**Media Power** David L. Altheide, 1985 Altheide deals with a very simple paradox in the past people communicated in order to get something done now they must first do something in order to communicate The role of the mass media in establishing shaping and maintaining basic communication formats is the main focus of his book He looks at how mass mediated versions of events differ from those experienced first hand and at what would happen if everyone had unlimited access to television broadcasting facilities Using specific examples and case studies of current events Altheide examines the impact and implications of the mass media on a range of phenomena from international relations down to self concept This book is an important complement to that whol **The National Rifle Association and the Media** Brian Anse Patrick, 2013-10-25 Were it not for the negative coverage that it receives from elite American news organizations the National Rifle Association and American gun culture as a whole would not be in the position of strength they enjoy today The more negative coverage the elite media have dished out the more people have been attracted to NRA and gun culture Brian Anse Patrick presents the evidence for this startling case As an analysis of the data unmistakably shows not only are the elite media systematically biased against NRA they have indeed inadvertently helped to mobilize American gun culture making it one of the most successful social movements of modern times In the new edition of this groundbreaking study with a new Foreword by the author Prof Patrick makes his case The evidence is incontrovertible and based on scientific content analysis of ten years of actual NRA coverage in many elite news publications compared and contrasted with similar coverage of other major American social movements Additionally Prof Patrick presents an innovative model for how information is disseminated from top to bottom in the mainstream media which he terms administrative democracy and suggests how groups like the NRA flourish in part because of the increasing availability of non centralized social media which allow dissenters from the prevailing media paradigm to construct their own narratives with which to understand society and their place within it Written in a lucid and penetrating style this book should be of interest to readers on either side of the gun rights debate as well as to those wishing to study the workings of a successful citizens advocacy network **Information Overload in the**
