Russian Military Reform Carolina Vendil Pallin, 2008-08-29 This book examines reform of the Russian military since the end of the Cold War It explores the legacy of the Soviet era explaining why at the time of the fall of the Soviet Union radical reform was long overdue in the wake of changing military technology new economic and political realities and the emergence of new threats and challenges It discusses the problems encountered by Gorbachev in his attempts to promote military reform in the late 1980s and goes on to analyse in detail the mixed fortunes of the policies of his successors Yeltsin and Putin It describes how the onset of war in Chechnya in 1994 provided clear evidence of the weaknesses of the Russian military in modern conflicts and shows that although the Chechnya debacle did provide some impetus for reforms in the armed forces in 1997-98 the momentum was not continued under the Putin government It argues that Putin's policies of bolstering central control over all aspects of decision making has left untouched many key problems facing the Russian military including infighting between different force structures lack of transparency and independent scrutiny over defence spending and absence of consensus on the main threats to Russia and optimum force posture Moreover it argues that in his attempts to concentrate all means of control to a corrupt and inefficient Kremlin bureaucracy Putin has deprived himself of all alternative channels of independent scrutiny control and oversight thus exacerbating the problems that continue to plague the Russian military      **General Catalog**, 1973      *Russia's Path toward Enlightenment* Gary M. Hamburg, 2016-06-28 This book focusing on the history of religious and political thinking in early modern Russia demonstrates that Russia's path toward enlightenment began long before Peter the Great's opening to the West Examining a broad range of writings G M Hamburg shows why Russia's enlightenment constituted a precondition for the explosive emergence of nineteenth century writers such as Fedor Dostoyevsky and Vladimir Soloviev      *The War between Russia and Ukraine* Nicole Kunkel, Torsten

Meireis,2025-08-18 Depending on the global but also the European context peace ethical perspectives on the Russian Ukrainian war differ considerably While many Northern Western Middle and South Eastern European states stress the illegitimacy and illegality of Russia s invasion in Ukraine according to international law some European and many states in the global South and East take a different stance Thus important international agents like South Africa have abstained from voting on UN resolution A RES ES 11 1 March 2nd 2022 and also the renewed resolution A ES 11 L 7 February 23rd 2023 Brazil s president Lula da Silva claims neutrality in the conflict South African officials understand Russia as a long standing ally and the conflict as a recalibration of the global order and they don t stand alone with that view This book brings together voices from theology political science and peace ethics from three continents for an intercontinental public theological and interdisciplinary conversation on peace ethics that takes decolonial perspectives into account without giving up claims of universal validity of human rights     Restructuring, Stabilizing and Modernizing the New Russia Paul J.J. Welfens,Evgeny Gavrilentov,2012-12-06

Russia has embarked upon a difficult process of systemic transformation and economic opening up While the initial strong GDP decline seemed to have ended in 1997 the real development was facing even more difficult problems as output declined sharply after the Ruble and banking crisis of August 1998 inflation started to increase again exports and imports were falling capital flight increasing and unemployment rising There is broad disappointment in Russia regarding the transformation failure in 1998 since so many people had hoped that the end of the Soviet command economy would bring democracy prosperity and international integration While Poland has been able to double per capita income in the 1990s it has fallen by 50% in Russia and this despite considerable IMF involvement and some modest support from other international organizations What were the reasons for transformation failure in the 1990s What are the ingredients for long term sustainable transformation What are the internal and international requirements to avoid a second possibly tragic failure of transformation in Russia An international group of researchers has focussed on these problems during a two year research project financed by the Alfried Krupp von Bohlen und Halbach Foundation A series of papers were presented at workshops in Potsdam Bonn and Moscow in 1999 where this book is devoted to four important issues the Russian transformation crisis the topic of restructuring the need for stabilizing Russia and the requirements for modernizing Russia

 Roger P. Bartlett, 1979-12-13 This book examines in detail the Russian government's policy of settling foreigners in European Russia during the last third of the eighteenth century. The recruitment of foreign settlers was practised by many European states during this period primarily as part of general population policies which sought the highest possible levels of population. In Russia it was also part of the process of settling and developing frontier regions. Dr Bartlett shows the European and Russian background, describes the genesis of the Empress Catherine II's Manifestos of 1762 and 1763 which set the policy in motion and follows the development and implementation of policy. The two most notable ethnic groups among Imperial Russia's foreign settlers were Bulgarians and Germans but many other nationalities were also involved. A separate chapter deals with urban settlement, foreign entrepreneurs and artisans including the Armenian community of Astrakhan and connections are explored with other areas of policy notably with Catherine's interest in the Baltic provinces, her concern with the Jewish question and with serfdom and the question of technical improvement in agriculture during the early years of her reign.      **Russia Today Atlas: Strategic Information for Business and Political Decision Makers**
