Essential Interviewing Skills for the Helping Professions

Nicole Nicotera, 2018 *Essential Interviewing Skills for the Helping Professions* reaches beyond most other essential skills for clinical interviewing books with its emphasis on social justice attention to the role of microaggressions in clinical practice and the utmost importance of practitioner wellness as integral to longevity in the helping professions. Each chapter addresses interviewing skills that are foundational to the helping professions from mental health to physical health includes detailed exercises addresses social justice and discusses practitioner wellness opportunities. Sometimes clients' stories are fraught with trauma other times their stories are bound within generations of substance addiction or family violence while other clinical stories present personal and social obstacles that arise from years of oppression at the hands of prejudice and discrimination. This book therefore goes beyond the basic ideas of choosing when to use an open question or to reflect emotions by covering how to integrate social justice and knowledge of power privilege and oppression into the interviewing arena. Essential interviewing skills require the practitioner to not only purposefully listen to the client's story but also to be self-aware and willing to acknowledge mistakes and learn from them. The work of the clinical interviewer is a continuous challenge of balancing listening responding action and self-awareness and this book is designed to help.

Interviewing and Helping Skills for Health Professionals L. Sherilyn Cormier, William H. Cormier, Roland J. Weisser, 1986

Essential Interviewing and Counseling Skills Tracy A. Prout, Melanie J. Wadkins, 2014-03-27 This is the

only comprehensive text to focus on the development of practical interviewing and counseling skills for master's level mental health counseling students. It is structured around the goals established by the CACREP's 2009 document on standards for MHC programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies. The benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout. The book's hands-on guidance regarding interviewing and counseling skills along with its embrace of different therapeutic modalities will enable students to learn how to provide care to clients that is tailored to their specific needs. Each chapter includes a highlighted section that draws students' attention to topics related to diversity and strategies for working with clients from a variety of populations. Issues related to race, ethnicity, immigration, and country of origin are highlighted along with age, gender, sexual orientation, religion, language, and physical and cognitive abilities. The use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room. The book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced-based practice, assessment, and diagnosis, and when and how to terminate treatment. An instructor's guide and PowerPoint slides are also included.

Key Features: Provides a balanced, integrated theoretical and practical approach to interviewing and counseling with a focus on skills development. Teaches the fundamental skills of empathy, active listening, treatment planning, and developing a strong therapeutic alliance. Includes Spotlight on Culture sections with case studies to emphasize how diversity informs sensitive and effective psychotherapy. Provides exercises to help students discover their own blind spots in regard to diversity. Offers a realistic window into the profession through numerous case examples.
