Haydn's Creation is one of the great masterpieces of the classical period. This absorbing and original account of the work provides an indispensable guide for the concertgoer, performer and student alike. The author places the work within the oratorio tradition and contrasts the theological and literary character of the English libretto with the Viennese milieu of the first performances. The complete text is provided in both German and English versions as a useful reference point for discussion of the design of the work, the musical treatment of the words, including questions of Haydn's pictorialism and a detailed examination of the different movement types employed. The book also contains a brief history of the reception of the work with appendices of notes on the changing performance traditions and selected extracts from critical accounts from the nineteenth and twentieth centuries. Follies, Orchestrations by Jonathan Tunick, Part 2 Stephen Sondheim, Jonathan Tunick. This edition presents Jonathan Tunick's orchestrations of Stephen Sondheim's musical *Follies* in full score. *Follies* is set in 1971, the year of its creation, at a reunion of the fictional Weismann *Follies* on the eve of their theater's destruction. This scenario gives Sondheim, who wrote both music and lyrics, the opportunity to create what amounts to two interlocking scores. One explores the thoughts and interactions of the guests, the music often revealing the lies behind their words. The other, recalling the *Follies* performances of decades earlier, allows Sondheim to evoke the words and music of Irving Berlin, Cole Porter and many other popular songwriters from the interwar period. The show culminates in a series of fantasy productions.
