Sources of State Practice in International Law Ralph Gaebler, Alison Shea, 2014-06-05 Sources of State Practice in International Law is a descriptive bibliography of both electronic and printed sources of information containing the text of treaties and the record of diplomatic activity of important jurisdictions around the world As such it includes an up to date description of national treaty portals and other valuable Internet based sources At the same time it also includes descriptions of printed sources providing access to treaties and official diplomatic documentation difficult to locate in standard compilations In addition this work includes a narrative section for each jurisdiction summarizing issues related to treaty succession and treaty implementation in municipal law Sources of State Practice in International Law is an indispensable reference for researchers in both international law and international relations Contributors Jennifer Allison Martin Bouda Rob Britt Talia Einhorn Victor Essien Gabriela Femenia Ralph F Gaebler Susan Gualtier Ryan Harrington Carole L Hinchcliff Marci Hoffman Vera Korzun Jootaek Juice Lee Joseph Luke Evelyn Ma Teresa M Miguel Stearns Dana Neacsu Kara Phillips Sunil Rao Mary Rumsey Alison A Shea Maria I Smolka Day Suzanne Thorpe and Beatrice Tice **Foreign Relations of the United States** United States. Department of State, 1986 **The Department of State Bulletin**, 1989 The official monthly record of United States foreign policy **General Foreign Policy Series**, 1966 **Dynamics of Human Rights in the US Foreign Policy** Sanjay Gupta, 1998 The book revolves around the role of the US federal government in the protection and promotion of human rights at the global level A comparative analysis of human rights policy of different US Presidencies toward various regions of the world is analysed The book discusses the broad theoretical perspectives on human rights and goes on to trace the growth and development of human rights in the US foreign policy from the time of American Declaration of Independence of 1776 In particular it assesses the role of Jimmy Carter and Ronald Reagan in addressing the global human rights issues Besides the US policy toward the former Soviet Union China and Latin America has also been elaborately examined The US Declaration of Independence of 1776 together with the Bill of Rights of 1791 constitutes the bedrock of US commitment and dedication to human rights The great American statesmen Jefferson Lincoln Roosevelt and Carter rendered yeomen service to the cause of human rights both at home and the world at large However in practice the concern for human rights during the successive US administrations has not been consistent as there were occasions when the US gave greater weightage to strategic military relations and economic considerations than to human rights Besides there were instances when the US became a passive collaborator to human rights abuses committed by several of its allies particularly in Latin America and Asia Also there were certain Presidencies as Nixon and Reagan that gave more rhetorical

speeches and statements on human rights with little follow up action On the whole the US human rights policy has been active assertive and dynamic and its application been region and situation specific Images and Intervention Martha L. Cottam,1994-04-15 Cottam explains the patterns of U S intervention in Latin America by focusing on the cognitive images that have dominated policy makers world views influenced the procession of information and informed strategies and tactics She employs a number of case studies of intervention and analyzes decision making patterns from the early years of the cold war in Guatemala and Cuba to the post cold war policies in Panama and the war on drugs in Peru Using two particular images the enemy and the dependent Cottam explores why U S policy makers have been predisposed to intervene in Latin America when they have perceived an enemy the Soviet Union interacting with a dependent a Latin American country and why these images led to perceptions that continued to dominate policy into the post cold war era Drawing the Line Carolyn Woods Eisenberg,1996 In this fresh and challenging study of the origins of the Cold War Professor Eisenberg traces the American role in dividing post war Germany Drawing upon many original documentary sources she examines the Allied meeting on the Elbe follows the Great Powers through their confrontation in Berlin and culminates with the creation of the West German state in the fall of 1949 In contrast to many works in the field the book argues that the partition of Germany was fundamentally an American decision US policy makers chose partition mobilized reluctant West Europeans behind that approach and by excluding the Soviets from West Germany contributed to the isolation of East Germany and the emergence of the post World War II US Soviet rivalry The volume casts new light on the Berlin blockade demonstrating that the United States rejected United Nations mediation and relied on its nuclear monopoly as the means of protecting its German agenda
