Basic Sociology Teevan:

Canadiana, 1991 *Aboriginal Voices and the Politics of Representation in Canadian Introductory Sociology Textbooks*
John Steckley, 2003 The philosophical underpinnings of this textbook make it a most interesting read for scholars of
Aboriginal Studies the social sciences humanities and cultural studies and humanistic curriculum development John Steckley
s familiarity with and respect for the epistemology of the Huron Mohawk and Ojibwa peoples enlightens and enables his
research In this book he provides a critical framework for assessing Aboriginal content in introductory sociology textbooks
He defines what is missing from the seventy seven texts included in his study of the manifestation of cultural hegemony in
Canadian sociology textbooks This critique is suitable for students and professors of sociology as Dr Steckley addresses the
impact of the ellipses from the textbooks they have traditionally used **Identity and Belonging** B. Singh Bolaria, Sean
Patrick Hier, 2006 As Canada s ethno racial composition becomes more complex critical understandings of race ethnicity
identity and belonging are increasingly important goals for social justice fairness and inclusion This edition addresses these
concerns Married Women and Property Law in Victorian Ontario Anne Lorene Chambers, Osgoode Society for Canadian
Legal History, 1997-01-01 A meticulously researched and revisionist study of the nineteenth century Ontario s Married
Women s Property Acts They were important landmarks in the legal emancipation of women **Social Work Treatment**
4th Edition Francis J. Turner, 1996-09-01 **Social Work Treatment** Francis J. Turner, 2011-03-15 First published in 1974
Social Work Treatment remains the most popular and trusted compendium of theories available to social work students and
practitioners It explores the full range of theoretical approaches that drive social work treatment and knowledge
development from psychoanalysis to crisis intervention This treasure trove of practice knowledge equips professionals with a
broad array of theoretical approaches each of which shine a spotlight on a different aspect of the human condition
Emphasizing the importance of a broad based theoretical approach to practice it helps the reader avoid the pitfalls of
becoming overly identified with a narrow focus that limits their understanding of clients and their contexts This sweeping
overview of the field untangles the increasingly complex problems ideologies and value sets that define contemporary social
work practice The result is an essential A to Z reference that charts the full range of theoretical approaches available to
social workers regardless of their setting or specialty Perspectives on Racism and the Human Services Sector Carl E.
James, 1996-01-01 Today s social services agencies are faced with the challenge of responding to the diverse needs and
expectations of a growing multicultural population This volume examines race and racism in Canada from historical and
contemporary perspectives and explores the extent to which these factors operate within social services systems related to
immigration settlement the justice system health and education The contributors including practitioners educators and policy
makers argue for specific changes in current approaches to service delivery and provide practical suggestions for services
that make it possible for various communities to be served more effectively The collection also proposes an anti racism

approach to service provision to produce a system that is beneficial to all Canadians particularly Aboriginals and racial and ethnic minorities **Seeing Ourselves** Carl E. James,1995 Baptists and Business Paul R. Wilson,2025-05-08 This study of Baptist businessmen from Jarvis Street Baptist Church in Toronto breaks new ground The challenges to faith exerted by the arrival of a new materialistic social ethic and a business dominated culture in the last half of the nineteenth and early twentieth centuries has received little attention from Canadian historians Instead historians have primarily focused on religious leaders and intellectual challenges to faith This study examines the sociocultural challenges that confronted one group of central Canadian Baptist businessmen from 1848 to 1921 Essentially the findings offered here are used to sustain the argument that the rise of business and consumerism helped to secularize the beliefs values and practices of Baptist businessmen Furthermore the effects of secularization were profound on both the personal and church community levels

Sense: Paul M. Roddick,2010-05-14 Have you ever wondered where religion is concerned what you really believe In FAITH REASON COMMON SENSE the interdependence of religion and culture is examined with care and insight Readers with strong religious convictions may be surprised to discover that the history of religion every religion is both a chronicle of heresy and a reconfiguration of belief In his examination of the relationship between Faith and Reason the author rejects the familiar premise that a life guided by one must exclude the other Although he stresses the importance of examining the faith of our fathers he is respectful of those who in a world dominated by science find guidance and reassurance in their religion Far ranging and insightful drawing on a wealth of sources and opinions there is something for everyone in this challenging and though provoking study **Capitalism and Classical Sociological Theory** John Bratton,David Denham,Linda

Deutschmann,Linda Bell Deutschmann,2009-01-01 This is one of the sharpest and most rewarding textbooks for teaching classical social theory The emphasis on depth over breadth pays off handsomely providing students with a badly needed foundation in the classics of sociology Philip Walsh York University **Introduction to Sociology, a Canadian Focus, Fourth Edition, Basic Sociology, Canadian Introduction, Fourth Edition, Edited by James J. Teevan. Instructor's Manual and Test Item File** Stoddart, Kenneth,1992 **Sociology of Homosexuality** Wayne R.
