Multiple-Text Manuscripts Alessandro Bausi,Michael Friedrich,Marilena Maniaci,2019-12-02 The universal practice of selecting and excerpting summarizing and canonizing arranging and organizing texts and visual signs either in carefully dedicated types of manuscripts or not is common to all manuscript cultures Determined by intellectual or practical needs this process is never neutral in itself The resulting proximity and juxtaposition of previously distant contents challenge previous knowledge and trigger further developments With a vast selection of highly representative case studies from India Islamic Asia and Spain to Ethiopian cultures from Ancient Christian to Coptic and Medieval European domains this volume deals with manuscripts planned or growing and resulting in time to comprise more than one Whatever their contents the natural world and related recipes astronomical tables or personal notes documentary religious and even highly revered holy texts codicological and textual features of these manuscripts reveal how similar needs received different answers in varying contexts and times *A Commentary on the Letters of M. Cornelius Fronto* Hout,2018-07-17 This is the first commentary on

the letters of Marcus Cornelius Fronto c 90 95 c 167 It aims at an extensive grammatical stylistic and historical interpretation of the letters and the ancient testimonies on Fronto The author demonstrates where Fronto stands in Latin literature hence the numerous quotations of parallel similar and dissentient passages from Fronto and other writers The letters are written in a pure simple style with a great deal of colloquialisms and many a post classical turn of phrase The many archaisms show how Fronto as a philologist had a comprehensive knowledge of pre Cicero Latin This commentary based on the Teubner edition by the author Leipzig 1988 offers a thorough explanation of Fronto s style and language e g of his archaisms and colloquialisms identification of the persons mentioned and the chronology of the letters Seven elaborate indices complete this book *A Commentary on Apollonius Rhodius Argonautica III, 1-471* Malcolm Campbell,2018-07-17

This is a commentary on the third book of Apollonius Argonautica one of the most influential and admired products of the Hellenistic era The author sets out to deal comprehensively with all important aspects of the work in particular proper attention is paid for the first time to the poet s constant manipulation of the two Homeric epics many thorny problems of text and interpretation are examined afresh and a wealth of hitherto unadduced illustrative material drawn from Greek and Roman poetry of various genres and periods is used to shed light on a number of issues The volume closes with a series of detailed digressive indexes dealing with diction models and imitations language and style metre transmission mythology religion geography ethnography and aetiology **Annaeana Tragica** John Fitch,2017-08-28 This volume is a companion to

The League of the Aitolians John D. Grainger, 2018-07-17 The Aitolians have had a bad press regarded as pirates and brigands and their state as a pirate state built on terrorist tactics This book treats them as what they really were a normal Hellenistic state They constructed an original and successful polity which provided peace and prosperity for its inhabitants and played a major part in Greek history for a century and a half The approach is chronological beginning with the origin and formation of the league and its early expansion and then dealing with its long duel with Macedon and concluding with its destruction by Rome This is the first full account of the history of the league which approaches it as an independent state rather than as the enemy of other states and peoples It complements the standard histories of the other Hellenistic states

distinguishing truth from fiction and exposing the lies of philosophers In their commentary the editors trace the sources and the meaning of the numerous intertextual allusions and parodies of philosophers poets historians and paradoxographers The *Verae Historiae* emerges from this scrutiny as a remarkably complex text with some very modern concerns it problematizes the act of reading allegorical interpretation authorial reliability and the validity of cultural norms and literary genres

Ships and Sea-Power Before the Great Persian War H. T. Wallinga,1993-01-01 This book presents a new theory about the developments in shipping and naval organization that culminated in the invention around 530 BC in the eastern Mediterranean of the trireme and the subsequent adoption of this first specialized warship of antiquity by all the naval powers of the time New interpretations are proposed of Greek and Assyrian iconographic data and of hitherto ignored evidence in Herodotos and Thukydides the non military factors determining developments are emphasized Thukydides fundamental essay on the genesis of Greek sea powers is studied in depth the rarity of these sea powers stressed and the peculiar background of the naval power of Phokaia and the Samian tyrant Polykrates exposed The problem of the trireme's place of origin the factors determining its invention probably in Saite Egypt and its immediate adoption by the Persian king Kambyses are discussed The first naval operations of the Persians are surveyed reasons and circumstances of the trireme's introduction into the navies of the Greek city states analysed with special attention for Themistokles' navy bill The book offers ancient historians and classical philologists a radically new approach to archaic maritime and naval history It will also be useful to nautical archaeologists

The Language of the Freedmen in Petronius' *Cena Trimalchionis* B. Boyce,2018-07-17 Realistic representation of the speech of the lower classes in ancient literature is largely confined to the comic genres and Petronius' realism in this area is more thorough going than that of any other ancient author A vast scholarly literature has grown up around the question of how faithfully the speeches of Petronius' freedmen reflect characteristics of actual popular speech this literature is reviewed and evaluated A survey of the phonological morphological lexical and syntactic peculiarities in these speeches is then undertaken in which they are compared with other vulgar Latin sources such as the Pompeian inscriptions Petronius is in fact one of our most important early sources for the study of popular Latin The way in which Petronius used specific varieties of non standard Latin to characterize different freedmen speakers is explored Petronius has subtly

modulated his freedmen's speeches to reflect differing emotional states and the different attitudes of the speakers toward their social position. The present study is the first comprehensive treatment of the subject undertaken in over forty years in any language and the only one in English.

Two Greek Rhetorical Treatises from the Roman Empire Mervin Dilts, George Kennedy, 2018-07-17 A revised Greek text the first in a century and English translation the first in any modern language of the *Art of Political Speech* by a writer known as the Anonymous Seguerianus ca A D 200 and the *Art of Rhetoric* of Apsines of Gadara ca A D 230 with introduction notes and indices. These works provide evidence of how rhetoric was taught in Greek in the early centuries of the Roman Empire and show the continued development of an Aristotelian tradition before acceptance of the reorganization of the subject by Hermogenes. They complement each other in that the Anonymous was especially interested in debates about rhetorical theory while Apsines' primary interest was in analysis of speeches of Demosthenes and other orators and in teaching declamation.

Paralysin Cave John M. McMahon, 2018-07-17 This volume explores the literary representation of male sexual dysfunction and discusses the natural and supernatural elements of an ancient folk medical system based on conceptual associations between male sexuality and specific plants, animals and minerals. The work incorporates material from both literary and scientific sources to draw parallels between ancient and modern paradigms of healing. The literary depiction of attempts to remedy impotence demonstrates how an accessibility to cures contributes to the sexual and social reintegration of the sufferer. The *Satyricon* of Petronius echoes this process by means of the text itself and so effects similar ends. The book provides new insights into literature and the ancient belief systems underlying it with its original and integrative approach to disciplines such as philology, botany, mineralogy, zoology and medicine.

The Portrait of the Lover Maurizio Bettini, 2023-12-22 There are a surprising number of stories from antiquity about people who fall in love with statues or paintings and about lovers who use such visual representations as substitutes for an absent beloved. In a charmingly conversational, witty meditation on this literary theme, Maurizio Bettini moves into a wide-ranging consideration of the relationship between self and image, the nature of love in the ancient world, the role of representation in culture and more. Drawing on historical events and cultural practices as well as literary works, *The Portrait of the Lover* is a lucid excursion into the anthropology of the image. The majority of the stories and poems Bettini examines come from Greek and Roman classical antiquity but he reaches as far as Petrarch, Da Ponte and Poe. The stories themselves, ranging from the impassioned to the bizarre and from the sublime to the hilarious, serve as touchstones for Bettini's evocative explorations of the role of representation in literature and in culture. Although he begins with a consideration of lovers' portraits, Bettini soon broadens his concerns to include the role of shadows, dreams, commemorative statues, statues brought to life and vengeful statues. In short, an entire range of images that take on a life of their own. The chapters shift skillfully from one theme to another, touching on the nature of desire, loss, memory and death. Bettini brings to the discussion of these tales not only a broad learning about cultures but also a delighted sense of wonder and admiration for the evocative power and endless

variety of the stories themselves There are a surprising number of stories from antiquity about people who fall in love with statues or paintings and about lovers who use such visual representations as substitutes for an absent beloved In a charmingly conversational witty meditation on *Oral Performance and Its Context* Chris Mackie,2017-07-31 This volume is concerned with aspects of orality and literacy in the ancient world It arises from the tremendous contemporary interest among scholars in questions of how literacy and orality co exist and interact in the ancient world The contents of the book are refereed papers originally presented at the fifth biennial Orality and Literacy in ancient Greece held at The University of Melbourne in 2002 Papers are offered by scholars from Britain the USA Canada and Australia which deal with a range of periods and genres in antiquity from Homer through to Roman literature The book will be of great interest to students and scholars of the ancient world *Methods in the Mediterranean* David Small,2018-07-17 This collection of essays treats the fundamental issue of the correlation of archaeology and texts in recreating the ancient Mediterranean world Contributions from Classical and Near Eastern archaeologists and historians address specific points of correlation and their potential for future productive research in the Mediterranean After an introduction to the issue of texts and archaeology the essays treat concepts such as site as text artifactual contingency of meaning correlating survey with documents contextual independence of evidence textual bases for archaeological approaches and correlating faunal evidence with texts This book will be of important use to archaeologists and historians of the Mediterranean and scholars of archaeological research in historical archaeology in general **Ritual Matters** Claudia Moser,Jennifer Knust,2017-11-14 An international cross disciplinary investigation of ancient religious practices and their material remains yields fresh insights and poses new questions **A Seleukid Prosopography and Gazetteer** John D.
