Investigations in Philosophy Dorit Lemberger, 2023-02-24 This pioneering volume explores and exemplifies the relevance of psychoanalysis to contemporary philosophical problems The novelty of the book s viewpoint is the consideration of psychoanalysis as an existentialist mode of thinking that deals with current existential problems such as loneliness uncertainty struggling with personal tragedies and rehabilitation Each chapter presents classic aspects of psychoanalytic theory based on Greek tragedies as well as their similarities with interdisciplinary aspects in other areas of study like modern literature hermeneutics and philosophy of language To deepen each subject each chapter also applies an interdisciplinary methodology that illuminates previously hidden insights arising from the fusion of psychoanalysis and philosophy Featuring contributions from well known scholars like Professor Avi Sagi and Professor Dov Schwartz as well as more up and coming writers the book suggests possible implications of philosophical hermeneutical and literary theories to the perception of post

modern issues concerning agency and the subjective emotional world Psychoanalytic Investigations in Philosophy is of great interest to scholars of psychoanalysis and hermeneutic philosophy as well as teachers and academics who want to explore new teaching methods in various disciplines and general interest readers who wish to expand their horizons around concepts that can be applied to better understand themselves and the age in which we live **Unsettled Remains** Cynthia Sugars, Gerry Turcotte, 2010-08-27 *Unsettled Remains* Canadian Literature and the Postcolonial Gothic examines how Canadian writers have combined a postcolonial awareness with gothic metaphors of monstrosity and haunting in their response to Canadian history The essays gathered here range from treatments of early postcolonial gothic expression in Canadian literature to attempts to define a Canadian postcolonial gothic mode Many of these texts wrestle with Canada's colonial past and with the voices and histories that were repressed in the push for national consolidation but emerge now as uncanny reminders of that contentious history The haunting effect can be unsettling and enabling at the same time In recent years many Canadian authors have turned to the gothic to challenge dominant literary political and social narratives In Canadian literature the postcolonial gothic has been put to multiple uses above all to figure experiences of ambivalence that have emerged from a colonial context and persisted into the present As these essays demonstrate formulations of a Canadian postcolonial gothic differ radically from one another depending on the social and cultural positioning of who is positing it Given the preponderance in colonial discourse of accounts that demonize otherness it is not surprising that many minority writers have avoided gothic metaphors In recent years however minority authors have shown an interest in the gothic signalling an emerging critical discourse This spectral turn sees minority writers reversing long standing characterizations of their identity as monstrous or invisible in order to show their connections to and disconnection from stories of the nation

Pedagogy T. R. Johnson,2014-10-15 Delineates Lacan s theory of the four discourses as a practical framework through which faculty can reflect on where their students are developmentally and where they might go University classrooms are increasingly in crisis though popular demands for accountability grow more insistent no one seems to know what our teaching should seek to achieve This book traces how we arrived at our current impasse and it uses Lacan s theory of the four discourses to chart a path forward via an analysis of the freshman writing class How did we forfeit a meaningful set of goals for our teaching T R Johnson suggests that by the 1960s the work of Bergson and Piaget had led us to see student growth as a journey into more and more abstract thought a journey that will happen naturally if the teacher knows how to stay out of the way Since the 1960s we ve come to see development in turn only as a vague initiation into the academic community This book however offers an alternative tradition one rooted in Vygotsky and the feminist movement that defines the developing student writer in terms of a complex intersubjective ecology and then through these precedents proposes a fully psychoanalytic model of student development To illustrate his practical use of the four discourses Johnson draws on a wide array of concepts and a colorful set of examples including Franz Kafka Keith Richards David Foster Wallace Hannah Arendt and many others Graceful provocative thoughtful and well researched The Other Side of Pedagogy connects theory and teaching in compelling ways This is a groundbreaking book that scholars of writing will want to read reread and teach

Joseph Harris author of A Teaching Subject Composition Since 1966 *Handbook of Traumatic Loss* Neil Thompson,Gerry R. Cox,Robert G. Stevenson,2017-01-06 The Handbook of Traumatic Loss adopts a broad holistic approach that recognizes traumatic loss much more fully as a multidimensional human phenomenon not simply a medical condition Initial chapters build a foundation for understanding traumatic loss and explore the many ways we respond to trauma Later chapters counterbalance the individualistic focus of dominant approaches to traumatic loss by highlighting a number of thought provoking social dimensions of traumatic loss Each chapter emphasizes different aspects of traumatic loss and argues for ways in which clinicians can help deal with its many and varied impacts *Understanding Violence* Lorenzo

Magnani,2024-06-22 This book offers a philosophical account of violence engaged with both empirical and theoretical

debates in disciplines such as cognitive science sociology psychiatry anthropology political theory evolutionary biology and theology The primary thesis is that violence is intertwined with morality and typically enacted for moral reasons To show this the book compellingly demonstrates how morality operates to trigger and justify violence and how people in their violent behaviors can engage and disengage with discrete moralities The author's fundamental account of language and in particular its normative aspects is particularly insightful as regards extending the range of what is to be understood as violence beyond the domain of physical harm By employing concepts such as coalition enforcement moral bubbles cognitive niches overmoralization and military intelligence the book aims to spell out how perpetrators and victims of violence systematically disagree about the very nature of violence The author's original claim is that disagreement can be understood naturalistically described by an account of morality informed by evolutionary perspectives as well This book helps us come to terms with the fact that we are intrinsically violent beings To acknowledge this condition and our stupefying capacity to inflict harm is a responsibility we must face up to such understanding could ultimately be of help in order to achieve a safer ownership of our destinies by individuating and reinforcing those cognitive firewalls that would prevent violence from always escalating and overflowing This second edition is thoroughly revised and integrated with two new chapters to cover new aspects of violence and its understanding such as the role of looting finance in facilitating violent outcomes and the attack to scientific cognition and human creativity

Spectatorship and Film Theory Carlo Comanducci, 2018-08-27 This book interrogates the relation between film spectatorship and film theory in order to criticise some of the disciplinary and authoritarian assumptions of 1970s apparatus theory without dismissing its core political concerns Theory in this perspective should not be seen as a practice distinct from spectatorship but rather as an integral aspect of the spectator s gaze Combining Jacques Ranci re s emancipated spectator with Judith Butler s queer theory of subjectivity *Spectatorship and Film Theory* foregrounds the contingent embodied and dialogic aspects of our experience of film Erratic and always a step beyond the grasp of disciplinary discourse this singular work rejects the notion of the spectator as a fixed position and instead presents it as a field of tensions a wayward history of encounters
