Excerpt from *Albert Schweitzer An Anthology*

Albert Schweitzer is considered by hundreds of thousands of people in many countries to be one of the foremost spiritual and ethical figures of our time. Indeed, there are many for whom there is no other of equal eminence. As one who has given to his simple creed supreme expression in his deed, he is more and more commanding the thought and arousing the interest of mankind. It is a pity, therefore, that the books and articles which he has found time in the midst of the exhausting burdens of his life to write, covering now more than a half century of fruitful thinking and courageous living, should be so hard to find. Many of his books are no longer in print; some have never been translated from the French and the German which he uses with equal facility. They cover a wide range of subjects: philosophical, theological, ethical, biographical, autobiographical, musical, medical. Whatever the subject, they are all alike interpenetrated by the beauty of years well spent, a mind well stored, a spirit enriched and beautified by renunciation, dedication, and a boundless loyalty to life. This anthology represents an effort to make available much that is now scattered and hidden, to gather together those passages from published books and ephemeral writings which have meaning and inspiration for us today, to introduce to a world careless of human, ethical, and spiritual values a man for whom only these values exist. His message of mystical, reverent life affirmation is a tonic word for this age so recklessly eager to squander its heritage.

light of postcolonial theory and twenty first century understandings This book offers a reader friendly introduction to liberation theology by having scholars from the margins explore how questions of race and gender should be brought to bear on thirty classic theologians Each short chapter gives historical background for the thinker describes that thinker s most important contributions then raises issues of concern for women and persons of color Contributors include Rita Nakashima Brock Cheryl A Kirk Duggan Harold J Recinos M Shawn Copeland Kwok Pui Lan Joerg Rieger and many others **To Be As God** R. J. Rushdoony,2003 This monumental work is a series of essays on the influential thinkers and ideas in modern times The author begins with De Sade who self consciously broke with any Christian basis for morality and law Enlightenment thinking began with nature as the only reality and Christianity was reduced to one option among many It was then in turn attacked as anti democratic and anti freedom for its dogmatic assertion of the supernatural Literary figures such as Shelly Byron Whitman and more are also examined for the Enlightenment presented both the intellectual and the artist as replacement for the theologian and his church Ideas such as the spirit of the age truth reason Romanticism persona and Gnosticism are related to the desire to negate God and Christian ethics Reading this book will help you understand the need to avoid the syncretistic blending of humanistic philosophy with the Christian faith **Respect and Power** Roberto Mordacci,2025-05-30 This book presents a historically informed theoretically systematic and critically articulated theory of respect that challenges many of the presuppositions of the current debate in ethics and politics It develops a theory of respect as the rule of power relations which draws connections between Kant s critical philosophy and Critical Theory The concept of respect is the foundation of normative theory Any human practice is subject to a judgment in terms of respect and a comprehensive theory is needed to critically assess our individual and social practices This book elaborates an uncommon understanding of respect through a historical reconstruction of the practices of respect and a theoretical analysis of the limits of current theories of respect Power is the fundamental force at work in social relations and respect is the recognition of power with a critical stance that defines how power is to be used and regulated A close confrontation with Hannah Arendt s and Michel Foucault s conceptions of power offers the opportunity to clarify in which sense respect is the rule of power relations This also helps to overcome the anthropocentric bias inherent in many theories of respect It is important to recognize that living beings and nature possess power and that we must acknowledge this and understand the limitations of our power over them Respect and Power will appeal to researchers and graduate students working in moral and political philosophy political theory critical theory and the social sciences
