Canadian Basic Marketing McCarthy, *Marketing Canada's Energy* Ian McDougall, 1983-01-01. Written in the early 1980s, author I. A. McDougall shows that as an import-dependent country, Canada was ill-prepared for possible disruptions in its oil supply. McDougall envisioned a future in which superpower rivalry over dwindling world reserves, coupled with rationing of supply by OPEC members and volatility in the Persian Gulf, would make Canada's dependence on foreign oil increasingly precarious. He asserted that the contemporary Liberal government's National Energy Program was a useful first step in promoting an independent energy strategy. *Marketing Canada's Energy* is a passionate addition to the lively debate over Canada's independence during the 1980s.

The Industrial Geography of Canada Anthony Blackbourn, Robert G. Putnam, 2025-10-01. First published in 1984, *The Industrial Geography of Canada* provides a comprehensive overview of the Canadian industry. It introduces Canada's physical and human resources, describes the settlement pattern, and charts the development of industry from 1945. The main characteristics of each province's industry are outlined in detail: the poor, remote Atlantic provinces where attracting industry is a major problem; Quebec, where the distinct French Canadian culture poses problems; the American domination of Ontario; the resource boom of Alberta; and

the developing resource based industries of British Columbia and the North The book concludes with an examination of the prospects for successful national development goals in a country where regionalism is so strong The Industrial Geography of Canada is a valuable text for all geographers with a particular interest in Canada **Canada's Labour Market Training System**

Bob Barnetson,2018 How does the current labour market training system function and whose interests does it serve In this introductory textbook Bob Barnetson wades into the debate between workers and employers and governments and economists to investigate the ways in which labour power is produced and reproduced in Canadian society After sifting through the facts and interpretations of social scientists and government policymakers Barnetson interrogates the training system through analysis of the political and economic forces that constitute modern Canada This book not only provides students of Canada s division of labour with a general introduction to the main facets of labour market training including skills development post secondary and community education and workplace training but also encourages students to think critically about the relationship between training systems and the ideologies that support them Encyclopedia of Sports

Management and Marketing Linda E. Swayne,Mark Dodds,2011-08-08 The first reference resource to bring both sports management and sports marketing all together in one place **Readings in Canadian Real Estate**

Gavin Arbuckle, Henry Bartel,2004 **Labor Market Policies in Canada and Latin America: Challenges of the New Millennium** R. Albert Berry,2013-03-14 Canada and the countries of Latin America are in the midst of major changes and choices in the area of labor markets and related social policy These decisions are likely to have profound consequences for the quality of life of workers throughout the hemisphere Labor Market Policies in Canada and Latin America Challenges of the New Millennium reviews the evidence of Canada and Latin America on three major labor policy instruments unemployment insurance minimum wages and training and on the effects of the payroll taxes which are the main means of funding the unemployment insurance system and other components of social expenditure This is the first study attempting an in depth comparison of these labor policy instruments between Canada and Latin America The useful juxtaposition of Canadian and Latin American experiences comes at a time when the trend in Canada is to back away from the perhaps overly generous or ineffectively administered elements of the labor legislation social security net and when Latin American countries have undertaken significant reforms of their past systems but require further changes to move toward the sorts of legislation and support systems that characterize developed countries The experiences of Canada and Latin America are mutually relevant since all are small economies forced to adjust to events at the world or hemispheric level and most are inclined to approach policy in an intermediate fashion which falls between the more market oriented American and the more interventionist European models Together with its comparative aspect this volume attempts a more balanced and in depth assessment in each of the policy areas than has hitherto been available The gradually increasing base of available empirical data on the period after the reforms has been used in the studies which provide thorough syntheses of the available research for Canada and Latin
