song associated with Kor city Albania The first half of the 20th century marked the climax of an evolution which started in the mid 19th century with the oral tradition of urban song in Kor While the translation of K nga Karakteristike Kor are into Kor are Distinctive Song seems to be an odd name for a genre it is however a translation as close as possible to the original Albanian denoting the characteristic songs of Kor The term characteristic implies peculiar or specific songs different not only from the traditional urban song of Kor but also from any kind of song whether folk popular traditional urban or art composed and performed among the Kor people The book also introduces the Kor are urban song and urban lyric song as well as the Saze music which were introduced during the Ottoman domination of the Balkans The Albanian Urban Lyric Song (auls) in the 1930s Eno Koço, 1998 **Albanian**

Traditional Music Spiro J. Shetuni, 2014-01-10 For most musicians and musicologists in the West traditional Albanian music remains an obscure subject even though Albania has produced a monumental cultural and corresponding musical heritage This book examines the distinct musical culture of southeastern Europe both monophonic and polyphonic by delineating its four main musical dialects Gheg Tosk Lab and Urban The origins fundamental features musical styles and genres of the four dialects are discussed Additional topics covered include an historical and demographic analysis of Albania the history of Albanian ethnomusicology and the various classifications in Albanian music Relying heavily on field research and recordings this text introduces traditional Albanian music to both ethnomusicologists and curious readers *A Journey of the Vocal*

Iso(n) Eno Koço, 2015-02-27 This study is concerned with the vocal iso n repertory used on the one hand in the oral traditions of the multipart unaccompanied singing IMUS of the Southwest Balkans or more specifically South Albania North Epirus in Greece and a small part of the Republic of Macedonia FYROM and on the other hand in Byzantine chanting The vocal iso n is an important component of these traditions which are still practised today in the Southwest Balkans region The study presents evidence on various manifestations of the practice in their particular geographical regions and examines in detail the historical roots of these traditions An ison a drone holding note is the voice that provides the drone in Byzantine chanting This chant is part of the liturgical music of the Orthodox Churches in contrast to the IMUS which has developed as a secular repertory The Byzantine liturgical singing of the Arb resh Diaspora of South Italy and Sicily which has been passed down orally from the 15th century to the present day as well as non liturgical singing is also explored in this book The three unaccompanied forms of singing two of which use the ison IMUS and Byzantine chanting and the third the Arb resh which does not with some exceptions in recent times are analysed in separate sections of the book Unlike many studies of similar subject matter which suffer from a one sided point of view because of national bias this book is multifaceted and even handed While multipart singing in Albania is usually considered to be a solely Albanian phenomenon in Greece it is thought of as being Greek In fact the multipart singing of the Albanian and Greek as well as Aromanian and some Slavic populations is more intrinsically bound to the region than to any ethnic group The distinct sound of iso n singing echoes the internal and external historic influences of the region interwoven with the complex modal idioms **Cultural Heritage of East Central**

Europe Wojciech Roszkowski, 2015-01-02 The concept of culture is a relatively modern invention It stems from the Latin term cultura meaning cultivation Cicero was the first to use this word in a non agricultural context In his Tusculanae Disputationes he reflected on the cultivation of the soul cultura animi Later this term was rarely used in this sense but as of the 17th century more and more authors considered culture an intellectual and not an agricultural phenomenon Samuel Pufendorf 1632 1694 described culture as a vehicle overcoming natural barbarism He was followed by German philosophers of culture Johann Gottfried Herder 1744 1803 argued that human creativity was as important as human rationality and called attention to national cultures The works of German romantic philosophers were mainly focused on the specificity of the

Albanian Cinema through the Fall of Communism Bruce Williams, 2025-10-01 Albanian cinema truly represents a terra incognita for most of the world Decidedly Europe's most isolated country during the Cold War era communist Albania had already been cut off from the West for centuries as a one of the western most outposts of the Ottoman empire Nonetheless and unknown to most of the world communist Albania had a vibrant cinema tradition Although bound by official orthodoxy the films of the state run Kinostudio enterprise were surprisingly innovative and at times daringly subversive This book opens with examinations of moving images in Albania from the Ottoman period through those captured under independence and the Fascist occupation It subsequently foregrounds transformations in Kinostudio from the early optimism of socialist realism through the brooding social angst of the 1980s which constitute a bridge to the socioeconomic concerns of Albanian films of the postcommunist period Ethnomusicology Jennifer Post, 2013-03 First published in 2011 Routledge is an imprint of
