Basic Concepts Of Criminal Law:

Basic Concepts of Criminal Law George P. Fletcher, 1998-09-03 In the United States today criminal justice can vary from state to state as various states alter the Modern Penal Code to suit their own local preferences and concerns In Eastern Europe the post Communist countries are quickly adopting new criminal codes to reflect their specific national concerns as they gain autonomy from what was once a centralized Soviet policy As commonalities among countries and states disintegrate how are we to view the basic concepts of criminal law as a whole Eminent legal scholar George Fletcher acknowledges that criminal law is becoming increasingly localized with every country and state adopting their own conception of punishable behavior determining their own definitions of offenses Yet by taking a step back from the details and linguistic variations of the criminal codes Fletcher is able to perceive an underlying unity among diverse systems of criminal justice Challenging common assumptions he discovers a unity that emerges not on the surface of statutory rules and case law but in the underlying debates that inform them *Basic Concepts of Criminal Law* identifies a set of twelve distinctions that shape and guide the controversies that inevitably break out in every system of criminal justice Devoting a chapter to each of these twelve concepts Fletcher maps out what he considers to be the deep structure of all systems of criminal law Understanding these distinctions will not only enable students to appreciate the universal fundamental ideas of criminal law but will enable them to understand the significance of local details and variations This accessible illustration of the unity of diverse systems of criminal justice will provoke and inform students and scholars of law and the philosophy of law as well as lawyers seeking a better understanding of the law they practice

Basic Concepts of Criminal Law George P. Fletcher, 1998-10-08 In this text Fletcher maintains that there is much greater unity among diverse systems of criminal justice than commonly realized and that any adequate system of criminal law must address a set of universal basic issues

Core Concepts in Criminal Law and Criminal Justice: Volume 2 Kai Ambos, Antony Duff, Alexander Heinze, Julian Roberts, Thomas Weigend, 2022-02-17 The trans jurisdictional discourse on criminal justice is often hampered by mutual misunderstandings The translation of legal concepts from English into other languages and vice versa is subject to ambiguity and potential error the same term may assume different meanings in different legal contexts More importantly legal systems may choose differing theoretical or policy approaches to resolving the same issues which sometimes but not always lead to similar outcomes This book is the second volume of a series in which eminent scholars from German speaking and Anglo American jurisdictions work together on comparative essays that explore foundational concepts of criminal law and procedure Each topic is illuminated from German and Anglo American perspectives and differences and similarities are analysed

The Teaching of Criminal Law Kris Gledhill, Ben Livings, 2016-08-19. The Teaching of Criminal Law provides the first considered discussion of the pedagogy that should inform the teaching of criminal law. It originates from a survey of criminal law courses in different parts of the English speaking world which showed significant similarity across countries and over time. It also showed that many aspects of substantive law are neglected. This prompted the question of whether any real consideration had been given to criminal law course design. This book seeks to provide a critical mass of thought on how to secure an understanding of substantive criminal law by examining the course content that best illustrates the thought process of a criminal lawyer by presenting innovative approaches for securing active learning by students and by demonstrating how criminal law can secure other worthwhile graduate attributes by introducing wider contexts. This edited collection brings together contributions from academic teachers of criminal law from Australia, New Zealand, the United Kingdom and Ireland who have considered issues of course design and often implemented them. Together they examine several innovative approaches to the teaching of criminal law that have been adopted in a number of law schools around the world both in teaching methodology and substantive content. The authors offer numerous suggestions for the design of a criminal law course that will ensure students gain useful insights into criminal law and its role in society. This book helps fill the gap in research into criminal law pedagogy and demonstrates that there are alternative ways of delivering this core part of the law degree. As such, this book will be of key interest to researchers, academics and lecturers in the fields of criminal law pedagogy and teaching methods.

Criminal Law at a Time of Change Vadim Khilyuta, 2024-10-12. The book examines the main problems of criminal law of post-Soviet states through the prism of global institutional transformations in politics and economy, development of new information relations and stagnation of society. The main features and ways of impact of criminal law on social relations are revealed where criminal law is given a new global function ensuring security. For this reason, attention is focused on the essence of crime and criminal law impact. Modern mechanisms of instrumentalisation of criminal law are shown by means of changing the philosophical bases of legal research, projecting science on global problems of implementation of unified standards, expanding the boundaries of criminal law, shifting the emphasis from the institution of punishment to measures of criminal legal impact, moving away from material constructions in the concept of crime and developing its formal attributes with the prospect of introducing the institution of criminal law.
