This book argues for an approach to linguistic ethnography which departs from the singular gaze of the academic researcher to amplify instead the voices of participants researchers and collaborators The authors offer an account of writing ethnography polyphonically incorporating the complexity of individual voices In doing so they challenge the imperative to make meaning from and explain the culture of the other Together the essays open up the emic perspective by considering the experiential aesthetic emotional moral and ethical value people bring to encounters with others The book is an essential addition to research methods courses in applied linguistics and sociolinguistics and an invaluable contribution to knowledge about research based drama theatre and creative practice Books I Have Loved Carl Wells,2023-02-08

comprehended The contributors aim to expose some recent instances and modalities of cultural and political constructions of victimhood in various parts of the world Our concern with the overlapping areas of victimhood and rhetoric points to the ambiguous manner in which language and images thread their way into the critical discourses of today and even devise a vicious reversal of the victimized victimizer positions Although we ask can the victim s real ever be fully represented we keep holding on the simple assurance that only an attempt at representation of the real in an actual performance can bring us closer to the victimizing event make us grasp its other contested constructions and foresee the materiality of the effects of its linguistic implications We try to suggest a comparative approach that would link different experiences of victimization possibly enabling a cognitive exchange and emphasize the necessity of raising the writers and readers awareness of the narrative consequences of victimizing processes and the policies following on from them **The Power of the Story**
