Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media

Goddess characters are revered as feminist heroes in the popular media of many cultures However these goddess characters often prove to be less promising and more regressive than most people initially perceive Goddesses in film television and fiction project worldviews and messages that reflect mostly patriarchal culture included essentialized gender assumptions in contrast to the feminist empowering levels many fans and critics observe Building on critiques of other skeptical scholars this feminist folkloristic approach deepens how our remythologizing of the ancient past reflects a contemporary worldview and rhetoric Structures of contemporary goddess myths often fit typical extremes as either vilified destructive dark and chaotic typical in film or television or romanticized positive even utopian typical in women s speculative fiction This goddess spectrum persistently essentializes gender stereotyping women as emotional intuitive sexual motherly beings good or bad precluded from complex potential and fuller natures Within apparent good over evil pop culture narrative frames these goddesses all suffer significantly However a few recent intersectional writers like N K Jemisin break through these dark reflections of contemporary power dynamics to offer complex characters who evince hopepunk They resist typical simplified reductionist absolutes to offer messages that resonate with potential for today s world Mythic narratives featuring goddesses often do but need not serve merely as ideological mirrors of our culture s still problematically reductionist approach to women and all humanity
