Supporting Students' Intellectual Freedom in Schools: The Right to Read Sachdeva, Danielle E., Hull, Samantha L., Kimmel, Sue C., Whitaker, Westry A., 2023-12-21 In today's developing view of education a disquieting trend looms the erosion of students right to choose what they read This erosion fueled by an alarming surge in censorship attempts casts a shadow over the very essence of intellectual exploration Recent years have witnessed an unprecedented number of challenges aimed at restricting access to books targeting themes that embrace human diversity inclusivity and the tapestry of life itself As educators administrators and scholars grapple with this critical juncture Supporting Students Intellectual Freedom in Schools The Right to Read serves as a comprehensive resource they can turn to for support and knowledge This book is a call to action resonating with teachers school librarians administrators and scholars who refuse to let censorship erode the foundations of education As censorship attempts proliferate its chapters offer fortification providing educators at all levels with the tools to safeguard students intellectual freedom From the hallowed halls of academia to the vibrant classrooms of K 12 the insights within these pages shape curricula conversations and a collective commitment to nurturing minds that thrive on diversity and inquiry In a world clamoring for unwavering advocates of intellectual freedom Supporting Students Intellectual Freedom in Schools is not just a solution it is a declaration of resolute solidarity in the pursuit of knowledge and the unassailable right to read

An Open Book: What and How Young Children Learn From Picture and Story Books Jessica S. Horst, Carmel Houston-Price, 2016-01-21 Looking at and listening to picture and story books is a ubiquitous activity frequently enjoyed by many young children and their parents Well before children can read for themselves they are able to learn from books Looking at and listening to books increases children's general knowledge understanding about the world and promotes language acquisition This collection of papers demonstrates the breadth of information pre reading children learn from books and increases our understanding of the social and cognitive mechanisms that support this learning Our hope is that this Research Topic eBook will be useful for researchers as well as educational practitioners and parents who are interested in optimizing children's learning

Making Schools Work for Every Child, 2000 [Early Adolescence](#) National Science Foundation (U.S.), 1978

Child Language Development in Singapore and Malaysia Anna Kwan-Terry, 1991 In recent

years there has been increasing interest in the English used in Singapore and Malaysia including how children in these two countries acquire the languages used around them particularly on their acquisition of English This book is the first attempt to bring together studies on various aspects of this subject done by academics from the two countries It begins with two background papers on the linguistic situation in Singapore and Malaysia followed by studies of the cognitive development of children as it relates to language development The third and fourth sections of the book contain papers dealing variously with the sociolinguistic and psycholinguistic aspects of language use with important implications on language learning and teaching in a multilingual context

The First Sourcebook on Asian Research in Mathematics Education - 2 Volumes
Bharath Sriraman, Jinfa Cai, Kyeonghwa Lee, Lianghuo Fan, Yoshinori Shimizu, Chap Sam Lim, K. Subramaniam, 2015-08-01
Mathematics and Science education have both grown in fertile directions in different geographic regions Yet the mainstream discourse in international handbooks does not lend voice to developments in cognition curriculum teacher development assessment policy and implementation of mathematics and science in many countries Paradoxically in spite of advances in information technology and the flat earth syndrome old distinctions and biases between different groups of researchers persist In addition limited accessibility to conferences and journals also contribute to this problem The International Sourcebooks in Mathematics and Science Education focus on under represented regions of the world and provides a platform for researchers to showcase their research and development in areas within mathematics and science education The First Sourcebook on Asian Research in Mathematics Education China Korea Singapore Japan Malaysia and India provides the first synthesized treatment of mathematics education that has both developed and is now prominently emerging in the Asian and South Asian world The book is organized in sections coordinated by leaders in mathematics education in these countries and editorial teams for each country affiliated with them The purpose of unique sourcebook is to both consolidate and survey the established body of research in these countries with findings that have influenced ongoing research agendas and informed practices in Europe North America and other countries in addition to serving as a platform to showcase existing research that has shaped teacher education curricula and policy in these Asian countries The book will serve as a standard reference for mathematics education researchers policy makers practitioners and students both in and outside Asia and complement the Nordic and NCTM perspectives
