Creative Characters Elisabeth Young-Bruehl, 2025-09-01 The study of creativity is as old as western thought In recent times any crisis of confidence is likely to involve anxiety about the loss of creativity scientific artistic technological and to set off a new search for creativity's definition In *Creative Characters* originally published in 1991 Elisabeth Young Bruehl reflects on the long search for an understanding of creativity and offers a novel approach She notes that studies of creativity fall into types Some look at the act of creation others focus on the creators while others stress the conscious or unconscious motivations of creative people All these approaches share certain limitations They lack an integrative perspective and they search for a common denominator one definition of the creative process a single creative type which obscures the diversity of creative people and their work Young Bruehl here offers an original analysis of creativity based on a theory of character Creative people she argues create in the medium of their characters They develop usually unconsciously an image of their characters or in other terms an ideal for the organization of their minds and lives which they both aspire to and project into whatever they create This character ideal appears in their works their social visions their philosophies of nature and also their understandings of creative processes their own and others What creative people wish for themselves is what they wish for in their lives and works Young Bruehl suggests that there are three broad character and creative types each comprised of many variations She displays these ways of getting one's psychic act together or getting a product together by turning to three ancient Greek theorists of creativity Plato Aristotle and Zeno and three modern theorists Nietzsche Freud and Proust She then proceeds by clustering biographical vignettes and portraits of ideas in which she can show rather than try to define the creativity as well as the character ideal she has in mind Of special interest to Young Bruehl is what individuals say about their own creativity especially when creativity is not explicitly their topic Her approach is primarily psychoanalytic but she also uses philosophical analysis literary criticism history of science and biography Psychoanalysts and psychologists will find the book not only a new approach to creativity but a new way of doing applied psychoanalysis there have been many psychobiographies but no effort has been made to survey them and draw conclusions Philosophers will discover a major contribution to the theory of character one of the most neglected subfields of philosophy Finally in *Creative Characters* biography readers will see how the study of individual lives can lead to reflection on larger questions

The Construction of Character: A Wait, Wait, Don't Query (Yet!)

Book Elena Hartwell, 2023-08-22 All genres including fiction, memoir, and other narrative nonfiction engage with individuals who drive the plot. *The Construction of Character* analyzes what makes a strong, complex character and how to strengthen works in progress or start something new. It also describes how to create engaging dialogue and avoid common missteps in making a fictional character feel real or a real person's story feel flat. Readers don't remember every plot point, but they do remember how characters make them feel. This guide will help any writer reach their publishing goals.
