Basic Phonics 1 :

Phonics for Pupils with Special Educational Needs Book 1: Building Basics Ann Sullivan, 2018-10-12 Phonics for Pupils with Special Educational Needs is a complete structured multisensory programme for teaching reading and spelling making it fun and accessible for all. This fantastic seven part resource offers a refreshingly simple approach to the teaching of phonics alongside activities to develop auditory and visual perceptual skills. Specifically designed to meet the needs of pupils of any age with special educational needs, the books break down phonics into manageable core elements and provide a huge wealth of resources to support teachers in teaching reading and spelling. Book 1 Building Basics introduces basic sounds and explores their relationship with letters. It focuses on sounds and letters where there is a simple 1:1 correspondence between the two and explores the sounds in simple words that follow the pattern of vowel consonant or consonant vowel consonant. Sounds are grouped into seven sets with each set containing more than 50 engaging activities including sound story, dynamic blending, reading race, spot the word and spelling challenge. Thorough guidance is provided on how to deliver each activity as well as a lesson planner template, handy word lists and posters for teachers and teaching assistants to use to support learning. Each book in the series gradually builds on children's understanding of sounds and letters and provides scaffolded support for children to learn about every sound in the English language. Offering tried and tested material which can be photocopied for each use, this is an invaluable resource to simplify phonics teaching for teachers and teaching assistants and provide fun new ways of learning phonics for all children. This book is accompanied by a companion resource Phonics for Pupils with Complex SEND to be used alongside the Phonics for Pupils with Special Educational Needs programme. The activities from Books 1-6 of the programme are adapted to be accessible for non-verbal pupils including AAC users and those with physical disabilities. *Phonics, Phonemic Awareness, and Word Recognition Activities* Brenda Calabretta, 1997-10 A handbook for teachers for helping children learn to read and write with the phonics approach. How to End the Reading War and Serve the Literacy Needs of All Students P. L. Thomas, 2022-08-01 The twenty first century Reading War is in fact nothing new but

some of the details are unique to our current culture driven by social media This volume seeks to examine the current Reading War in the context of the historical recurrence of public and political debates around student reading abilities and achievement Grounded in a media fascination with the science of reading and fueled by a rise in advocates for students with dyslexia the current Reading War has resulted in some deeply troubling reading policy grade retention and intensive phonics programs This primer for parents policy makers and people who care confronts some of the most compelling but misunderstood aspects of teaching reading in the U S while also offering a way toward ending the Reading War in order to serve all students regardless of their needs The revised expanded 2nd edition adds developments around the science of reading including the expanding impact on state policy and legislation as well as robust additions to the research base around teaching students to read
