Crafting Labor Policy Indermit Singh Gill, Claudio Montenegro, Dörte Dömeland, 2002-01-01 Despite success in other areas of economic reform over the past ten years Argentina Brazil and Chile continue to face significant labour policy issues This volume contains a number of papers which discuss these regional issues with a focus on the period 1995 98 Many of the papers have been co authored by leading labour economists and are based on work sponsored by the World Bank The book also includes an introductory chapter which summarises labour market reforms in Latin America since the late 1980 s as well as a concluding chapter which analyses the main results and policy implications for the region Politics of Labor Reform in Latin America Maria Lorena Cook, 2010-11-01 *Labor Politics in Latin America* Paul W. Posner, Viviana Patroni, Jean François Mayer, 2018-08-14 Labor Politics in Latin America assesses the capacity of working class organizations to represent and advance working people s demands in an era in which capital has reasserted its power on a global scale The book s premise is that the longer term sustainability of development strategies for the region is largely connected to the capacity of working class organizations to secure a fairer distribution of the gains from growth *Job Creation in Latin America and the Caribbean* Carmen Pag s, Ga lle Le Borgne Pierre, Stefano Scarpetta, 2009-06-19 More than a decade has passed since the introduction of comprehensive macroeconomic stabilization packages and trade fiscal and financial market reforms in Latin America and the Caribbean However growth prospects remain disappointing labor markets show lackluster performance with low participation rates high and persistent informality and in some cases open unemployment Creating viable and lasting employment is vital to reduce poverty and spread prosperity in the region The failure to create more and more productive and rewarding jobs carries substantial political social and economic costs Job Creation in Latin America and the Caribbean Recent Trends and Policy Challenges provides a thorough examination of the labor market trends in the region in recent decades and assesses the role that labor demand and labor supply factors have played in shaping these outcomes

Skills for the 21st Century in Latin America and the Caribbean Cristian Aedo, Ian Walker, 2012-02-09 This report contributes to the debate about the quality of education and returns to education investment in Latin America and the Caribbean It aims to improve our understanding of the links from investment in education and training to labor market outcomes and provide a basis for policy choices that will strengthen future outcomes *Keeping the Promise of Social Security in Latin America* Indermit S. Gill, Truman G. Packard, Juan Yermo, 2004-10-25 Empirical analysis of two decades of pioneering pension and social security reform in Latin America and the Caribbean shows that much has been achieved but that critical challenges remain In tackling this unfinished agenda a great deal can be learned from the reform experience of countries in the region Keeping the Promise produced by the chief economist s office for the Latin America and Caribbean region at the World Bank evaluates policy reforms in 12 countries points to successes and shortcomings and proposes priorities and options for future reform **A Guide to the World Bank** , 2003 The World Bank Group works in more than

100 developing economies and is one of the world's largest sources of development assistance. In 2002 the institution provided US\$19.5 billion in loans to its client countries. Household Risk Management and Social Protection in Chile, 2005. This publication examines whether a social protection system, broadly defined to include policy interventions, public institutions and the regulation of private institutions to address welfare costs of problems such as job loss and extended unemployment, health episodes, old age and life-time poverty, exists in Chile or whether it has a set of loosely coordinated programmes instead. It assesses whether households are provided with appropriate tools to mitigate risks to their income, identifies gaps in coverage and sets out guidelines grounded in a conceptual framework designed to increase the effectiveness of social protection.
