Basic Sciences For Obstetrics And Gynecology:

Basic Sciences for Obstetrics and Gynaecology: Core Materials for MRCOG Part 1 Austin Ugwumadu, 2014-06-19 This textbook takes a new dynamic approach to the basic sciences in obstetrics and gynaecology. It teaches candidates all they need to know for the MRCOG Part 1 examination by extending the understanding of the basic medical sciences and their relevance to obstetrics and gynaecology. Like conventional textbooks it teaches what is true but it also what is false and why. The most complex concepts are discussed in a problem based format so that the relevant basic sciences are taught and drawn together in context.

Basic Sciences for Obstetrics and Gynaecology Tim Chard, 1998 Basic Sciences for Obstetrics and Gynaecology has become the standard revision aid for students preparing for examinations in obstetrics and gynaecology particularly those candidates for the MRCOG Part I. A wealth of information is presented in a concise didactic format focusing on those facts that are generally considered to be neither contentious nor speculative. The fifth edition has been substantially updated to reflect the current understanding of the basic sciences underpinning the practice of obstetrics and gynaecology. This book will also be of value to professionals wishing to refresh their basic scientific knowledge. Cell Biology Embryology and the Placenta Anatomy General Physiology and biochemistry Endocrinology Pathology Microbiology Pharmacology. Tim Chard is Professor of Obstetrics and Gynaecology at St Bartholomew's Hospital in London. Richard Lilford is Professor of Health Services Research at the University of Birmingham.

Basic Science in Obstetrics and Gynaecology Sir John Dewhurst, Michael De Swiet, Geoffrey Chamberlain, 1986 *Basic Sciences for Obstetrics and Gynaecology* T. Chard, R. Lilford, 2012-12-06 The aim of this book is to provide a straightforward summary of the knowledge required for preliminary examinations in specialist obstetrics and gynaecology. The first part of the examination for Membership of the Royal College of Obstetricians and Gynaecologists would be a good example. Thus the field covered is that of the basic sciences anatomy physiology biochemistry etc as applied to human reproduction. Most examinations of this type are based on multiple choice questions MCQ. No apology is made for the fact that the present book addresses the sort of fact which lends itself to testing by this approach. There is no discussion of speculative or contentious areas no account of present or future research and no references. Excellent books are available which treat the topic in a much fuller and more discursive manner and the present volume does not seek to emulate them. Readers will be aware that even apparently immutable facts are subject to occasional revision. We have attempted to present the state of the art. Most of the material is generally if not universally accepted. A particular problem arises with numerical information.

Textbook for MRCOG - 1 Richa Saxena, 2016-04-30 Textbook for MRCOG 1 Basic Sciences in Obstetrics Gynaecology is a comprehensive resource for candidates preparing for the MRCOG Part 1 exam and all medical students wishing to pursue specialisation in obstetrics and gynaecology in the UK. Includes over 1000 SBA questions and answers for self assessment. The book is further enhanced by over 230 illustrations and images making this an ideal revision guide.

Basic Sciences for Obstetrics and Gynaecology Tim

Chard, Richard Lilford, 2014-09 Basic sciences for obstetrics and gynaecology Tim Chard, 1998 Basic Science in Obstetrics and Gynaecology E-Book Phillip Bennett, Catherine Williamson, 2014-04-10 A textbook covering the basic sciences relevant to obstetrics and gynaecology at a level suitable for doctors specialising in the field The chapters match the syllabus of the specialist UK exam the MRCOG Part 1 This new edition completely revised and updated to cover all the basic science required for the new MRCOG Part 1 exam Genetics covered by two new chapters Structure and function of the genome and Clinical genetics Extensive revision of immunology statistics and evidence based health Many new illustrations particularly in anatomy and immunology New editorial team plus nearly 50% new contributors New self assessment section written in the style of the new exam This new edition completely revised and updated to cover all the basic science required for the new MRCOG Part 1 exam Genetics covered by two new chapters Structure and function of the genome and Clinical genetics Extensive revision of immunology statistics and evidence based health Many new illustrations particularly in anatomy and immunology New editorial team plus nearly 50% new contributors New self assessment section written in the style of the new exam

Basic Science in Obstetrics and Gynaecology Phillip Bennett, Catherine Williamson, Lynne Sykes, David A MacIntyre, Peter H Dixon, 2022-10-03 Basic Science in Obstetrics and Gynaecology is an essential one stop portable revision tool for candidates preparing for Part 1 of the MRCOG specialist examination Fully updated by experts who are internationally recognised in their fields the chapters match the syllabus of the exam combining detailed coverage of the science with related self assessment questions that you will encounter in the MRCOG This book is suitable for doctors specialising in obstetrics and gynaecology who want the best chance possible to pass this difficult exam Covers all topics for the MRCOG Part 1 including basic science and clinical anatomy Contains self assessment SBA questions to consolidate learning Includes three mock exam papers enabling you to practice for the exam Digital version included Fully revised and updated Completely updated self assessment chapter written in the style of the new exam Extensive revision of fetal physiology biophysics biochemistry endocrinology and physiology New top quality illustrations to support learning
