approaches to religious identifications in late antique 3rd-12th century Egyptian papyri bridging the gap between two academic fields that have been infrequently in full conversation: papyrology and the study of religion. Through eleven in-depth case studies of Christian, Islamic, pagan, Jewish, Manichaean, and Hermetic texts and objects, this book offers new interpretations on markers of religious identity in papyrus documents written in Coptic, Greek, Hebrew, Aramaic, and Arabic. Using papyri as a window into the lives of ordinary believers, it explores their religious behavior and choices in everyday life. Three valuable perspectives are outlined and explored in these documents: a critical reflection on the concept of identity and the role of religious groups; a situational reading of religious repertoire and symbols; and a focus on speech acts as performative and efficacious utterances. *Religious Identifications in Late Antique Papyri* offers a wide scope and comparative approach to this topic, suitable for students and scholars of late antiquity and Egypt, as well as those interested in late antique religion. The Greek Words in Persius' Literary Programme Spyridon Tzounakas, 2024-09-02 This book demonstrates that the carefully chosen Greek words in Persius programmatic passages play a significant role in the context of his literary criticism they allow him to express his objection to the Graecizing poetic compositions of his day more convincingly while facilitating intertextual dialogues with many writers Greek words that occur

in programmatic passages throw into relief various pathologies of poetry which Persius disapproves of and which contribute effectively to a justification of his rejection. However, this practice which does not continue into the rest of his work where Greek words are incorporated into the satirist's thought more harmoniously appears to serve specific expediencies and should not be considered characteristic of Persius' attitude towards Greek culture in general. Besides the satiric persona adopts a positive stance regarding Greek philosophy or comedy and criticizes the ignorant critics of Greek culture while many aspects of Greek thought enrich his own poetry in several passages. Thus, despite the intensity with which he turns against the Graecizing compositions of his day, generalizations regarding an anti-Hellenic stance on Persius' part should be deemed unfounded.

Macedonia and Greece John Shea, 2016-03-18 With the breakup of the former Yugoslavia and a pending NATO membership bid, an old conflict between Greece and Macedonia has taken on added significance for the international community. Greece has vehemently argued, particularly in the West, that the name Macedonia was in fact Greek and that its use by this new nation in the Balkans portended Macedonia's expansionist ambitions. The Macedonians bitterly disputed this, noting that Alexander the Great was a Macedonian and adducing many other fascinating and rational arguments. Tensions were said to have been reduced by an interim agreement between the two countries, but the attempted assassination of Macedonian president Kiro Gligorov in October 1995 has again heightened hostility in the area. The genesis of the conflict is detailed here, as well as the modern-day events that have led many observers to believe that the area is a flashpoint for a major war greater than that in Bosnia.
