Social Determinants of Health, Fourth Edition Dennis Raphael, 2025-01-06 Now in its fourth edition Dennis Raphael's *Social Determinants of Health* offers the definitive Canadian discussion of the primary factors that influence the health of Canada's population. This unique text on the social determinants of health contains contributions from top academics and high profile experts from across Canada. Taking a public policy approach, the contributors to this edited collection critically analyze the structural inequalities embedded in our society and the socio-economic factors that affect health including income, education, employment, housing, food security, gender, and race. This new edition includes recent statistics, new developments in early childhood education, and the implementation of Canada's national childcare system and new content on the social determinants of Indigenous Peoples' health. Particular attention is paid to how economic globalization and the acceptance of neoliberal governing ideology is shaping the health of Canadians. The COVID-19 epidemic vividly illustrated the importance of the social determinants of health as sickness and death rates were strikingly higher among Canadians in groups already experiencing adverse living and working conditions and poorer health: lower income Canadians, recent immigrants of colour, and those experiencing housing and food insecurity. If anything positive is to come out of this experience, it will be recognition that in the current post-COVID-19 environment, it is essential to understand the socio-economic conditions that shape the health of individuals and communities. *Social Determinants of Health, Fourth Edition* is aimed at courses focusing on the social determinants of health at Canadian universities and colleges, particularly those in health studies and nursing, but also allied health, sociology, and human services.

Introduction to Recreation and Leisure Human Kinetics (Organization), 2013 *Introduction to Recreation and Leisure, Second Edition* is a textbook designed for an initial undergraduate course in a recreation and leisure program. A new web resource is included.

Commissions of Inquiry and Policy Change Gregory J. Inwood, Carolyn M. Johns, 2014-01-01 This collection brings together leading Canadian scholars working in political science, public policy, and law to explore fundamental questions about the relationship between commissions of inquiry and public policy for the first time. What role do commissions play in policy change? Would policy change have happened without them? Why do some commissions result in policy changes while others do not?

Urban Geography in America, 1950-2000 Brian J.L. Berry, James Wheeler, 2014-05-01 *Urban Geography in America* offers a comprehensive historiography of this major field. Compiling the best essays from the flagship journal *Urban Geography*, it shows the evolution of the field from the 1950s to 2000 as it shifted from data-driven social science modeling in the 1960s to the more critical perspectives of the 1970s to postmodernism in the 1980s to feminism and globalization in the 1990s.
