Census of the Exact Sciences in Sanskrit, Series A. David Pingree, 1976 **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff, R R Bowker Publishing, 1996-09 *Concepts of Nature* Hans Ulrich Vogel, Günter Dux, 2010-08-13 This book inspired by the sociologist Günter Dux co edited by the historian Hans Ulrich Vogel and introduced by Mark Elvin is a collective intellectual masterpiece written by some of the world's leading scholars Its purpose is to illuminate premodern Chinese ways of thinking about Nature by comparing them with their counterpart traditions in Europe In so doing it also subtly reshapes our understanding of premodern European concepts of the natural world The domains covered principally include philosophy language poetry science and mathematics and their relations with society technology and politics By analyzing the frequent partial similarities between these great two cultural areas in the context of their overall contrasts it points the way for the first time to defining accurately the differences that have been critical for world history

Astrology in Time and Place Nicholas Campion, Dorian Gieseler Greenbaum, 2016-06-22 Astrology is the practice of relating the heavenly bodies to lives and events on earth and the tradition that has thus been generated Many cultures worldwide have practised it in some form In some it is rudimentary in others complex Culture and scholarship have categorised it as both belief and science as a form

of magic divination or religious practice but in many ways it defies easy categorisation The chapters in this volume make a significant contribution to our understanding of astrology across a range of periods of cultures Based on papers presented at the annual conference of the Sophia Centre held in 2012 the contributions range from China and Japan through India the ancient Near East the classical world and early modern Europe to Madagascar and Mesoamerica The different topics include ritual and religion magic and science calendars and time and questions of textual transmission and methodology Astrology in Time and Place is essential reading for all interested in the history of humanity's relationship with the cosmos

Hellenistic Astrology Chris Brennan, 2017-02-10 Hellenistic astrology is a tradition of horoscopic astrology that was practiced in the Mediterranean region from approximately the first century BCE until the seventh century CE It is the source of many of the modern traditions of astrology that still flourish around the world today although it is only recently that many of the surviving texts of this tradition have become available again for astrologers to study Hellenistic Astrology The Study of Fate and Fortune is one of the first comprehensive surveys of this tradition in modern times The book covers the history philosophy and techniques of ancient astrology with a special focus on demonstrating how many of the fundamental concepts underlying the practice of western astrology originated during the Hellenistic period *Essentials of Tibetan Traditional*
