

Basic Math Refresher

Nursing required competency in mathematical skills in order for you to be able to administer medications to your patients safely. Use the following basic math refresher to build the foundation for developing proficiency in the mathematical skills necessary for nursing.

Roman Numerals					
I=1	V=5	X=10	C=100	D=500	M=1000

Roman Numerals - General Rule

The basic form is to place the larger numerals to the left and add other numerals.

Example: XXXIII = 33, which is (XXX = 30) + (III = 3) = 33

Note: If there seems to be several ways of writing a number, use the shorter form.

XXI – 21, which is (XX=20) + (I = 1) = 21, not XVVI (X = 10 + V = 5 + V = 5 + I = 1)
