Plate, 2016-08-21 Excerpt from German Studies Vol 1 A Complete Course of Instruction in the German Language It has almost become a custom that the Author of a book and particularly of a new School book begins his Pre face with a sort of apology for having dared to increase the great number of similar works I will not do any such thing In my Opinion every work that is presented to the Public must justify its own appearance if this is not the case all excuses and apologies in the Preface are super uous and generally ridiculous The number of German Grammars is indeed very great but I also know that a great many of them are of such a kind that they must soon fall into oblivion It is however not my task to show the merits and defects of other works my endeavour shall simply be to state the Principles on which this work is composed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com)
