Thomas F. Hedin,2022-07-12 Ovid tells the story of Latona the mother by Jupiter of Apollo and Diana In her flight from the jealous Juno she arrives faint and parched on the coast of Asia Minor Kneeling to sip from a pond Latona is met by the local peasants who not only deny her effort but muddy the water in pure malice Enraged Latona calls a curse down upon the stingy peasants turning them to frogs In his masterful study Thomas F Hedin reveals how and why a fountain of this strange

legend was installed in the heart of Versailles in the 1660s the inaugural decade of Louis XIV's patronage there. The natural supply of water was scarce and unwieldy and it took the genius of the king's hydraulic engineers working in partnership with the landscape architect André Le Nôtre to exploit it. If Ovid's peasants were punished for their stubborn denial of water so too the obstacles of coarse nature at Versailles were conquered: the aquatic iconography of the fountain was equivalent to the aquatic reality of the gardens. Latona was designed by Charles Le Brun, the most powerful artist at the court of Louis XIV and carried out by Gaspard and Balthazar Marsy. The 1660s were rich in artistic theory in France and the artists of the fountain delivered substantial lectures at the Académie royale de peinture et de sculpture on subjects of central concern to their current work. What they professed was what they were visualizing in the gardens. As such, the fountain is an insider's guide to the leading artistic ideals of the moment. Louis XIV was viewed as the reincarnation of Apollo, the god of creativity, the inspiration of artists and scientists. Hedin's original argument is that Latona was a double declaration, a glorification of the king and a proud manifesto by artists.

American Baskets Robert Shaw, 2000. *American Baskets* is the first book to offer a comprehensive overview of an art form that is ten thousand years old. Basketmaking is the most basic of all crafts in its methods and material and its development reflects specifically local traditions. Here, author Robert Shaw, the information source on major U.S. crafts, Booklist examines the craft's history and artistry throughout the country and through various periods. Once among the most common of household objects, handmade baskets have a cachet that has never been equaled. Despite the fact that the American artisan basket has all but disappeared from daily use, the baskets that we have in our homes today are either made from synthetic materials, often by machine, or imported from overseas where labor is cheap. The genuine example of a handcrafted basket is highly prized as a beautiful and valuable object. Baskets are fixtures in the popular style of country decorating and collectors search out fine antiques as well as outstanding contemporary basket creations. *American Baskets* celebrates the treasures of yesterday while exploring the work of many of the fine artists who labor over the art form today. Beautifully photographed and exhaustively researched, *American Baskets* analyzes the influences of both Native Americans and early settlers, including the Aleuts and Hopi as well as the Quakers and Pennsylvania Dutch. The significant contributions of early African American East Coast culture and the rich heritage of rural Appalachia are also discussed. Paying special attention to the collectible aspect of the American basket, Robert Shaw investigates every type of basket indigenous to this country: ash splint, farm baskets, rattan, lightship baskets, rye straw baskets, African American rush baskets, and more. A resource guide listing museums that house basket exhibits, antiques dealers, and auction houses that sell high-quality pieces and traditional basket artisans and organizations completes the elegant package.
