The Dominion of Women Wayne Fraser, 1991-01-30 Wayne Fraser's examination of the works of eighteen women writers in English Canada's history demonstrates how Canadian women's literature provides rich insight into the social and political development of the country Fraser approaches the subject as a literary critic arguing that these narratives were constructed within a certain social and political framework that resulted in a body of literature whose themes focus on the relationship of the individual to the larger community an essentially feminine orientation The study arranged chronologically from colonial times through the 1980s parallels women's personal experiences with Canada's political development In depth analyses of works of such notables as Frances Brooke Ethel Wilson and Margaret Atwood support Fraser's contention that the literature as a forum where women voiced their personal concerns regarding marriage colonialism independence and feminism reflects and comments on Canada's political identity as a country with a continuing commitment to compromise cooperation and international peace A bibliography and general subject index complete this volume which will furnish historians and critics of women's literature with a new understanding of the topic

The Journal of Educational Thought, 1986

The Double Ghetto Pat Armstrong, Hugh Armstrong, 1993 This definitive study on women is now updated for the 90s Sociologists Pat and Hugh Armstrong hoped that enough would change in the nature and conditions of women's work that an entirely new book would be necessary and they could abandon the old framework on the division of labour by sex But their hopes have not been realized and a new edition not only seems useful but overdue The Double Ghetto surveys the work women do at home and on the job to analyze why work in this country is still segregated by sex In the third edition the authors devote new space to postmodernist theory and include new material on the differences between women emphasizing race but including region and age More attention is also given to the casualization of labour due to the dramatic expansion of part time work In easy to read language The Double Ghetto explores a vital part of the socially structured life to Canadian women using the most up to date 1993 statistics and scholarly research available
