Garner, 2016 The authority on grammar usage

and style Macaronic Sermons Siegfried Wenzel,1994-09-07 Siegfried Wenzel's groundbreaking study seeks to describe and analyze the linguistically mixed or macaronic sermons in late fourteenth century England. Not only are these works of considerable religious interest; they provide extensive information on their literary, linguistic, and cultural milieus. *Macaronic Sermons* begins by offering a typology of such works: those in which English words offer glosses or offer structural functions or offer neither of the two but yet are syntactically integrated. This last group is then examined in detail; reasons are given for this usage and for its origins based on the realities of fourteenth century England. Siegfried Wenzel draws valuable conclusions about the linguistic status quo of the era together with the extent of education, the audience's expectations, and the ways in which the authors' minds worked. Obviously of interest to scholars and students of early English literature, *Macaronic Sermons* also contains much valuable information for specialists in language development or oral theory and for those interested in multicultural societies.

Brinton,2000 This text is designed for undergraduate and graduate students interested in contemporary English, especially those whose primary area of interest is English as a second language. Focus is placed exclusively on English data, providing an empirical explication of the structure of the language.
