

Basque Nationalism

Cameron Watson

Basque Nationalism:

Basque Nationalism Stanley G. Payne, 1975 The confrontation between the Franco regime and Basque nationalists produced a series of political assassinations trials and reprisals This historical study presents a vivid account of a century of ferment to establish an independent Basque country It recounts the way that nationalism became a political force within Basque culture and how that movement subsequently splintered into numerous groups with diverse ideologies tactics and goals

Basque Nationalism and the Spanish State Andre Lecours, 2016-09-30 An examination of Basque nationalism from a historical perspective Basque nationalism has been extensively examined from the perspectives of Basque culture and internal conditions in the Basque Country but Andr Lecours is among the first to demonstrate how Basque nationalism was shaped by the many forms and historical phases of the Spanish state His discussion employs one of the most debated approaches in the social sciences historical institutionalism and it includes an up to date examination of the circumstances for and consequences of recent events such as ETA s announcement in 2006 of a permanent cease fire Lecours also analyzes other aspects of Basque nationalism including the international relations of the Basque Autonomous Government as well as the responses of the contemporary Spanish state and how it deploys its own brand of nationalism Finally the book offers a comparative discussion of Basque Catalan Scottish Flemish and Quebecois nationalist movements suggesting that nationalism in the Basque Country despite the historical presence of violence is in many ways similar to nationalism in other industrialized democracies Basque Nationalism and the Spanish State is an original and provocative discussion that is essential reading for anyone interested in the Basques or in the development of modern nationalist movements

The Social Roots Of Basque Nationalism Alfonso Pérez-Agote, 2006-03-08 Translated by Cameron Watson and William A Douglass Foreword by William A Douglass The Basque people have preserved their ethnic identity and sense of themselves as a separate community despite centuries of repression diaspora and economic and social upheaval one of the most remarkable achievements in the history of the phenomenon we call nationalism In The Social Roots of Basque Nationalism sociologist Alfonso P rez Agote addresses the social mechanisms that Basques employed to sustain their ethnic identity under the Franco Regime and demonstrates how persecution actually encouraged the extension of Basque nationalist consciousness He also reveals how state political pressure radicalized one element of the Basque nationalist movement resulting in the formation of ETA an armed terrorist wing that itself became a mechanism for extending nationalist consciousness Finally he examines the subsequent changes in Basque nationalism following Franco s death and the extension of democracy in Spain which resulted in the institutionalization of the movement into an autonomous political power This work is based in part on interviews and polls with informants in the Basque Country and abroad eliciting such data as the role that family education social contacts and religious environment play in the evolution of political attitudes the place of violence in the Basque world view and contemporary political culture regional variations in Basque nationalism and the

factors that contributed to the resilience of Basque nationalism in adapting to new historical conditions The result is a sophisticated discussion of the various ways in which Basque social reality is constituted and how this reality helps to create political culture Because Pérez Agote situates his discussion within the broader frameworks of ethnic identity group dynamics and the nature of nationalism the book makes a significant contribution not only to our understanding of the Basques but to the broader study of the evolution of nationalism and the nation state political violence and the complicated transition of any society from dictatorship to democracy *Radical Basque Nationalist-Irish Republican Relations* Niall Cullen, 2023-12-14 This volume explains the genesis and development of the nexus between radical Basque nationalists and Irish republicans how they have learnt from each other historically and how they have utilised this relationship at times to their benefit From medieval tales of shared origins to the violent conflicts largely wrought by ETA and the IRA the Basque Country and Ireland have long been associated in popular imagination Despite this little is known of historical Basque Irish relations and in particular the web of party political military and social movement connections between radical Basque nationalists and Irish republicans since the Irish Revolutionary Period 1916-23 Drawing on extensive archival research undertaken in Spain Ireland and the UK and more than 70 interviews conducted with politicians former paramilitaries and grassroots activists this is the first study to comprehensively document and analyse the emergence evolution and implications of this mythified transnational relationship *Radical Basque Nationalist Irish Republican Relations A History* will appeal to students and scholars of Irish republicanism Basque nationalism terrorism studies and social movements studies as well as those interested in the contemporary history of Western Europe's two most volatile regions **ETA and Basque Nationalism (RLE: Terrorism & Insurgency)** John L. Sullivan, 2015-04-17 This book traces the formation of ETA Euskadi ta Askatasuna and the tensions created by its combination and aims socialism and Basque nationalism The Basque Nationalist movement emerged in the late nineteenth century as a response to the rapid transformation of Basque society by industrialisation The influx of Spanish speaking workers to Basque territories seemed to threaten the stability of Basque society Gradually the immigrants became absorbed into the radical struggle with the creation of illegal trade unions and the need to resist the Franco regime by whatever means Over the next half century Basque consciousness developed until the radical nationalist organisation ETA was formed in 1959 Ethnicity and Violence Diego Muro, 2013-05-13 This book provides a genealogy of radical Basque nationalism and the means by which this complex often violent political movement has reinforced Basque identity Radical nationalists are mobilized by a shared frame of reference where ethnicity and violence are intertwined in a nostalgic recreation of a golden age and a quasi religious imperative to restore that distant past Muro critically examines the origins of the ethno nationalist conflict and provides a comprehensive examination of Euskadi Ta Askatasuna's ETA violent campaign The book analyzes the interplay of ethnicity and violence and stresses the role of inherited myths memories and cultural symbols to explain the ability of radical Basque nationalism to endure Basque Nationalism and Political Violence

Cameron Watson,2007 **Contemporary Nationalism** David Brown,2003-09-02 This book examines the problematic politics of contemporary nationalism and the worldwide resurgence of ethno nationalist conflict It analyses the core theories of nationalism building upon these theories and offering a clear analytical framework through which to approach the subject This outstanding volume features detailed case studies discussing nationalist contention in areas including Spain Singapore Ghana and Australia as well as looking at Northern Ireland Kosovo and Rwanda disputes **The Basques, the Franco Years and Beyond** Robert P. Clark,1979 Franco wreaked havoc on the people of the Basque Country at one time it was against the law to even speak any dialect of Basque This book looks at the emergence of Basque nationalism during the years of Franco s reign and after his death and highlights the struggle between classes and ethnic identity **Territory and Terror** Jan Mansvelt Beck,2004-11-10 All Basque interpretations of national power have resulted in an uneasy mix of often fragmented and conflicting territorial identifications Basques can identify themselves with France Spain or an imagined Basque nation state Territory and Terror confronts the imagined and actual territorial dimensions of nationalism shedding new light on the Basque conflict The study provides a rich description of territoriality analysed from a comparative perspective and explores the relation between territoriality and regional differences in conflict intensity It supplies an account of the oft overlooked internal struggles between Basques arguing that overestimation of Basque nationalism as the ideological force behind the conflict often leads to a disregard of the identification of many with France or Spain In addition the author investigates the conflicts between Basque nationalists themselves over key issues such as terrorist activity Territory and Terror will appeal to students and researchers of nationalism and territoriality in particular to those with an interest in the Basque country **The Social Roots Of Basque Nationalism** Alfonso Pérez-Agote,2006-03-08 In The Social Roots of Basque Nationalism sociologist Alfonso Perez Agote addresses the social mechanisms that Basques employed to sustain their ethnic identity under the Franco Regime and demonstrates how persecution actually encouraged the extension of Basque nationalist consciousness He also reveals how state political pressure radicalized one element of the Basque nationalist movement resulting in the formation of ETA an armed terrorist wing that itself became a mechanism for extending nationalist consciousness Finally he examines the subsequent changes in Basque nationalism following Franco s death and the extension of democracy in Spain which resulted in the institutionalization of the movement into an autonomous political power This work is based in part on a wide range of interviews and polls with informants in the Basque Country and abroad eliciting such data as the role that family education social contacts and religious environment play in the evolution of political attitudes the place of violence in the Basque worldview and contemporary political culture regional variations in Basque nationalism and the factors that contributed to the resilience of Basque nationalism in adapting to new historical conditions The result is a discussion of the various ways in which Basque social reality is constituted and how this reality helps to create political culture BOOK JACKET **Basque Nationalism and Political Violence** Cameron Watson,2007 This text examines

the relationship between ideas and action through a historical account of how images of violence and warfare pervaded the discourse of Basque nationalism Watson argues that a culture of political violence emerged within the Basque nationalist movement that eventually resulted in the 1959 creation of ETA

Basque Nationalism and the Spanish State André Lecours, 2007-07-13 An examination of Basque nationalism from a historical perspective Basque nationalism has been extensively examined from the perspectives of Basque culture and internal conditions in the Basque Country but Andr Lecours is among the first to demonstrate how Basque nationalism was shaped by the many forms and historical phases of the Spanish state His discussion employs one of the most debated approaches in the social sciences historical institutionalism and it includes an up to date examination of the circumstances for and consequences of recent events such as ETA s announcement in 2006 of a permanent cease fire Lecours also analyzes other aspects of Basque nationalism including the international relations of the Basque Autonomous Government as well as the responses of the contemporary Spanish state and how it deploys its own brand of nationalism Finally the book offers a comparative discussion of Basque Catalan Scottish Flemish and Quebecois nationalist movements suggesting that nationalism in the Basque Country despite the historical presence of violence is in many ways similar to nationalism in other industrialized democracies Basque Nationalism and the Spanish State is an original and provocative discussion that is essential reading for anyone interested in the Basques or in the development of modern nationalist movements

The Origins, Ideology, and Organization of Basque Nationalism, 1876-1903 Javier Corcuera Atienza, 2006 In this seminal work Javier Corcuera charts the emergence and rise of nationalism within the context of a society experiencing tremendous economic social and political transformation

Nationalism, Violence and Democracy Ludger Mees, 2003-06-24 Ludger Mees offers the first comprehensive study of one of Europe s most protracted ethnic conflicts He carefully analyzes both the historical roots of the conflict and its later growing violent dimension Special attention is paid to the framing of a new opportunity structure during the 1990s which facilitated the first serious but ultimately frustrated attempt to broker a settlement In the light of different theoretical and comparative approaches the reasons for the dramatic return of terrorism and the possibilities of a more successful conflict de escalation in the near future are discussed

Cities, Nationalism and Democratization Scott A. Bollens, 2007-04-11 Filling a gap in the peacemaking and conflict literatures market and including a set of over 100 interviews with local political and community leaders this book will be helpful to scholars international organizations and grassroots organizations

Territory and Terror Jan Mansvelt Beck, 2004-11-10 All Basque interpretations of national power have resulted in an uneasy mix of often fragmented and conflicting territorial identifications Basques can identify themselves with France Spain or an imagined Basque nation state Territory and Terror confronts the imagined and actual territorial dimensions of nationalism shedding new light on the Basque conflict The study provides a rich description of territoriality analysed from a comparative perspective and explores the relation between territoriality and regional differences in conflict intensity It supplies an

account of the oft overlooked internal struggles between Basques arguing that overestimation of Basque nationalism as the ideological force behind the conflict often leads to a disregard of the identification of many with France or Spain In addition the author investigates the conflicts between Basque nationalists themselves over key issues such as terrorist activity Territory and Terror will appeal to students and researchers of nationalism and territoriality in particular to those with an interest in the Basque country

Federalism J. Boogman,2012-12-06 The commemoration of the formation of the Union of Utrecht four hundred years ago on 23 January 1579 was celebrated by many different events One of these certainly not the least important to historians was the holding of an inter national congress in Utrecht and Zeist on 8 9 and 10 May 1979 organized by the Dutch Historical Association This Association had decided to select a theme which fitted well in the framework of the Union celebrations federalism history and current significance of a form of government For the Union of Utrecht constituted the legal foundation even the constitution it is claimed of the Republic of the United Netherlands and that commonwealth can undoubtedly be regarded as a very interesting example of a federal form of government As is evident from the formulation of the congress theme the intention of the organizers was that attention should be given not only to federal and regional structures and tendencies in the past but also in the contemporary world Historical phenomena needed necessarily to be viewed in present day perspective current problems ought if possible to be seen in historical perspective There is no doubt that the prevailing view today at least in the Western World is to a great extent characterized by a growing dislike of the modern Leviathan the highly centralized bureaucratic welfare State

The Basques, the Catalans and Spain Daniele Conversi,1997 This work provides an introduction to Basque and Catalan nationalism The two movements have much in common but have differed in the strategies adopted to further their cause Basque nationalism in the shape of the military wing of ETA took the path of violence spawning an efficient terrorist campaign while Catalan nationalism is more accommodating and peaceful

Paradiplomacy in Action Francisco Aldecoa,Dr Michael Keating,2013-10-23 Offering a general view of the development of subnational foreign action around the world this work covers topics such as the repercussions upon subnational autonomy of the progressive constitution of international regimes such as the EU NAFTA and APEC

Decoding **Basque Nationalism**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring.
