Basic Psychiatry For Corrections Workers:

Basic Psychiatry for Corrections Workers Henry L. Hartman, 1978 Correctional Assessment, Casework, and Counseling Anthony Walsh, Jessica Wells, Shaun M. Gann, 2020-11-11 This book combines the latest in sociology psychology and biology to present evidence based research on what works in community and institutional corrections It spans from the theoretical underpinning of correctional counseling to concrete examples and tools necessary for professionals in the field This book equips readers with the ability to understand what we should do why we should do it and tools for how to do it in the field It discusses interviewing interrogating and theories of directive and nondirective counseling including group counseling It discusses the strengths and weaknesses of various correctional approaches such as cognitive behavioral therapies group counseling and therapeutic communities It introduces ethical and legal considerations for correctional professionals With an explanation of the presentence investigation report case management and appendices containing a variety of classification and assessment instruments this volume provides practical hands on experience Students of criminal justice psychology and social work will gain an understanding of the unique challenges to correctional success and practical applications of their studies This book is a teacher student practitioner s dream Grounded in theory and evidence based research on best practices it is accessible well written filled with sound insights and tools for working with criminal justice clients I have used and loved each new edition of this fine text Dorothy S McClellan Texas A M University Corpus Christi

Handbook of Correctional Mental Health Charles L. Scott, 2009-10-06 Clinicians who work on the frontlines of correctional mental health know that the challenges are only increasing Not only is the proportion of inmates with mental disorders growing at a rate that exceeds that of the correctional population as a whole but this group is expanding at both ends of the aging continuum so that increasing numbers of both geriatric and juvenile offenders require assessment and treatment Changing patient demographics and evolving treatment modalities make it essential that psychiatrists psychologists social workers nurses and other professionals who serve the prison population have access to the most practical up to date and comprehensive resource Handbook of Correctional Mental Health now in an expanded second edition is that resource This book addresses key concepts to ensure that the reader meets the current standard of care for inmates through all phases of the criminal justice system In 20 state of the art chapters nationally recognized providers and correctional mental health experts address the most pressing issues facing clinicians Unique to this edition the Handbook Summarizes the literature regarding unique populations observed in a correctional environment thereby assisting the provider in tailoring treatment to various target populations Provides a clear overview of both malpractice law and the concept of deliberate indifference that aids the reader in understanding the legal requirements for providing care and minimizing risks of lawsuits Educates clinicians on how to differentiate feigned versus legitimate mental health symptoms and how to understand and interpret inmate motivations for psychiatric malingering Discusses important administrative

aspects regarding documentation issues quality assurance and practicing under a consent decree Provides useful tables throughout the text with key summary points emphasized Includes five new clinically focused chapters on the assessment and treatment of inmates with substance use disorders geriatric offenders juvenile offenders inmates with self injurious behaviors offenders who have experienced various traumas during their lives and inmates housed on maximum security units and death row Other titles in the field are either out of date or limited in scope By contrast this new edition of Handbook of Correctional Mental Health includes everything mental health professionals need to provide the highest standard of care to this growing and complex patient population

Correctional Mental Health Handbook Thomas J Fagan, Robert K Ax, 2003 The number of criminal offenders with mental health problems has increased steadily Yet few graduate programs offer courses that deal with the many complex assessment treatment and management issues encountered by correctional mental health workers The Correctional Mental Health Handbook is the first book to offer a comprehensive overview of the services provided by correctional mental health professionals for the various populations found in correctional programs and facilities Edited by Thomas J Fagan and Robert K Ax experts with over 40 years of correctional mental health experience this unique handbook is divided into three sections The first section provides a flexible model for organizing mental health services based on staffing levels facility mission and local need The second section considers typical offender problems in many correctional systems and how they are customarily managed The third section presents various clinical and consultative activities offered by mental health professionals within correctional settings A distinguished group of practitioners and scholars combine years of experience and cutting edge research to examine The ethics of correctional mental health practice Practitioner roles within the correctional community Core mental health services for both single offenders and special need groups Program planning and release preparation for inmates Mental health services offered to institution staff Training hostage and crisis negotiators Future trends in correctional mental health While the main audience will be correctional mental health professionals and academics involved with training correctional mental health professionals the Correctional Mental Health Handbook is also an ideal primer for graduate students studying corrections in criminal justice programs For the student preparing to enter the correctional mental health profession this indispensable text explains the general characteristics and treatment needs of specific inmate populations including substance dependent offenders female offenders sexual predators and juvenile offenders

Psychotherapy in Corrections Peter N. Novalis, M.D., Ph.D., Virginia Singer, DNP, Carol M. Novalis, M.A., 2022-09-13 To practice psychotherapy in a correctional setting is to encounter a range of cultural issues reflecting the various ethnic class gender and physical subgroups of the prison population as well as to navigate the culture of the prison staff and justice system that underpins the patients circumstances Drawing on the authors extensive professional experience Psychotherapy in Corrections offers mental health professionals a comprehensive look at the most common situations they are likely to face and provides practical advice on dealing with them Diagnostically oriented chapters cover core issues that include self harm and substance use disorders as

well as mood and personality disorders Specific supportive therapy techniques for addressing these issues as well as special situations including the experience of women in prison behaviors that can disrupt care and efforts to reduce recidivism are illustrated by clinical vignettes In tackling the social and developmental conditions that lead individuals to interact with the correctional system Psychotherapy in Corrections also acknowledges the effects of the COVID 19 pandemic and the movement for social justice in society Anyone who conducts psychotherapy in a prison setting will benefit from an approach centered on treating the human in front of them regardless of the setting or their crime

SNI Documents National Criminal Justice Reference Service (U.S.),1978 *Ethical Issues in Prison Psychiatry* Norbert Konrad,Birgit Völlm,David N. Weisstub,2013-08-23 Recent surveys demonstrate a high and possibly increasing prevalence of mental disorders in prisoners They have an increased risk of suffering from a mental disorder that transcends countries and diagnoses Ethical dilemmas in prison psychiatry arise from resource allocation and include issues of patient choice and autonomy in an inherently coercive environment Ethical conflicts may arise from the dual role of forensic psychiatrists giving raise to tensions between patient care protection of the public This book describes models and ethical issues of psychiatric healthcare in prison in several countries Relevant issues are the professional medical role of a psychiatrist and or psychotherapist working in prison the involvement of psychiatrists in disciplinary or coercive measures consent to treatment the use of coercion in forcing a prisoner to undergo treatment hunger strike confidentiality The book ends with consensus guidelines concerning good practice in Prison Psychiatry
