

A top-down view of various photography equipment scattered on a light-colored wooden desk. In the upper center, a portion of a laptop keyboard is visible. To the left, a black camera flash stands vertically. Below it, a black camera battery and a coiled black cable are on the desk. In the center, a black camera lens lies horizontally. To the right of the lens, a box of film is visible. In the bottom center, a black DSLR camera with a lens attached is positioned. To its right, another black DSLR camera is shown from a different angle. In the top right corner, a small green plant in a white pot is partially visible. The entire scene is dimly lit, with the text 'PHOTOGRAPHY BASICS' overlaid in the center in a bright white font.

Approaching Photography Paul Hill,2020-12-16 Fully updated and revised this seminal book explains and illustrates what photographs are how they were made and used in the past and more particularly what their place is in the creative arts and visual communications world of today Paul Hill looks at photographs as modes of expression and explores the diversity of approaches taken when creating photographs and what these mean for a photographer's practice and purpose It emphasises the importance of contextualisation to the understanding of the medium diving into the ideas behind the images and how the camera transforms and influences how we see the world With an impressive collection of 200 full colour images from professional practitioners and artists it invites us to consider the foundations of photography's past and the digital revolution's impact on the creation and dissemination of photographs today Essential reading for all students of photography it is an invaluable guide for those who want to make a career in photography covering most areas of photographic practice from photojournalism to fine art to personal essay

Photography after Postmodernism David Bate,2022-08-19 In life after postmodernism our conception of photography is not the same as before Photography After Postmodernism starts with this conception and explores what changes have affected photography its relation to social life and our image centred culture Engaging with the visual environment and issues that have emerged in the postmodern world David Bate introduces fresh approaches and analysis of photographs and

their place within the aftermath of postmodernist thought The book shows how photographs circulate in an image world beyond their art or media origins that deeply affects our sense of time and relation to memory The role of archives dreams memories and time are deployed to develop and resituate arguments about photography made by Roland Barthes in Camera Lucida to further engage and understand our contemporary condition By considering how afterwardness is invoked in the developments of modern and contemporary photography Bate demonstrates the complex ways in which photographic images resonate across public and private spaces while carrying a slippage of meaning that is never quite fixed yet always contingent and social The approach shows how modernist photography was already invested in values that its discourse could not enunciate which resonates with much contemporary photography today Featuring a range of historical and contemporary images the book offers detailed and innovative readings of specific photographs which open new avenues of thought for those studying and researching visual culture and photography
