Basics Of Astrology:

Fundamentals of Astrology M. Ramakrishna Bhat, 2013-01-01 Astrology is both Science and Art Hence only the talented can appreciate and understand it Rightly Visnugupta declares that nobody other than a sage can master the ocean like science of astrology The great Varahamihira declares No sin will creep into a place that is sanctified by the presence of a true astrologer No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings and gives a spiritual bias to astrology The reader is taken step by step in this work from the rudiments Viz the distribution of constellations in the Zodiacal belt which is divided into twelve Signs and the planetary hierarchy through the method of calculating the ascendant and other houses of a natal chart assessment of the strengths influences aspects affliction mutual relations etc of the planets to the final stage of reading the brighter and darker sides of the subject s life his chances of success and failure their periods ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma In this book an attempt has been made to give a good account of the science of astrology with a view to making the reader a good and true astrologer It also shows that astrology does not make a man a fatalist helpless automation in the hands of a merciless Fate It should on the other hand help him to take to self exertion and self help This hoary lore according to the author is to be practised not for selfish ends but to guide the needy and the distressed to remove the cause of their suffering and to turn their attention towards God

Basic Astrology Learn to Interpret your Natal Chart Jideon Francisco Marques, 2024-09-23 This book is not a smorgasbord of astrology You will not find a single word about a sign s signature flower gemstone favorite color or average shoe size in this book Only the essential meanings of the signs planets houses and aspects simply but deeply defined are present not flaky keywords and stereotypes that contain no personalized meaning You will also learn how to quickly get into the nitty gritty of interpreting a chart with skill and insight You will find out how to get to the deepest layers of a natal chart and bring what is most essential and meaningful to the surface Many valuable and interesting topics branch out from these essentials such as the study of asteroids comets fixed stars decanates or transits and progressions All of these topics are worthy of further study and can enrich your knowledge and application of astrology but they all build off of an understanding of the essentials of natal astrology
