Alcohol Misuse:

Alcohol Misuse Timothy J. Peters, 1996-06-30 This book is based on a series of reports on the health and social consequences of alcohol misuse presented to the European Economic Community Each of the chapters is written by internationally acclaimed experts who have reviewed their own chosen fields and contributed possible future research directions A review of trends in consumption are followed by a report of the racial ethnic and gender differences in alcohol misuse The importance of alcohol as a nutritional source in the pathogenesis of tissue damage the role of malnutrition deficiencies in alcohol misusers is also discussed Chapters review organs which are damaged by misuse such as the liver pancreas brain muscle skin and bone The relationship between alcohol misuse and malignancy and the HIV disease completes the biomedical areas **Public Health Mini-Guides: Alcohol Misuse E-book** Ken Barrie, Angela Scriven, 2014-06-14 The Hot Topics in Public Health series Hot Topics in Public Health consists of a series of small pocketbooks focussing on the key public health issues identified by the UK government priorities The books will be of use to a wide audience of students and practitioners in the Nursing and Allied Health areas as all students in these areas do modules on Public Health and Health Promotion as well as those doing a diploma or degree in PH HP Students will find the books useful to cover assignments and on the ward and practitioners will love the quick reference format for use on the ward and in giving patient advice and running clinics on these topics There will be a title providing essential information on the priority areas of Obesity Smoking Alcohol misuse Sexual health Mental health Diabetes Non communicable diseases Exercise Drug misuse Health inequalities Boxes Thinking points will be of interest to practitioners Key debates Case studies Current strategies Gov targets Further Reading Useful web links **Reducing Alcohol Harm** Great Britain. National Audit Office, 2008 This NAO report HC 1049 session 2007 08 ISBN 9780102954333 examines the health service provision in England in respect of dealing with alcohol misuse It is estimated that more than 10 million people are now regularly drinking above the guidelines set by Government with the consequent ill health and injury Between 1995 2007 hospital admissions for the three main alcohol specific conditions alcohol related liver disease mental health disorders linked to alcohol and acute intoxication more than doubled from 93 459 to 207 788 In 2006 there were 8 758 deaths from alcohol related causes twice as many as there were 15 years earlier The Department of Health has estimated that alcohol misuse costs the health service 2 7 billion per year along with the social costs such as crime and disorder social and family breakdown as well as sickness absence The Cabinet Office has put the total cost of alcohol misuse in the UK economy of up to 25 1 billion The NAO has set out a number of main findings and recommendations including that a quarter of Primary Care Trusts PCTs had not accurately assessed the alcohol problems in their area that many PCTs do not have a strategy for alcohol harm or a clear picture of spending on such services that local provision for specialist services is not based on a good understanding of a communities needs with wide variations between localities that few PCTs collect detailed data on local patterns of alcohol misuse that

money spent on identification and brief advice can be cost effective helping to re-empt the need for more expensive services that PCTs need to coordinate more effectively with other public bodies such as the police prisons and probation staff as well as social services to identify and help people who are misusing alcohol that at present no systematic means of promoting good evidence based practice on alcohol harm across PCTs exists
