Alchemy Unveiled Jean Baptiste van Helmont, Johannes Helmond, 1997-04 Alchemy is the last and highest knowledge which can be committed to paper in the form of letters Beyond that another language is required one which cannot be committed to paper Most people confuse iatrochemistry with Alchemy When an Alchemist speaks of Mercury Sulphur and Salt he speaks of his spiritual astral and physical bodies not of the elements Alchemy Unveiled describes the tribulations that a human being has to pass through in order to purify these three bodies However to achieve the level of an

Alchemist requires daily study and strict daily mental astral and physical exercises for many lifetimes Many individuals have already achieved this goal The purpose is not to convert a lower metal into gold but to change an impure body into a pure body namely the spirit soul and physical bodies An Alchemist is one who has passed the levels of a magician spheric magician and Kabbalist All these levels can be achieved without the help of a teacher These Western writings are by those who have reached levels higher than an Alchemist They have given us these writings philosophically and practically These sciences cannot be learned intellectually but have to be approached with a clean heart One s character has to be completely free of all negative characteristics And for the one who embarks on this journey the first thing to be learned is what a positive characteristic is and what a negative characteristic is And the reader will be surprised what negative characteristics are because many of these characteristics are considered by most as positive Alchemy Unveiled will lead the reader on a journey of a complete purification of the body soul and spirit and for the first time the mystery of the Philosopher s Stone is openly explained Much has been written about this subject most of which is and remains incomprehensible for most Many of the alchemical writings available were and are based on error and point the way to the wrong path This is mainly due to the fact that many individuals do this for personal material gain Alchemy Unveiled begins with an explicit explanation of the symbolic language of Alchemy which is a must for any further clear understanding of the entire text of this book It explains the errors of many who were not in possession of the true knowledge regarding this art It takes the reader on a journey through the ancient mysteries of Initiation the Osiris mysteries the Eleusian Mysteries the Mysteries of Israel the Christ Mysterium and the Mystery of Alchemy     The Art of Personal Mastery: A Roadmap to Success and Fulfillment Richard D.

Wilson,Christopher Bamford,Kevin Townley,2007-05 Hermeticism or alchemy is the ancient primordial mystery science of nature through which people in all times and places have for the sake of world evolution sought to unite Heaven and Earth divinity cosmos earth and humanity as a single whole Selfless intimate dedicated to healing and harmony Hermeticism has accompanied and sustained every religious epoch and revelation It may be found in all historical cultures from the traditions of India and China in the East to the Judeo Christian West It could even be said that Hermeticism is the primal cosmological revelation and the common ground of all spiritual traditions Nevertheless in the great revival of mystical esoteric traditions and practices during the last century Hermetic tradition in fact Nature herself has been largely ignored Today when the Earth seems most under attack Green Hermeticism is especially appropriate The book explores not only the ancient Masters

inner science but also their science of Nature During spring and summer 2006 Pir Zia Khan convened a series of gatherings to begin to unfold the contemporary meaning of ancient sacred science for our time Green Hermeticism is a partial record of that meeting Peter Lamborn Wilson explores the many ramifications of the alternative worldview offered by Hermeticism Christopher Bamford provides a broad historical overview of the tradition from the Ancient Mysteries to contemporary manifestations of the alchemical tradition while Kevin Townley brings a practical dimension to the gathering teaching the preparation of herbal elixirs and demonstrating that cosmology and philosophy can become a truly healing path for the Earth Green Hermeticism is necessary reading for anyone seeking a spiritual and cultural path for the healing of the current ecological and cultural crisis In Alchemy there is an injunction to quicken or revive the dead which is illustrated by a dead tree growing verdant again That is exactly what this wonderful and rare work does in awakening human consciousness to its Divine potential and Ultimate Destiny Art thus helps Nature to achieve its ideal Perfection The authors must be congratulated for their insightful words I wholeheartedly recommend reading it again and again and again Stanislas Klossowski de Rola author Alchemy The Secret Art and The Golden Game Alchemical Engravings of the Seventeenth Century Environmental solutions today are largely technical but the planetary crisis is also a crisis of soul or better yet of the Imagination Too tricky for religion too poetic for reductionist science Green Hermeticism reheats a prophetic imagination still in love with the material world a new alchemy of ancient nature Erik Davis author The Visionary State A Journey through California s Spiritual Landscape Just when you felt numb and disenfranchised thinking the world had become bleak and dead along comes this rare much needed book to remind us that there is still some sanity depth and creative energy percolating up from the heart of Reality Thank God and the Goddess Nature for this smart and inspiring breath of fresh air Green Hermeticism is where the wasteland ends and where the world becomes re enchanted with genuine living thought that goes beyond superficialities It s a rare pleasure to be in the presence of living minds who actually know something wonderful and have not been deadened by the opiates of capital or the tenure track Very highly recommended David Fideler publisher Phanes Press editor Alexandria author of Jesus Christ Sun of God and translator of Love s Alchemy Poems from the Sufi Tradition with Sabrineh Fideler The publication of Green Hermeticism has the sense we so rarely get of a genuine moment in cultural history It is not just the eloquence of its authors knowledge and arguments or that they are showing us once again the depth and range and beauty of alchemy and the Hermetic tradition and what Peter Lamborn Wilson calls Romantic Science Nor is it even the links they establish between the Hermetic tradition and ecology and the value of a science that perceives the world as alive rather than a machine What makes this work significant is the sense that it shows us how we can use these ideas and knowledge to create a genuine counter to destruction and despair an alchemy of our politics as well as of our spirit Rachel Pollack author of 78 Degrees of Wisdom A Book of Tarot Green Hermeticism reminds us that the art of the Great Work is to enter more deeply into the dynamic and practical wisdom of the universe which is our laboratory where work and prayer
