**Basic Psychoanalytic Concepts on Metapsychology, Conflicts, Anxiety and Other Subjects** Humberto Nagera, 2014-05-30 Originally published in 1970 and in contrast to the previous three volumes which each dealt with a single subject this volume is a miscellaneous one Seventeen subjects were selected on the basis of their relevance for the understanding both of psychoanalytic theory and of human behaviour in general In this volume the reader can follow the development of Freud's theories regarding important subjects such as Fixation Regression Cathexis Conflicts Anxiety Ambivalence Reality Testing Transference and Counter Transference Some of these subjects were chosen because of the many misconceptions and misunderstandings that surrounded them As in previous volumes the development of each concept is described from its conception to Freud's final formulation and detailed references are given for the guidance of the student the psychoanalyst the psychiatrist the social worker the psychologist and the general reader

**Basic Psychoanalytic Concepts** Humberto Nagera, 1970      **Basic Psychoanalytic Concepts on Metapsychology, Conflicts, Anxiety and Others Subjects** Humberto Nagera, 1970      **Basic Psychoanalytic Concepts** Humberto Nagera, 2022-07-30 This 4 volume set originally published between 1969 and 1970 traces the basic psychoanalytic concepts evolved by Freud Each volume takes a single theme in Freud's thought and gives a concise but exhaustive account of the historical development of the concepts relating to it Whenever there is any change in formulation or amplification the change and Freud's reasons for it are clearly noted Out of print for some time it is now available again both as a set and individual volumes In order to present his thought most clearly and graphically Freud's own words have been used and references are always given to the appropriate volumes of the standard edition of the Complete Psychological Works of Sigmund Freud and to Freud's letters and other writings This enables the reader to pursue any subject of special interest in a minimum of time a possibility that will prove of enormous help to students teachers lecturers research workers and seminar leaders alike The preparation of these volumes involved the active collaboration of fifteen psychoanalysts and child psychotherapists from the Hampstead Child Therapy Clinic now the Anna Freud Centre Organized in the form of a study group under the chairmanship of Dr Humberto Nagera they worked intensively on the project for six years before completing these four volumes Usually it will take a student several years of intense reading to become conversant with these basic concepts let alone to master and integrate them fully Dr Nagera and his colleagues aimed at making this task lighter
