Barack Obama David Maraniss, 2012-06-19 The groundbreaking multigenerational biography a richly textured account of President Obama and the forces that shaped him and sustain him from Pulitzer Prize winning reporter political commentator and acclaimed biographer David Maraniss In Barack Obama The Story David Maraniss has written a deeply reported generational biography teeming with fresh insights and revealing information a masterly narrative drawn from hundreds of interviews including with President Obama in the Oval Office and a trove of letters journals diaries and other documents The book unfolds in the small

towns of Kansas and the remote villages of western Kenya following the personal struggles of Obama's white and black ancestors through the swirl of the twentieth century. It is a roots story on a global scale, a saga of constant movement, frustration, and accomplishment; strong women and weak men; hopes lost and deferred; people leaving and being left. Disparate family threads converge in the climactic chapters as Obama reaches adulthood and travels from Honolulu to Los Angeles to New York to Chicago, trying to make sense of his past, establish his own identity, and prepare for his political future. Barack Obama: The Story chronicles as never before the forces that shaped the first black president of the United States and explains why he thinks and acts as he does. Much like the author's classic study of Bill Clinton, *First in His Class*, this promises to become a seminal book that will redefine a president. *Chicago Is Calling Me Home* John Warren Self, 2006

A Life That Matters Rey Abaya, 2009 The book is a collection of essays designed by the author to present an autobiographical sketch of his development as a person. The conceptual underpinning of the book as project is that the rich, varied life experiences of the author as seen through the prism of his philosophical reflections present an interesting narrative that readers would find appealing because they are at once both personal and universal. The author starts by declaring that he is an activist and he sees reality from that perspective. He goes on to trace what he considers his roots in terms of actual early life experiences and ideological journey, giving the reader an initial sense of who the author is. The first transition informs the reader about the author's relocation to Indonesia. This is followed by an individualized narrative about his family members that lets the reader peek into the author's operating concepts both as partner to his wife and parent to his children. This is followed by stories about persons that influenced his growth as a person, again giving the reader a sense of the author's core values. The second transition is about his relocation to the United States that entailed personal sacrifices from both the author and his wife. The next grouping of essays deals with the author's philosophical reflections on what he considers important life-altering topics. The book ends with two essays that deal with sickness and death and how coping with these has profoundly shaped his view of life.
