## **Basketball Jones America Above The Rim:**

**Basketball Jones** Todd Boyd, Kenneth L. Shropshire, 2000-09 It began with Magic Bird and Dr J Then came Michael The Dream Team The WNBA And most recently Spree Latrell Sprewell American Dream or American Nightmare the embodiment of everything many believe is wrong and others believe is exciting about the game Today despite the NBA strike despite home run derbies despite football's headlock on network television ratings despite the much heralded return of baseball basketball has assumed a role in American culture and consciousness impossible to imagine 20 years ago when arenas were empty and the NBA finals were broadcast via tape delay in the wee hours So what happened How did a black sport plagued by drug scandal and decimated by white flight come to achieve such prominence What are the subtle and not so subtle racial codes that define how the game is played and perceived and the reception of its high profile stars What does the shift in popularity from the predominantly white working class ethos of baseball to the black urban ethos of basketball suggest about contemporary life in America What linkages exist between basketball and hip hop culture and how did these develop How has the arrival of women on the scene changed the equation Bringing together journalists cultural critics and academics this wide ranging anthology has something for everyone from hard core fan to casual observer Contributors Todd Boyd Kenneth L Shropshire Gerald Early James Peterson Susan J Rayl Davis W Houck Mark Conrad Charles J Ogletree Jr Earl Smith Sohail Daulatzi Larry Platt Tina Sloan Green Alpha Alexander Tara McPherson Aaron Baker *Midnight Basketball* Douglas Hartmann, 2016-07-29 Midnight basketball may not have been invented in Chicago but the City of Big Shoulders home of Michael Jordan and the Bulls is where it first came to national prominence And it's also where Douglas Hartmann first began to think seriously about the audacious notion that organizing young men to run around in the wee hours of the night all trying to throw a leather ball through a metal hoop could constitute meaningful social policy Organized in the 1980s and 90s by dozens of American cities late night basketball leagues were designed for social intervention risk reduction and crime prevention targeted at African American youth and young men In *Midnight Basketball* Hartmann traces the history of the program and the policy transformations of the period while exploring the racial ideologies cultural tensions and institutional realities that shaped the entire field of sports based social policy Drawing on extensive fieldwork the book also brings to life the actual on the ground practices of midnight basketball programs and the young men that the programs intended to serve In the process *Midnight Basketball* offers a more grounded and nuanced understanding of the intricate ways sports race and risk intersect and interact in urban America *American National Pastimes - A History* Mark Dyreson, Jaime Schultz, 2016-04-14 When the colonies that became the USA were still dominions of the British Empire they began to imagine their sporting pastimes as finer recreations than even those enjoyed in the motherland From the war of independence and the creation of the republic to the twenty first century sporting pastimes have served as essential ingredients in forging nationhood in American history This collection gathers the work of an all star team of historians of American sport in order to

explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports These wide ranging essays analyze the claims of particular sports to national pastime status from horse racing hunting and prize fighting in early American history to baseball basketball and football more than two centuries later These essays also investigate the legal political economic and culture patterns and the gender ethnic racial and class dynamics of national pastimes connecting sport to broader historical themes American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation This book was published as a special issue of the International Journal of the History of Sport

*Interdisciplinary Analyses of Professional Basketball* Till Neuhaus, Niklas Thomas, 2024-01-03 This edited collection conceptualizes professional basketball not just as a sport but as an historically culturally and economically embedded entity The chapters analyse the fact that the sport of basketball contains alternative logics that can easily clash and by treating professional basketball as the negotiation place of these multiple demands ideas and logics the editors have identified three areas in which these clashes manifest the realization of the game the cultural impact of professional basketball and the global outreach of professional basketball The book is explanatory and qualitative offering new perspectives and touching on topics including gender diversity racism and minority experiences within professional basketball As such it will be of interest to sport sociologists as well as those researching the history of sport sports marketing and cultural studies

**Double Crossover** Courtney M. Cox, 2025-04-22 As they compete in leagues around the world elite women s basketball players continually adjust to new cultures rules and contracts Courtney M Cox follows athletes coaches journalists and advocates of women s basketball as they pursue careers within the sport Despite all attempts to contain them or prevent forward momentum they circumvent expectations and open new possibilities within and outside of the game Throughout the book Cox explores the intersection of race and gender against the backdrop of the WNBA NCAA and other leagues within the United States and around the world Blending interviews and participant observation with content analysis she charts how athletes and advocates of women s hoops illuminate new forms of navigating the global sports media complex Timely and original **Double Crossover** takes readers into the lived world of women s basketball to shed light on the struggles triumphs and contributions of today s players and those around them

**Sporting Blackness** Samantha N. Sheppard, 2020-06-16 **Sporting Blackness** examines issues of race and representation in sports films exploring what it means to embody perform play out and contest blackness by representations of Black athletes on screen By presenting new critical terms Sheppard analyzes not only skin in the game or how racial representation shapes the genre s imagery but also skin in the genre or the formal consequences of blackness on the sport film genre s modes codes and conventions Through a rich interdisciplinary approach Sheppard argues that representations of Black sporting bodies contain critical muscle memories embodied kinesthetic and cinematic histories that go beyond a film s plot to index circulate and reproduce broader narratives about Black sporting and non sporting experiences in American society

**The Ethics of Sport** Arthur L. Caplan, Brendan

Parent,2017 Sports are more than just games They can unite countries start wars and revolutionize views on race class and gender Through works from philosophy sociology medicine and law this collection explores intersections of sports and ethics and identifies the immense role of sports in shaping and reflecting social values      **Lockstep and Dance** Linda G.

Tucker,2009-09-18 **Lockstep and Dance** Images of Black Men in Popular Culture examines popular culture s reliance on long standing stereotypes of black men as animalistic hypersexual dangerous criminals whose bodies dress actions attitudes and language both repel and attract white audiences Author Linda G Tucker studies this trope in the images of well known African American men in four cultural venues contemporary literature black focused films sports commentary and rap music Through rigorous analysis the book argues that American popular culture s representations of black men preserve racial hierarchies that imprison blacks both intellectually and physically Of equal importance are the ways in which black men battle against respond to and become implicated in the production and circulation of these images Tucker cites examples ranging from Michael Jordan s underwear commercials and the popular Barbershop movies to the career of rapper Tupac Shakur and John Edgar Wideman s memoir *Brothers and Keepers* **Lockstep and Dance** tracks the continuity between historical images of African American men the peculiar constitution of whites anxieties about black men and black men s tolerance of and resistance to the reproduction of such images The legacy of these stereotypes is still apparent in contemporary advertising film music and professional basketball **Lockstep and Dance** argues persuasively that these cultural images reinforce the idea of black men as prisoners of American justice and of their own minds but also shows how black men struggle against this imprisonment      **Soul Babies** Mark Anthony Neal,2013-02-01 In *Soul Babies* Mark Anthony Neal explains the complexities and contradictions of black life and culture after the end of the Civil Rights era He traces the emergence of what he calls a post soul aesthetic a transformation of values that marked a profound change in African American thought and experience Lively and provocative *Soul Babies* offers a valuable new way of thinking about black popular culture and the legacy of the sixties

*Frontline Bodies* Nicolas Martin-Breteau,2024-04-16 A captivating exploration of Black American civil rights activism through the lens of sport In *Frontline Bodies* Nicolas Martin Breteau argues that sports are not and have never been purely about entertainment for Black Americans Instead beginning in the 1890s during Reconstruction Black Americans proactively used athletics as a tactic to fight racial oppression Since the body was the primary target of anti Black racial oppression African Americans turned sports into a key medium in their struggles for dignity equality and justice Although Black photography and art also aimed at displaying the dignity of the Black body sports arguably had the greatest impact on American and international public opinion Martin Breteau considers the work of Edwin B Henderson a prominent Black physical educator civil rights activist and historian of Black sports Training Black children as athletes Henderson felt would work both to fortify racial pride and to dismantle racial prejudices two necessary requirements for a successful political liberation struggle In this way physical education became political education By the

end of World War II the tactic of racial uplift through sports had reached its peak of popularity only to subsequently lose its appeal among younger activists many of whom believed that the strategy was ineffective in fighting institutional racism and served mainly as an emulation of middle class white norms By the end of the twentieth century Martin Breteau argues racial uplift through sports had lost its emancipating power The emphasis on the accumulation of wealth for professional athletes as well as sports ability to reinforce anti Black stereotypes had become a political problem for true collective liberation For a marginalized group of people that has been physically excluded from the democratic process however sports remain a political resource By studying the relationship between athletics and politics Frontline Bodies renews the history of minority bodies and their power of action

**Out of the Shadows** David K. Wiggins,2008-02-01 The original essays in this comprehensive collection examine the lives and sports of famous and not so famous African American male and female athletes from the nineteenth century to today Here are twenty insightful biographies that furnish perspectives on the changing status of these athletes and how these changes mirrored the transformation of sports American society and civil rights legislation Some of the athletes discussed include Marshall Taylor bicycling William Henry Lewis football Jack Johnson Satchel Paige Jesse Owens Joe Lewis Alice Coachman track and field Althea Gibson tennis Wilma Rudolph Bill Russell Jim Brown Arthur Ashe Michael Jordan Tiger Woods and Venus and Serena Williams

**Sports in America from Colonial Times to the Twenty-First Century: An Encyclopedia** Steven A. Riess,2015-03-26 A unique new reference work this encyclopedia presents a social cultural and economic history of American sports from hunting bowling and skating in the sixteenth century to televised professional sports and the X Games today Nearly 400 articles examine historical and cultural aspects of leagues teams institutions major competitions the media and other related industries as well as legal and social issues economic factors ethnic and racial participation and the growth of institutions and venues Also included are biographical entries on notable individuals not just outstanding athletes but owners and promoters journalists and broadcasters and innovators of other kinds along with in depth entries on the history of major and minor sports from air racing and archery to wrestling and yachting A detailed chronology master bibliography and directory of institutions organizations and governing bodies plus more than 100 vintage and contemporary photographs round out the coverage

*Racial Spectacles* Jonathan Markovitz,2011-06-01 *Racial Spectacles* Explorations in Media Race and Justice examines the crucial role the media has played in circulating and shaping national dialogues about race through representations of crime and racialized violence Jonathan Markovitz argues that mass media racial spectacles often work to shore up racist stereotypes but that they also provide opportunities to challenge prevalent conceptions of race and can be seized upon as vehicles for social protest This book explores a series of mass media spectacles revolving around the news prime time television Hollywood cinema and the internet that have either relied upon reconfigured or helped to construct collective memories of race crime and in justice The case studies explored include the Scottsboro interracial rape case of the 1930s the

Kobe Bryant rape case the Los Angeles Police Department's Rampart scandal the Abu Ghraib photographs and a series of racist incidents at the University of California This book will prove to be important not only for courses on race and media but also for any reader interested in issues of the media's role in social justice      Sports and the Racial Divide Michael E. Lomax, 2011-03-11 With essays by Ron Briley Michael Ezra Sarah K Fields Billy Hawkins Jorge Iber Kurt Kemper Michael E Lomax Samuel O Regalado Richard Santillan and Maureen Smith This anthology explores the intersection of race ethnicity and sports and analyzes the forces that shaped the African American and Latino sports experience in post World War II America Contributors reveal that sports often reinforced dominant ideas about race and racial supremacy but that at other times sports became a platform for addressing racial and social injustices The African American sports experience represented the continuation of the ideas of Black Nationalism racial solidarity black empowerment and a determination to fight against white racism Three of the essayists discuss the protest at the 1968 Olympic Games in Mexico City In football baseball basketball boxing and track and field African American athletes moved toward a position of group strength establishing their own values and simultaneously rejecting the cultural norms of whites Among Latinos athletic achievement inspired community celebrations and became a way to express pride in ethnic and religious heritages as well as a diversion from the work week Sports was a means by which leadership and survival tactics were developed and used in the political arena and in the fight for justice      **After Artest** David J. Leonard, 2012-05-01 Explores how the NBA moved to govern black players and the expression of blackness after the Palace Brawl of 2004      The Colorblind Screen Sarah E. Turner, 2014-04-04 The election of President Barack Obama signaled for many the realization of a post racial America a nation in which racism was no longer a defining social cultural and political issue While many Americans espouse a colorblind racial ideology and publicly endorse the broad goals of integration and equal treatment without regard to race in actuality this attitude serves to reify and legitimize racism and protects racial privileges by denying and minimizing the effects of systematic and institutionalized racism In The Colorblind Screen the contributors examine television's role as the major discursive medium in the articulation and contestation of racialized identities in the United States While the dominant mode of televisual racialization has shifted to a colorblind ideology that foregrounds racial differences in order to celebrate multicultural assimilation the volume investigates how this practice denies the significant social economic and political realities and inequalities that continue to define race relations today Focusing on such iconic figures as President Obama LeBron James and Oprah Winfrey many chapters examine the ways in which race is read by television audiences and fans Other essays focus on how visual constructions of race in dramas like *24* *Sleeper Cell* and *The Wanted* continue to conflate Arab and Muslim identities in post 9/11 television The volume offers an important intervention in the study of the televisual representation of race engaging with multiple aspects of the mythologies developing around notions of a post racial America and the duplicitous discursive rationale offered by the ideology of colorblindness      American Cinema of the 1990s Chris

Holmlund,2008 Films discussed include Terminator 2 The matrix Home alone Jurassic Park Pulp fiction Boys don t cry Toy story and Clueless

**Critical Rhetorics of Race** Michael G. Lacy,Kent A. Ono,2011-07-11 According to many pundits and cultural commentators the U S is enjoying a post racial age thanks in part to Barack Obama s rise to the presidency This high gloss of optimism fails however to recognize that racism remains ever present and alive spread by channels of media and circulated even in colloquial speech in ways that can be difficult to analyze In this groundbreaking collection edited by Michael G Lacy and Kent A Ono scholars seek to examine this complicated and contradictory terrain while moving the field of communication in a more intellectually productive direction An outstanding group of contributors from a range of academic backgrounds challenges traditional definitions and applications of rhetoric From the troubling media representations of black looters after Hurricane Katrina and rhetoric in news coverage about the Columbine and Virginia Tech massacres to cinematic representations of race in Crash Blood Diamond and Quentin Tarantino s films these essays reveal complex intersections and constructions of racialized bodies and discourses critiquing race in innovative and exciting ways Critical Rhetorics of Race seeks not only to understand and navigate a world fraught with racism but to change it one word at a time

**Handbook of Sports and Media** Arthur A.
